Version 12.1.2 (July 21, 2023)

© 2023, Association of Racing Commissioners International.

The Association of Racing Commissioners International has drafted Model Rules of Racing for the use of the Pari-Mutuel Industry.

The Model Rules are seen as a living document that is amended as the need arises.

Interested parties that have proposals for rule changes should contact the RCI office at (859) 224-7070 to submit their proposals.

The RCI Model Rules Committee meetings are open to any interested member of the pari-mutuel industry or the public and all input regarding the rules is welcome.

The Model Rules are housed and maintained on the University of Arizona, Race Track Industry Program's web site as a service to RCI and the parimutuel racing industry.

The following Table of Contents is hyper-linked to the corresponding place in the rule document.

- (1) A complaint must be in writing and filed with the stewards/judges not later than ___ after the action that is the subject of the complaint.
- (2) On their own motion or on receipt of a complaint from an official or other person regarding the actions of a licensee, the stewards/judges may conduct an inquiry and disciplinary hearing regarding a licensee's actions.

C. Summary Suspension

- (1) If the stewards/judges determine that a licensee's actions constitute an immediate danger to the public health, safety or welfare, the stewards/judges may summarily suspend the license pending a hearing.
- (2) A licensee whose license has been summarily suspended is entitled to a hearing on the summary suspension not later than the ___ day after the license was summarily suspended.

The licensee may waive his/her right to a hearing on the summary suspension within the ____-day limit.

- (3) The stewards/judges shall conduct a hearing on the summary suspension in the same manner as other disciplinary hearings. At a hearing on a summary suspension, the sole issue is whether the licensee's license should remain suspended pending a final disciplinary hearing and ruling.

D. Notice

- (1) Except as provided by these rules regarding summary suspensions, the stewards/judges shall provide written notice at least ____ before the hearing to a person who is the subject of a disciplinary hearing. The person may waive his/her right to ____ notice by executing a written waiver.

- (4) Nonappearance of a summoned party after adequate notice shall be construed as a waiver of the right to a hearing before the stewards/judges. The stewards/judges may suspend the license of a person who fails to appear at a disciplinary hearing after written notice of the hearing has been sent, in compliance with this subsection.

E. Continuances

- (1) Upon receipt of a notice, a person may request a continuance of the hearing.

- (6) All fines imposed by the stewards/judges shall be paid to the Commission within ___ after the ruling is issued, unless otherwise ordered.

H. Effect of Rulings

- (1) Rulings against a licensee apply to another person if continued participation in an activity by the other person would circumvent the intent of a ruling by permitting the person to serve, in essence, as a substitute for the ineligible licensee.
- (2) The transfer of a contestant to avoid application of a Commission rule or ruling is prohibited.

I. Appeals

- (1) A person aggrieved by a ruling of the stewards/judges may appeal to the Commission except as provided in # 6 of this subsection. A person who fails to file an appeal by the deadline and in the form required by this section waives the right to appeal.

ARCI-003-015 *Proceedings By The Commission*

A. Party Designations

- (1) A person who is the subject of a disciplinary hearing, who filed an appeal from a stewards/judges' ruling or who otherwise seeks relief from the Commission is a party to that proceeding.
- (2) A party to a proceeding has the right to present a direct case, cross examine each witness, submit legal arguments and otherwise participate fully in the proceeding.
- (3) A party summoned to appear at a hearing must appear unless he/she is excused by the Commission presiding officer. Parties may appear with counsel or other representatives of their choice.
- (4) A non-party to a proceeding who wishes to appear in a contested case pending before the Commission must prove that he/she has an effected interest sufficient to create standing in the case. The burden of proof is on the party asserting standing in such a contested case.

B. Notice

- (1) Not less than ___ days before the date set for a hearing, the Commission shall serve written notice on each party of record to the proceeding. The person may waive his/her right to said notice by executing a written waiver.
- (2) The Commission shall mail the notice to the person's last known address, as found in the Commission's licensing files, by regular mail and by personal service or certified mail, return receipt requested.
- (3) A notice of the hearing must include:
 - a. statement of time, place and nature of the hearing;
 - b. statement of the legal authority and jurisdiction under which the hearing is to be held;
 - c. reference to the particular sections of the statutes and rules involved;
 - d. short, plain statement of the matters asserted; and
 - e. any other statement required by law.
- (4) If the Commission determines that a material error has been made in a notice of hearing, or that a material change has been made in the nature of a proceeding after notice has been issued, the Commission shall issue a revised notice. The party who has caused the change or error requiring revised notice shall bear the expense of giving revised notice.
- (5) A party to a proceeding may move to postpone the proceeding. The motion must be in writing, set forth the specific grounds on which it is sought and be filed with the Commission before the date set for hearing. If the person presiding over the proceeding grants the motion for postponement, the Commission shall cause new notice to be issued.
- (6) After a hearing has begun, the presiding officer may grant a continuance on oral or written motion, without issuing new notice, by announcing the date, time and place for reconvening the hearing before recessing the hearing.

C. Subpoenas and Depositions

- (1) A member of the Commission, the executive director, the stewards/judges, the presiding officer of a Commission proceeding or other person authorized to perform duties under the Act may require by subpoena the attendance of witnesses and the reproduction of books, records, papers, correspondence and other documents.
- (2) A member of the Commission, the executive director, a presiding officer of a Commission proceeding or other person authorized by the Commission may administer an oath or affirmation to a witness appearing before the Commission or a person authorized by the Commission.
- (3) Each party is responsible for proper service of any subpoenas it requests and for the payment of witness fees and expenses as provided by this jurisdiction's civil procedures statute.
- (4) On written request by a party, the presiding officer may issue a subpoena addressed to a sheriff or any constable to require the attendance of witnesses and the production of books, records, papers or other objects as may be necessary and proper for the purposes of a proceeding. A motion for a subpoena to compel the production of books, records, papers or other objects shall be addressed to the appropriate person, shall be verified and shall specify the books, records, papers or other objects desired and the relevant and material facts to be proved by them.
- (5) The Administrative Procedures Act, _____ Civil Statutes, Art. _____, Sec. _____ governs the taking and use of depositions. Rule _____ of the _____ Rules of Civil Procedure governs admissions of fact and genuineness of documents.

D. Pleadings

- (1) Pleadings filed with the Commission include appeals, applications, answers, complaints, exceptions, replies and motions. Regardless of an error in designation, a pleading shall be accorded its true status in the proceeding in which it is filed.
- (2) A request for discovery or a response to a request for discovery is not a pleading and is not a part of the administrative record of a contested case unless the request or response is offered into evidence.
- (3) A pleading for which the Commission staff has not prepared an official form must contain:
 - (a) the name of the pleader;
 - (b) the telephone number and street address of the pleader's residence and business and the telephone number and street address of the pleader's representative, if any;

 - (d) a concise statement of the facts relied on by the pleader;
 - (e) a request stating the type of Commission action desired by the pleader;
 - (f) the name and address of each person who the pleader knows or believes will be affected if the request is granted;
 - (g) a proposed order, containing proposed findings of fact and conclusions of law;
 - (h) any other matter required by statute or Commission rule; and
 - (i) a certificate of service.

- (4) A party filing a pleading shall mail or deliver a copy of the pleading to each party of record. If a party is being represented by an attorney or other representative, service must be made on the attorney or representative instead of on the party. The knowing failure of a party to make service in accordance with this subsection is grounds for the Commission to strike the pleading from the record.
- (5) An objection to a defect, omission or fault in the form or content of a pleading must be specifically stated in a motion or an exception presented not later than the prehearing conference if one is held and not later than ___ before the date of the hearing if a prehearing conference is not held. A party who fails to timely file an objection under this subsection waives the objection.
- (6) Except as otherwise provided by this subsection, a pleader may amend or supplement a pleading at any time before the ___ day after the date the pleading was filed, but not later than ___ days before the date of the hearing. A pleader may amend or supplement a pleading at any time:
 - (a) on written consent of each party of record; or
 - (b) as permitted by the presiding officer for the proceeding, when justice requires the amendment or supplementation and when the amendment or supplementation will not unfairly surprise another party.
- (7) A pleading may adopt or incorporate by specific reference any part of a document in the official files and records of the Commission. This subsection does not relieve the pleader of the duty to allege in detail all facts necessary to sustain the pleader's burden of proof.

E. Conferences

- (1) On written notice, the presiding officer may, on the officer's own motion or on the motion of a party, direct each party to appear at a specified time and place for a prehearing conference to formulate issues and consider any of the following:

 - (g) resolving other matters that may expedite or simplify the disposition of the controversy, including settling issues in dispute; and
 - (h) identifying provisions and mandates of statute or rules relating to the issues.
- (2) The presiding officer shall record the action taken at the prehearing conference unless the parties enter into a written agreement as to the action. The presiding officer may enter appropriate orders concerning prehearing discovery, stipulations of uncontested matters, presentation of evidence and scope of inquiry.
- (3) During a hearing, on written notice or notice stated into the record, the presiding officer may direct each party or the representative of each party to appear for a conference to consider any matter that may expedite the hearing and serve the interests of justice. The presiding officer

shall prepare a written statement regarding the action taken at the conference and the statement must be signed by each party and made a part of the record.

F. Discovery

All motions for discovery shall be subject to the civil procedures statutes of this jurisdiction.

G. Reporters and Transcripts

- (1) If necessary, the Commission shall engage a court reporter to make a stenographic record of a hearing. The Commission may allocate the cost of the reporter and transcript among the parties.
- (2) If a person requests a transcript of the stenographic record, the Commission may assess the cost of preparing the transcript to the person.
- (3) A party may challenge an error made in transcribing a hearing by noting the error in writing and suggesting a correction not later than ___ after the date the transcript is filed with the Commission. The party claiming errors shall serve a copy of the suggested corrections on each party of record, the court reporter and the presiding officer. If proposed corrections are not objected to before the ___ day after the date the corrections were filed with the Commission, the presiding officer may direct that the suggested corrections be made and the manner of making them. If the parties disagree on the suggested corrections, the presiding officer shall determine whether to change the record.

H. Nature of Hearings

- (1) An appeal from a decision of the stewards/judges shall be a hearing on the record of the stewards/judges' hearing. The hearing may be a de novo hearing at the Commission's discretion.
- (2) A hearing in a Commission proceeding is open to the public, however, witnesses may be excluded or sequestered. Commission deliberations may be conducted in private if permitted by statute.
- (3) Unless precluded by law or objected to by a party, the Commission may allow informal disposition of a proceeding without a hearing. Informal disposition includes disposition by stipulation, agreed settlement, consent order and default.

I. Presiding Officers

- (1) A member of the Commission, a Commission appointee or an administrative law judge may serve as the presiding officer for a Commission proceeding.
- (2) The presiding officer may:
 - (a) authorize the taking of depositions;

 - (m) propose orders and decisions; and
 - (n) perform other duties necessary to a fair and proper hearing.
- (3) A person serving as the presiding officer of a proceeding must be a disinterested party to the proceeding.

J. Order of Hearing

- (1) The presiding officer shall open the hearing, make a concise statement of its scope and purposes and announce that a record of the hearing is being made.
- (2) When a hearing has begun, a party or a party's representative may make statements off the record only as permitted by the presiding officer. If a discussion off the record is pertinent, the presiding officer shall summarize the discussion for the record.
- (3) Each appearance by a party, a party's representative or a person who may testify must be entered on the record.
- (4) The presiding officer shall receive motions and afford each party of record an opportunity to make an opening statement.
- (5) Except as otherwise provided by this subsection, the party with the burden of proof is entitled to open and close. The presiding officer shall designate who may open and close in a hearing on a proceeding if the proceeding was initiated by the Commission or if several proceedings are heard on a consolidated record.
- (6) After opening statements, the party with the burden of proof may proceed with the party's direct case. Each party may cross examine each witness.
- (7) After the conclusion of the direct case of the party having the burden of proof, each other party may present their direct case and their witnesses will be subject to cross examination.
- (8) The members of the Commission and/or the presiding officer may examine any witnesses.
- (9) At the conclusion of all evidence and cross examination, the presiding officer shall allow closing statements.
- (10) Before writing a report or proposal for decision if required by law, the Commission or the presiding officer may call on a party for further relevant and material evidence on a issue. The Commission or the presiding officer may not consider the evidence or allow it into the record without giving each party an opportunity to inspect and rebut the evidence.

K. Behavior

- (1) Each party, witness, attorney or other representative shall behave in all Commission proceedings with dignity, courtesy and respect for the Commission, the presiding officer and all other parties and participants.
- (2) An individual who violates this section may be excluded from a hearing by the presiding officer.

L. Evidence

- (1) All testimony must be given under oath administered by the presiding officer. The presiding officer may limit the number of witnesses and shall exclude all irrelevant, immaterial or unduly repetitious evidence.
- (2) The presiding officer shall follow the rules of evidence as applied in administrative hearing procedures in this jurisdiction. The rules of privilege recognized by law in this jurisdiction apply in Commission proceedings.
- (3) A party may object to offered evidence and the objection shall be noted in the record. A party, at the time an objection is made or sought, shall make known to the presiding officer the action the party desires. Formal exceptions to rulings by the presiding officer during a hearing are unnecessary.
- (4) When the presiding officer rules to exclude evidence, the party offering the evidence may make an offer of proof by dictating or submitting in writing the substance of the proposed evidence, before the closing of the hearing. The offer of proof preserves the point for review. The presiding officer may ask a witness or offered witness questions necessary to indicate that the witness would testify as represented in the offer of proof. An alleged error in sustaining an objection to questions asked on cross examination is preserved without making an offer of proof.
- (5) The presiding officer may take official notice of judicially cognizable facts and of facts generally recognized within the area of the Commission's specialized knowledge. The Commission shall notify each party of record before the final decision in a proceeding of each specific fact officially noticed, including any facts or other data in staff memoranda. A party must be given an opportunity to rebut the facts to be noticed.
- (6) The special skills and knowledge of the Commission and the Commission staff may be used in evaluating the evidence.
- (7) The presiding officer may receive documentary evidence in the form of copies or excerpts if the original is not readily available. On request, the presiding officer shall allow a party to compare the copy with the original. If many similar documents are offered in evidence, the presiding officer may limit the documents admitted to a number which are representative of the total number, or may require that the relevant data be abstracted from the documents and presented as an exhibit. If the presiding officer requires an abstract, the presiding officer shall allow each party or the party's representative to examine the documents from which the abstracts are made.
- (8) The presiding officer may require prepared testimony in a hearing if the presiding officer determines that it will expedite the hearing without substantially prejudicing the interests of a

party. Prepared testimony consists of any document that is intended to be offered as evidence and adopted as sworn testimony by a witness who prepared the document or supervised its preparation. A person who intends to offer prepared testimony at a hearing shall prefile the testimony with the Commission on the date set by the presiding officer and shall serve a copy of the prepared testimony on each party of record. The presiding officer may authorize the late filing of prepared testimony on a showing of extenuating circumstances. The prepared testimony of a witness may be incorporated into the record as if read or received as an exhibit, on the witness being sworn and identifying the writing as a true and accurate record of what the testimony would be if the witness were to testify orally. The witness is subject to clarifying questions and to cross examination and the prepared testimony is subject to a motion to strike either in whole or in part.

- (9) The party offering an exhibit shall tender the original of the exhibit to the presiding officer for identification. The party shall furnish one copy to the presiding officer and one copy to each party of record. A document received in evidence may not be withdrawn except with the permission of the presiding officer. If an exhibit has been offered, objected to and excluded and the party offering the exhibit withdraws the offer, the presiding officer shall return the exhibit to the party. If the party does not withdraw the offered exhibit, the exhibit shall be numbered for identification, endorsed by the presiding officer with the ruling on the exhibit and included in the record to preserve the exception.
- (10) The presiding officer may allow a party to offer an exhibit in evidence after the close of the hearing only on a showing of extenuating circumstances and a certificate of service on each party of record.

M. Findings of Fact and Conclusions of Law

- (1) The presiding officer may direct any party to draft and submit proposed findings of fact and conclusions of law or a proposal for decision. The presiding officer may limit the request for proposed findings to a particular issue of fact.
- (2) Proposed findings of fact submitted under this section must be supported by concise and explicit statements of underlying facts developed from the record with specific reference to where in the record the facts appear.
- (3) Only if the presiding officer requires the filing of proposed findings of fact or a proposal for decision is the Commission required to rule on the proposed findings of fact in accordance with statute. If a party is permitted but not required to submit proposed findings or a proposal for decision, the Commission is not required to rule on the party's proposed findings.

N. Proposal for Decision

- (1) In a contested case, if a majority of the Commissioners have not heard the case or read the record, the Commission may not render a decision adverse to a party other than the Commission unless a proposal for decision is served on each party and each party has an opportunity to file exceptions and present briefs to the Commissioners. The proposal for decision must be prepared by the person who conducted the hearing and contain a statement of the reasons for the proposed decision and for each finding of fact and conclusion of law necessary to the proposed decision. The parties may waive the requirements of this subsection by written stipulation.

- (2) The person preparing a proposal for decision under this section shall serve a copy of the proposal on each party of record.
- (3) A proposal for decision may be amended by documents submitted by the parties without the amended proposal for decision being served on the parties. Unless the amended proposal for decision is served on all parties, amendments adopted by the Commission must be noted and embodied with specificity in the Commission's final order.
- (4) A party of record may, not later than _____ days after the date of service of a proposal for decision, file exceptions to the proposal. A reply to an exception filed under this subsection must be filed not later than _____ days after the last day for filing the exceptions. A copy of each exception and reply must be served on all parties of record.
- (5) After the expiration of time for filing exceptions and replies, the Commission shall consider the proposal for decision in open meeting. The Commission may:
 - (a) adopt or modify the proposal for decision, in whole or in part;
 - (b) decline to adopt the proposal for decision, in whole or in part;
 - (c) remand the proceeding for further examination by the same or a different presiding officer; or
 - (d) direct the presiding officer to give further consideration to the proceeding with or without reopening the hearing.
- (6) If on remand additional evidence is received which results in a substantial revision of the proposal for decision, a new proposal for decision shall be prepared, unless a majority of the Commission, on remand, has heard the case or read the record. A new proposal for decision must be clearly labeled as such and all parties of record are entitled to file exceptions, replies and briefs.

O. Dismissal

On its own motion or a motion by a party, the presiding officer may dismiss a proceeding, with or without prejudice, under conditions and for reasons that are just and reasonable, including:

- (1) failure to timely pay all required fees to the Commission;
- (2) unnecessary duplication of proceedings;
- (3) withdrawal;
- (4) moot questions or obsolete petitions; and
- (5) lack of jurisdiction.

P. Orders

- (1) Except as otherwise provided by these rules, the Commission shall issue a final order not later than ___ after the conclusion of the hearing. A final order of the Commission must be in writing and be signed by a majority of the members of the Commission who voted in favor of the action taken by the Commission. A final order must include findings of facts and conclusions of law, separately stated.
- (2) The Commission staff shall mail or deliver a copy of the order to each party or the party's representative.

- (3) A final order of the Commission takes effect on the date the order is issued, unless otherwise stated in the order.
- (4) If the Commission finds that an imminent peril to the public health, safety or welfare requires an immediate final order in a proceeding, the Commission shall recite that finding in the order in addition to reciting that the order is final from the date issued. An order issued under this subsection is final and appealable from the date issued and a motion for rehearing is not a prerequisite to appeal.
- (5) The commission staff shall electronically submit the order to the NAPRA or RCI Ruling Database.

- (3) Wagering on historical horse races shall be offered on terminals that include a cabinet in which the electronics and other operating components are located. All terminals and other equipment shall be subject to inspection by the commission.
- (4) The terminal cabinet and electronics shall:
 - i. protect against electrostatic interference by being grounded so that static discharge energy shall not permanently damage or inhibit the normal operation of the electronics or other components within the wagering terminal. In the event that a temporary disruption of the normal operation of a wagering terminal occurs as a result of an electrostatic discharge, the wagering terminal shall have the capacity to recover and complete any interrupted wager without loss or corruption of any control or critical data information. Each terminal shall be tested to a maximum discharge severity level of 27 kilovolt air discharge;
 - ii. not be adversely affected, other than during resets, by surges or dips of up to 20 percent of the supply voltage. If a wagering terminal is designed such that a surge or dip of up to 20 percent of the supply voltage causes a reset, the terminal shall also be designed so that a surge or dip shall not result in damage to the equipment or loss or corruption of data. Upon reset, the wager play shall return to its previous state or return to a wager completion state, provided the wagering history and all credit and accounting meters comprehend a completed wager play;
 - iii. have an on/off switch that controls the electrical current installed in a readily accessible location within the interior of the terminal so that power cannot be disconnected from outside of the terminal using the on/off switch. The on/off positions of the switch shall be labeled;
 - iv. be designed so that power and data cables into and out of the terminal can be routed so that they are not accessible to the general public. Security-related wires and cables that are routed into a logic area shall be securely fastened within the interior of the terminal;

 1. name of the terminal provider;
 2. a unique serial number;
 3. the terminal model number; and

4. the date of manufacture;
- vi. have an external tower light located conspicuously on the top of the terminal that automatically illuminates when a patron has won an amount that the terminal cannot automatically pay or when an error condition has occurred;
- vii. be constructed of materials that are designed to allow only authorized access to the inside of the terminal. The terminal and its locks, doors, and associated hinges shall be capable of withstanding determined and unauthorized efforts to gain access to the inside of the terminal and shall be designed to leave evidence of tampering if such an entry is made;
- viii. be equipped with doors of a locked area that are designed to resist the use of tools or other objects used to breach the locked area by physical force;
- ix. have external doors that shall be locked and monitored by door access sensors. When the external doors are opened, the door access sensors shall:
 1. cause wagering activity to cease;
 2. disable all currency acceptance;
 3. enter an error condition;
 4. illuminate the tower light at a minimum; and
 5. record the error condition. The requirements of this Subsection do not apply to the drop box door;
- x. have external doors designed so that it shall not be possible to insert a device into the terminal that will disable a sensor that indicates “door open” without leaving evidence of tampering when the door of the terminal is shut;
- xi. have a sensor system that shall provide notification that an external door is open when the door is moved from its fully closed and locked position, provided power is supplied to the device;
- xii. have a logic area, which is housed in a secure server approved by the Commission, or which is a separately locked cabinet area with its own monitored, locked door or other monitored, locked covering that houses electronic components that have the potential to significantly influence the operation of the terminal. There may be more than one such logic area in a terminal. The electronic components housed in the logic area shall include:
 1. a central processing unit and any program storage device that contains software that may affect the integrity of wagering, including the individual play accounting, system communication, and peripheral firmware devices involved in or that significantly influence the operation and calculation of wager plays, wager outcome display, wager result determination, or wager play accounting, revenue, or security;
 2. communication controller electronics and components housing the communication program storage device; and
 3. the nonvolatile memory backup device, which if located in the logic area, shall be kept within a locked logic area; and

- xiii. have a currency storage area that is separately keyed and fitted with sensors that indicate "door open/close" or "stacker receptacle removed," provided power is supplied to the device. Access to the currency storage area shall be secured by two locks before the currency can be removed. The locks shall be located on the relevant outer door and on at least one other door.
- (5) Critical memory requirements shall include the following:
- i. Critical memory storage shall be maintained by a methodology that enables errors to be identified, including signatures, checksums, partial checksums, multiple copies, timestamps, effective use of validity codes, or any combination of these methods.
 - ii. Comprehensive checks of critical memory shall be made following wager play initiation but prior to display of wager outcome to the patron.
 - iii. An unrecoverable corruption of critical memory shall result in an error state. The memory error shall not be cleared automatically and shall cause the terminal to cease further functioning. The critical memory error shall also cause any communication external to the terminal to immediately cease. An unrecoverable critical memory error shall require restoration or clearing of software state by an authorized person.
 - iv. If critical memory is maintained in nonvolatile memory on the terminal and not by the server-based system, then:
 - 1. the terminal shall have the ability to retain data for all critical memory as defined in this Section and be capable of maintaining the accuracy of the data for 30 days after power is discontinued from the terminal;
 - 2. for rechargeable battery types only, if the battery backup is used as an off-chip battery source, it shall recharge itself to its full potential in a maximum of 24 hours, and the shelf life of the battery shall be at least five years;
 - 3. nonvolatile memory that uses an off-chip backup power source to retain its contents when the main power is switched off shall have a detection system that will provide a method for software to interpret and act upon a low battery condition before the battery reaches a level where it is no longer capable of maintaining the memory in question. Clearing nonvolatile memory shall require access to the locked logic area or other secure method, provided that the method is approved by the commission; and
 - 4. following the initiation of a nonvolatile memory reset procedure, the wagering program shall execute a routine that initializes all bits in critical nonvolatile memory to the default state. All memory locations intended to be cleared as per the nonvolatile memory clear process shall be fully reset in all cases.
 - v. Critical memory of a server-based wager configuration may be maintained by the server, terminal, or some combination thereof. The critical memory related to each terminal shall:

1. be kept independent to all other wagering terminals. If corruption occurs in any single terminal's critical memory no other terminal shall be effected by the terminal's corrupt memory state; and
 2. be clearly identified as to which physical terminal the critical memory represents, through unique identification, such as serial number or other unique terminal hardware identifier.
- vi. All terminals shall be equipped with a device, mechanism, or method for retaining the value of the meter information specified in §13135 in the event of a loss of power to the terminal. Storage and retrieval of the accounting meters from a server is an acceptable method of retrieval.
 - vii. Configuration setting changes shall not cause an obstruction to the meters.
 - viii. If the terminal is in a test, diagnostic, or demonstration mode, any test that incorporates credits entering or leaving the terminal shall be completed prior to resumption of normal operation. In addition, there shall not be any mode other than normal wagering operation that debits or credits any of the electronic meters. Any wagering credits on the terminal that were accrued during the test, diagnostic, or demonstration mode shall be cleared before the mode is exited. Specific meters are permissible for these types of modes, provided the meters are clearly identified.
 - ix. Terminals shall not allow any information contained in a communication to or from the online monitoring system that is intended to be protected, including validation information, secure personal identification numbers, credentials, or secure seeds and keys, to be viewable through any display mechanism supported by the terminal.
- (6) Program storage devices shall be required to comply with the following.
- i. All program storage devices shall:
 1. be housed within a fully enclosed and locked logic compartment;
 2. validate themselves during each processor reset; and
 3. validate themselves the first time they are used.
 - ii. Program storage devices that do not have the ability to be modified while installed in the terminal during normal operation shall be clearly marked with information to identify the software and revision level of the information stored in the devices.
 - iii. Server-stored information shall be backed up no less often than once per day to an offsite storage facility. Offsite storage may include storage through a cloud service provider if approved by the commission. The server and offsite backup storage shall be accessible to the commission and subject to third-party checks and validation.

ARCI-004-105 Calculation Of Payouts And Distribution Of Pools

Part I

A. General

All permitted pari-mutuel wagering pools shall be separately and independently calculated and distributed. Takeout shall be deducted from each gross pool as stipulated by law. The remainder of the monies in the pool shall constitute the net pool for distribution as payout on winning wagers. Either the standard or net price calculation procedure may be used to calculate single commission pools, while the net price calculation procedure must be used to calculate multi-commission pools.

Standard Price Calculation Procedure

SINGLE PRICE POOL (WIN POOL)

Gross Pool	=	Sum of Wagers on all Betting Interests - Refunds
Takeout	=	Gross Pool x Percent Takeout
Net Pool	=	Gross Pool - Takeout
Profit	=	Net Pool - Gross Amount Bet on Winner
Profit Per Dollar	=	Profit / Gross Amount Bet on Winner
\$1 Unbroken Price	=	Profit Per Dollar + \$1
\$1 Broken Price	=	\$1 Unbroken Price Rounded Down to the Break Point
Total Payout	=	\$1 Broken Price x Gross Amount Bet on Winner
Total Breakage	=	Net Pool - Total Payout

PROFIT SPLIT (PLACE POOL)

Profit is net pool less gross amount bet on all place finishers. Finishers split profit 1/2 and 1/2 (place profit), then divide by gross amount bet on each place finisher for two unique prices.

PROFIT SPLIT (SHOW POOL)

Profit is net pool less gross amount bet on all show finishers. Finishers split profit 1/3 and 1/3 and 1/3 (show profit), then divide by gross amount bet on each show finisher for three unique prices.

Net Price Calculation Procedure

SINGLE PRICE POOL (WIN POOL)

The Association of Racing Commissioners International
Model Rules of Racing

Gross Pool	=	Sum of Wagers on all Betting Interests - Refunds
Takeout	=	Gross Pool x Percent Takeout for Each Source:
Net Pool	=	Gross Pool - Takeout
Net Bet on Winner Takeout)	=	Gross Amount Bet on Winner x (1 - Percent Takeout)
Total Net Pool	=	Sum of All Sources Net pools
Total Net Bet on Winner	=	Sum of All Sources Net Bet on Winner
Total Profit	=	Total Net Pool - Total Net Bet on Winner
Profit Per Dollar	=	Total Profit / Total Net Bet on Winner
\$1 Unbroken Base Price	=	Profit Per Dollar + \$1 for each source:
\$1 unbroken price	=	\$1 Unbroken Base Price x (1 - Percent Takeout)
\$1 Broken Price Point	=	\$1 Unbroken Price Rounded Down to the Break Point
Total Payout	=	\$1 Broken Price x Gross Amount Bet on Winner
Total Breakege	=	Net Pool - Total Payout

PROFIT SPLIT(PLACE POOL)

Total profit is the total net pool less the total net amount bet on all place finishers. Finishers split total profit 1/2 and 1/2 (place profit), then divide by total net amount bet on each place finisher for two unique unbroken base prices.

PROFIT SPLIT (SHOW POOL)

Total profit is the total net pool less the total net amount bet on all show finishers. Finishers split total profit 1/3 and 1/3 and 1/3 (show profit), then divide by total net amount bet on each show finisher for three unique unbroken base prices.

- (3) If a profit split results in only one covered winning betting interest or combinations it shall be calculated the same as a single price pool.
- (4) Minimum payout and the method used for calculating breakage shall be established by the Commission.
- (5) The individual pools outlined in these rules may be given alternative names by each association, provided prior approval is obtained from the Commission.

B. Win Pools

- (1) The amount wagered on the betting interest which finishes first is deducted from the net pool, the balance remaining being the profit; the profit is divided by the amount wagered on the betting interest finishing first, such quotient being the profit per dollar wagered to Win on that betting interest.

The Association of Racing Commissioners International
Model Rules of Racing

- (2) The net Win pool shall be distributed as a single price pool to winning wagers in the following precedence, based upon the official order of finish:
- (a) To those whose selection finished first; but if there are no such wagers, then
 - (b) To those whose selection finished second; but if there are no such wagers then
 - (c) To those whose selection finished third; but if there are no such wagers, then (d) The entire pool shall be refunded on Win wagers for that contest.
- (3) If there is a dead heat for first involving:
- (a) contestants representing the same betting interest, the Win pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Win pool shall be distributed as a profit split.

C. Place Pools

- (1) The amounts wagered to Place on the first two betting interests to finish are deducted from the net pool, the balance remaining being the profit; the profit is divided into two equal portions, one being assigned to each winning betting interest and divided by the amount wagered to Place on that betting interest, the resulting quotient is the profit per dollar wagered to Place on that betting interest.
- (2) The net Place pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (a) If contestants of a coupled entry or mutuel field finished in the first two places, as a single price pool to those who selected the coupled entry or mutuel field; otherwise
 - (b) As a profit split to those whose selection is included within the first two finishers; but if there are no such wagers on one of those two finishers, then
 - (c) As a single price pool to those who selected the one covered betting interest included within the first two finishers; but if there are no such wagers, then
 - (d) As a single price pool to those who selected the third-place finisher; but if there are no such wagers, then
 - (e) The entire pool shall be refunded on Place wagers for that contest.
- (3) If there is a dead heat for first involving:
 - (a) contestants representing the same betting interest, the Place pool shall be distributed as a single price pool.
 - (b) contestants representing two or more betting interests, the Place pool shall be distributed as a profit split.
- (4) If there is a dead heat for second involving:
 - (a) contestants representing the same betting interest, the Place pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Place pool is divided with one-half (1/2) of the profit distributed to Place wagers on the betting interest finishing first and the remainder is distributed equally amongst Place wagers on those betting interests involved in the dead heat for second.

The net Show pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

 - (b) If contestants of a coupled entry or mutuel field finished as two of the first three finishers, the profit is divided with two-thirds ($2/3$) distributed to those who selected the coupled entry or mutuel field and one-third ($1/3$) distributed to those who selected the other betting interest included within the first three finishers; otherwise

 - (b) three contestants representing a single betting interest, the Show pool shall be distributed as a single price pool.
 - (c) contestants representing two or more betting interests, the Show pool shall be distributed as a profit split.
- (3) If there is a dead heat for second involving:
 - (a) contestants representing the same betting interest, the profit is divided with one-third ($1/3$) distributed to those who selected the betting interest finishing first and two-thirds ($2/3$) distributed to those who selected the second-place finishers.
 - (b) contestants representing two betting interests, the Show pool shall be distributed as a profit split.
 - (c) contestants representing three betting interests, the Show pool is divided with one-third ($1/3$) of the profit distributed to Show wagers on the betting interest finishing first and the remainder is distributed equally amongst Show wagers on those betting interests involved in the dead heat for second.

- (4) If there is a dead heat for third involving:
- (a) contestants representing the same betting interest, the Show pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Show pool is divided with two-thirds (2/3) of the profit distributed to Show wagers on the betting interests finishing first and second and the remainder is distributed equally amongst Show wagers on those betting interests involved in the dead heat for third.

E. Double Pools

- (1) The Double requires selection of the first-place finisher in each of two specified contests.
- (2) The net Double pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (a) As a single price pool to those whose selection finished first in each of the two contests; but if there are no such wagers, then
 - (b) As a profit split to those who selected the first-place finisher in either of the two contests; but if there are no such wagers, then
 - (c) As a single price pool to those who selected the one covered first-place finisher in either contest; but if there are no such wagers, then
 - (d) As a single price pool to those whose selection finished second in each of the two contests; but if there are no such wagers, then
 - (e) The entire pool shall be refunded on Double wagers for those contests.
- (3) If there is a dead heat for first in either of the two contests involving:

The Association of Racing Commissioners International

- (a) contestants representing the same betting interest, the Double pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Double pool shall be distributed as a profit split if there is more than one covered winning combination.
- (4) Should a betting interest in the first-half of the Double be scratched prior to the first Double contest being declared official, all money wagered on combinations including the scratched betting interest shall be deducted from the Double pool and refunded.
 - (5) Should a betting interest in the second-half of the Double be scratched prior to the close of wagering on the first Double contest, all money wagered on combinations including the scratched betting interest shall be deducted from the Double pool and refunded.
 - (6) Should a betting interest in the second-half of the Double be scratched after the close of wagering on the first Double contest, all wagers combining the winner of the first contest with the scratched betting interest in the second contest shall be allocated a consolation payout. In calculating the consolation payout the net Double pool shall be divided by the total amount wagered on the winner of the first contest and an unbroken consolation price obtained. The broken consolation price is multiplied by the dollar value of wagers on the winner of the first contest combined with the scratched betting interest to obtain the consolation payout. Breakage is not declared in this calculation. The consolation payout is deducted from the net Double pool before calculation and distribution of the winning Double payout. Dead heats including separate betting interests in the first contest shall result in a consolation payout calculated as a profit split.
 - (7) If either of the Double contests are cancelled prior to the first Double contest, or the first Double contest is declared "no contest", the entire Double pool shall be refunded on Double wagers for those contests.
 - (8) If the second Double contest is cancelled or declared "no contest" after the conclusion of the first Double contest, the net Double pool shall be distributed as a single price pool to wagers selecting the winner of the first Double contest. In the event of a dead heat involving separate betting interests, the net Double pool shall be distributed as a profit split.

F. Win Three Pools

- (1) The Win Three requires selection of the first-place finisher in each of three specified contests.
- (2) The net Win Three pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (a) As a single price pool to those whose selection finished first in each of the three contests; but if there are no such wagers, then
 - (b) As a single price pool to those who selected the first-place finisher in any two of the three contests; but if there are no such wagers, then
 - (c) As a single price pool to those who selected the first-place finisher in any one of the three contests; but if there are no such wagers, then
 - (d) The entire pool shall be refunded on Win Three wagers for those contests.
- (3) If there is a dead heat for first in any of the three contests involving:
 - (a) contestants representing the same betting interest, the Win Three pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Win Three pool shall be distributed as follows.
 - (A) as a profit split to those whose selections finished first in each of the three contests; but if there are no such wagers, then
 - (B) as a single price pool to those who selected the first place finisher in any two of the three contests; but if there are no such wagers, then
 - (C) as a single price pool to those who selected the first place finisher in any one of the three contests; but if there are no such wagers, then (D) the entire Win Three pool shall be refunded.
- (4) Should a betting interest be scratched from a leg of the Win Three all bets with the scratched betting interest will be handled as follows:
 - (a) If the scratch (which herein after includes being declared a non-starter or a non-betting starter) was made prior to the start of the first leg, all bets containing such scratched betting interest shall be refunded to determine the gross pool and removed from further consideration in the pool;
 - (b) If the scratch was made in the second leg after the start of the first leg, a consolation payoff shall be computed for those bets combining the winners of the first and third legs with the scratched betting interest as follows: from the gross pool shall be deducted the statutory take-out and then the amount represented by the bets on combinations involving betting interests scratched from the third leg (reduced by the take-out thereon). The resulting remainder shall be divided by the amounts bet on the combination of such first and third leg winners with all betting interests (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and third legs with the betting interest scratched in the second leg. The break shall not be deducted from the pool.
 - (c) If a betting interest is scratched in the third leg after the start of the first leg, a consolation payoff shall be computed as for those bets combining the winners of the

first and second legs with such scratched betting interest as follows: from the gross pool shall be deducted the statutory take-out and then the amount represented by bets on combinations involving betting interests scratched from the second leg (reduced by the rate of the take-out thereon). The resulting remainder shall be divided by the amount bet on the combination of such first and second leg winners with all betting interests in the third leg (less breaks) to determine the consolation price per dollar payable to those bets combining winners of the first and second legs with an betting interest scratched in the third leg. The breaks shall not be deducted from the pool.

- (d) If betting interests are scratched in both the second and third legs after the start of the first leg, a consolation payoff shall be computed for those bets combining the winner of the first leg with the betting interests scratched in both the second and third legs as follows: from the gross pool shall be deducted the takeout and the remainder shall be divided by the amount bet on the winner of the first leg combined with all other betting interests (less breaks) to determine the consolation price per dollar payable to those tickets combining the winner of the first leg with the scratch betting interests from both the second and third legs.
- (5) If all three Win Three contests are cancelled or declared "no contest", the entire pool shall be refunded on Win Three wagers for those contests.
- (6) If one or two of the Win Three contests are cancelled or declared "no contest", the Win Three pool will remain valid and shall be distributed in accordance with subsection 2 of this rule.
- (7) In the Win Three pool is distributed according to subparagraphs (3)(b)(B) or (C) a public announcement shall be made as to the possible winning three combinations.

G. Pick (n) Pools

- (1) The Pick (n) requires selection of the first-place finisher in each of a designated number of contests. The association must obtain written approval from the Commission concerning the scheduling of Pick (n) contests, the designation of one of the methods prescribed in subsection (2), and the amount of any cap to be set on the carryover. Any changes to the approved Pick (n) format require prior approval from the Commission.
- (2) The Pick (n) pool shall be apportioned under one of the following methods:
 - (a) Method 1, Pick (n) with Carryover: The net Pick (n) pool and carryover, if any, shall be distributed as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there are no such wagers, then a designated percentage of the net pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests; and the remainder shall be added to the carryover. Where there is no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day's net pool shall be refunded and the previous carryover pool amount, if any, shall be carried over to the next scheduled corresponding pool.
 - (b) Method 2, Pick (n) with 100% Carryover: The net Pick (n) pool and carryover, if any, shall be distributed as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there are no such wagers, then 100% of that day's net pool shall be added to the carryover. Where there is

no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day's net pool shall be refunded and the previous carryover pool amount, if any, shall be carried over to the next scheduled corresponding pool.

- (c) Method 3, Pick (n) with Minor Pool and Carryover: The major share of the net Pick (n) pool and the carryover, if any, shall be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool shall be distributed to those who selected the first place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the minor share of the net Pick (n) pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests; and the major share shall be added to the carryover. Where there is no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day's net pool shall be refunded and the previous carryover pool amount, if any, shall be carried over to the next scheduled corresponding pool.
- (d) Method 4, Pick (n) with No Minor Pool and No Carryover: The net Pick (n) pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests, based upon the official order of finish. If there are no winning wagers, the pool is refunded.
- (e) Method 5, Pick (n) with Minor Pool and No Carryover: The major share of the net Pick (n) pool shall be distributed to those who selected the first place finisher in the greatest number of Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool shall be distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in a second greatest number of Pick (n) contests, the minor share of the net Pick (n) pool shall be combined with the major share for distribution as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests. If the greatest number of first-place finishers selected is one (1), the major and minor shares are combined for distribution as a single price pool. If there are no winning wagers, the pool is refunded.
- (f) Method 6, Pick (n) with Minor Pool and No Carryover: The major share of net Pick (n) pool shall be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The minor share of the net Pick (n) pool shall be distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in all Pick (n) contests, the entire net Pick (n) pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests. If there are no wagers selecting the first-place finisher in a second greatest number of Pick (n) contests, the minor share of the net Pick (n) pool shall be combined with the major share for distribution as a single price pool to those who selected the first-place finisher in each of the Pick (n) contests. If there are no winning wagers, the pool is refunded.

- (g) Method 7, Pick (n) with Carryover and “Unique Winning Ticket” Provision: The net Pick (n) pool and carryover, if any, shall be distributed to the holder of a unique winning ticket that selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there is no unique ticket selecting the first-place finisher in each of the Pick (n) contests, or if there are no wagers selecting the first-place finisher of all Pick (n) contests, the minor share of the net Pick (n) pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests, and the major share shall be added to the carryover. Associations may suspend previously approved unique winning ticket wagering with the prior approval of the Commission. Any carryover shall be held until the suspended unique winning ticket wagering is reinstated. Where there is no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day’s net pool shall be refunded and the previous carryover pool amount, if any, shall be carried over to the next scheduled corresponding pool. In obtaining authorization for operating the Pick (n) pool under this subsection, associations must clearly identify which definition under paragraph 16(b) will be relied upon for determining the existence of a unique winning ticket.
- (h) Method 8, Pick (n) with the Pool split into three shares, one share having a Carryover: The share percentages are determined by the pool host and approved by the Commission. The first share of the net Pick (n) pool and the carryover, if any, shall be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The second share of the net Pick (n) pool shall be distributed to those who selected (n-1) of the Pick (n) contests, based upon the official order of finish and a third share of the Pick (n) pool shall be distributed to those who selected (n-2) of the Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the first share shall be added to the carryover. If there are no wagers selecting (n-1) of the Pick (n) contests, this second share shall be added to the carryover. If there are no wagers selecting (n-2) of the Pick (n) contests, this third share shall be added to the carryover. Where there is no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day’s net pool shall be refunded and the previous carryover pool amount, if any, shall be carried over to the next scheduled corresponding pool.
- (i) Method 9, Pick (n) with the pool split into three shares, with Carryovers, and a Unique Winning Ticket Provision: The share percentages are determined by the pool host and approved by the Commission. The first share of the net Pick (n) pool and the first share carryover, if any, shall be distributed to those who selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. The second share of the net Pick (n) pool shall be distributed to those who selected the first-place finisher in the second greatest number of Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher of all Pick (n) contests, the second share of the net Pick (n) pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests,

and the first share shall be added to the first share carryover. The third share and the third share carryover, if any, shall be distributed to the holder of a unique winning ticket that selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there is no unique winning ticket selecting the first-place finisher in each of the Pick (n) contests, the third share shall be added to the third share carryover. For greater certainty, the holder of a unique winning ticket shall receive both the first share, and first share carryover, if any as well as the third share, and the third share carryover, if any. Where there is no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day's net pool shall be refunded and the previous carryover pool(s) amount(s), if any, shall be carried over to the next scheduled corresponding pool. In obtaining authorization for operating the Pick (n) pool under this subsection, associations must clearly identify which definition under paragraph 16(b) will be relied upon for determining the existence of a unique winning ticket.

- (3) If there is a dead heat for first in any of the Pick (n) contests involving:
 - (a) contestants representing the same betting interest, the Pick (n) pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Pick (n) pool shall be distributed as a single price pool with each winning wager receiving an equal share of the profit.
- (4) If a wagering interest is "scratched" for a Pick (n) contest, or is designated to run for purse money only, the association shall use the actual favorite, as evidenced by total amounts wagered in the Win pool at the host association for the contest at the close of wagering on that contest, and shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the Win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number. The totalizator shall produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination. Notwithstanding the provisions of this subsection, an association may also obtain authorization from the Commission to allow patrons to select an alternate wagering interest in any of the Pick (n) contests.
- (5) Subject to subsection (9), (10), or (12), the Pick (n) pool shall be cancelled and all Pick (n) wagers for the individual performance shall be refunded if:
 - (a) at least two contests included as part of a Pick 3 are cancelled or declared "no contest."
 - (b) at least three contests included as part of a Pick 4, Pick 5 or Pick 6 are cancelled or declared "no contest."
 - (c) at least four contests included as part of a Pick 7, Pick 8 or Pick 9 are cancelled or declared "no contest."
 - (d) at least five contests included as part of a Pick 10 are cancelled or declared "no contest."
- (6) Subject to subsection (9), (10), or (12), if at least one contest included as part of a Pick (n) is cancelled or declared "no contest", but not more than the number specified in subsection (5) of this rule, the net pool shall be distributed as a single price pool to those whose selection

finished first in the greatest number of Pick (n) contests for that performance. Such distribution shall include the portion ordinarily retained for the Pick (n) carryover but not the carryover from previous performances.

- (7) If the condition of the course warrants a change of racing surface in any of the legs of the Pick (n) races, and such change was not known to the public prior to the closing of wagering for the Pick (n) pool, the stewards shall declare the changed leg(s) a “no contest” for Pick (n) wagering purposes only. A “no contest” race is not to be considered as a contested race.
- (8) The Pick (n) carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Pick (n) carryover equals or exceeds the designated cap, the Pick (n) carryover will be frozen until it is won or distributed under other provisions of this rule. After the Pick (n) carryover is frozen, 100 percent of the net pool, part of which ordinarily would be added to the Pick (n) carryover, shall be distributed to those whose selection finished first in the greatest number of Pick (n) contests for that performance.
- (9) A written request for permission to distribute the Pick (n) carryover on a specific performance may be submitted to the Commission. The request must be for a specified date no greater than one (1) year from the date the request is submitted and contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.
- (10) Should the Pick (n) carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first-place finisher in each of the Pick (n) contests, the entire pool shall be distributed as a single price pool to those whose selection finished first in the greatest number of Pick (n) contests. The Pick (n) carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
 - (a) Upon written approval from the Commission as provided in subsection (8) of this rule.
 - (b) Upon written approval from the Commission when there is a change in the carryover cap, a change from one type of Pick (n) wagering to another, or when the Pick (n) is discontinued.
 - (c) On the closing performance of the meet or split meet.
- (11) A written request for permission to transfer the Pick (n) carryover to another Pick (n) pool operated by the same pool host may be submitted to the Commission. The request must contain justification for the transfer, including an explanation of the benefit to be derived, a description of the method by which the pool host will present the information to the public that identifies the racetrack(s) for which the pool will be operated and the intended date(s) and performance(s) of the transfer.
- (12) Unless otherwise stated in writing by the Commission under subsection (9), on the last Pick (n) race on the final day of the meeting, the net pool, including any applicable carryover, shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests, based upon the official order of finish.
- (13) Notwithstanding subsections (9) and (11), if for any reason the Pick (n) carryover must be held over to the corresponding Pick (n) pool of a subsequent meet, the carryover shall be

deposited in an interest-bearing account approved by the Commission. The Pick (n) carryover plus accrued interest shall then be added to the net Pick (n) pool of the following meet on a date and performance so designated by the Commission.

- (14) With the written approval of the Commission, the association may contribute to the Pick (n) carryover a sum of money up to the amount of any designated cap.
- (15) The association may suspend previously-approved Pick (n) wagering with the prior approval of the Commission. Any carryover shall be held until the suspended Pick (n) wagering is reinstated. An association may request approval of a Pick (n) wager or separate wagering pool for specific performances.
- (16) As it relates to any distribution method under section 2 which contains a unique winning ticket provision:
 - a. A written request for permission to distribute the Pick (n) unique winning ticket carryover on a specific performance may be submitted to the Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. Should the Pick (n) unique winning ticket net pool and any applicable carryover be designated for distribution on a specified date and performance in which there is no unique winning ticket, the entire pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests.
 - b. Associations must clearly identify which selection under clauses (i) and (ii) below will be relied upon for determining the existence of a unique winning ticket:
 - i. there is one and only one winning ticket that correctly selected the first place finisher in each of the Pick (n) contests, based upon the official order of finish, to be verified by the unique serial number assigned by the tote company that issued the winning ticket; or
 - ii. the total amount wagered on one and only one winning combination selecting the first-place finisher in each of the Pick (n) contests, based up on the official order of finish, is equal to the minimum allowable wager.

H. Place Pick (n) Pools

- (1) The Place Pick (n) requires selection of the first or second-place finisher in each of a designated number of contests. The association must obtain written approval from the Commission concerning the scheduling of Place Pick (n) contests, the designation of one of the methods prescribed in Part (2), the distinctive name identifying the pool and the amount of any cap to be set on the carryover. Any changes to the approved Place Pick (n) format require prior approval from the Commission.
- (2) The Place Pick (n) pool shall be apportioned under one of the following methods:
 - (a) Method 1, Place Pick (n) with Carryover: The net Place Pick (n) pool and carryover, if any, shall be distributed as a single price pool to those who selected the first or second place finisher in each of the Place Pick (n) contests, based upon the official order of finish. If there are no such wagers, then a designated percentage of the net pool shall be distributed as a single price pool to those who selected the first or second-place finisher in the greatest number of Place Pick (n) contests; and the remainder shall be added to the carryover.

- (b) Method 2, Place Pick (n) with Minor Pool and Carryover: The major share of the net Place Pick (n) pool and the carryover, if any, shall be distributed to those who selected the first or second-place finisher in each of the Place Pick (n) contests, based upon the official order of finish. The minor share of the net Place Pick (n) pool shall be distributed to those who selected the first or second-place finisher in the second greatest number of Place Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first or second-place finisher of all Place Pick (n) contests, the minor share of the net Place Pick (n) pool shall be distributed as a single price pool to those who selected the first or second-place finisher in the greatest number of Place Pick (n) contests; and the major share shall be added to the carryover.
 - (c) Method 3, Place Pick (n) with No Minor Pool and No Carryover: The net Place Pick (n) pool shall be distributed as a single price pool to those who selected the first or second place finisher in the greatest number of Place Pick (n) contests, based upon the official order of finish. If there are no winning wagers, the pool is refunded.
 - (d) Method 4, Place Pick (n) with Minor Pool and No Carryover: The major share of the net Place Pick (n) pool shall be distributed to those who selected the first or second place finisher in the greatest number of Place Pick (n) contests, based upon the official order of finish. The minor share of the net Place Pick (n) pool shall be distributed to those who selected the first or second-place finisher in the second greatest number of Place Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first or second-place finisher in a second greatest number of Place Pick (n) contests, the minor share of the net Place Pick (n) pool shall be combined with the major share for distribution as a single price pool to those who selected the first or second place finisher in the greatest number of Place Pick (n) contests. If the greatest number of first or second-place finishers selected is one (1), the major and minor shares are combined for distribution as a single price pool. If there are no winning wagers, the pool is refunded.
 - (e) Method 5, Place Pick (n) with Minor Pool and No Carryover: The major share of net Place Pick (n) pool shall be distributed to those who selected the first or second-place finisher in each of the Place Pick (n) contests, based upon the official order of finish. The minor share of the net Place Pick (n) pool shall be distributed to those who selected the first or second-place finisher in the second greatest number of Place Pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first or second-place finisher in all Place Pick (n) contests, the entire net Place Pick (n) pool shall be distributed as a single price pool to those who selected the first or second-place finisher in the greatest number of Place Pick (n) contests. If there are no wagers selecting the first or second-place finisher in a second greatest number of Place Pick (n) contests, the minor share of the net Place Pick (n) pool shall be combined with the major share for distribution as a single price pool to those who selected the first or second place finisher in each of the Place Pick (n) contests. If there are no winning wagers, the pool is refunded.
- (3) If there is a dead heat for first in any of the Place Pick (n) contests involving:

- (a) contestants representing the same betting interest, the Place Pick (n) pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Place Pick (n) pool shall be distributed as a single price pool with a winning wager including each betting interest participating in the dead heat.
- (4) If there is a dead heat for second in any of the Place Pick (n) contests involving:
- (a) contestants representing the same betting interest, the Place Pick (n) pool shall be distributed as if no dead heat occurred.
 - (b) contestants representing two or more betting interests, the Place Pick (n) pool shall be distributed as a single price pool with a winning wager including the betting interest which finished first or any betting interest involved in the dead heat for second.
- (5) Should a betting interest in any of the Place Pick (n) contests be scratched, the actual favorite, as evidenced by total amounts wagered in the Win pool at the host association for the contest at the close of wagering on that contest, shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the Win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number. The totalisator shall produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination.
- (6) The Place Pick (n) pool shall be cancelled and all Place Pick (n) wagers for the individual performance shall be refunded if:
- (a) at least two contests included as part of a Place Pick 3 are cancelled or declared "no contest."
 - (b) at least three contests included as part of a Place Pick 4, Place Pick 5 or Place Pick 6 are cancelled or declared "no contest."
 - (c) at least four contests included as part of a Place Pick 7, Place Pick 8 or Place Pick 9 are cancelled or declared "no contest."
 - (d) at least five contests included as part of a Place Pick 10 are cancelled or declared "no contest."
- (7) If at least one contest included as part of a Place Pick (n) is cancelled or declared "no contest", but not more than the number specified in subsection 6 of this rule, the net pool shall be distributed as a single price pool to those whose selection finished first or second in the greatest number of Place Pick (n) contests for that performance. Such distribution shall include the portion ordinarily retained for the Place Pick (n) carryover but not the carryover from previous performances.
- (8) The Place Pick (n) carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Place Pick (n) carryover equals or exceeds the designated cap, the Place Pick (n) carryover will be frozen until it is won or distributed under other provisions of this rule. After the Place Pick (n) carryover is frozen, 100 percent of the net pool, part of which ordinarily would be added to the Place Pick (n) carryover, shall be distributed to those whose selection finished first or second in the greatest number of Place Pick (n) contests for that performance.

- (9) A written request for permission to distribute the Place Pick (n) carryover on a specific performance may be submitted to the Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.
- (10) Should the Place Pick (n) carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first or second-place finisher in each of the Place Pick (n) contests, the entire pool shall be distributed as a single price pool to those whose selection finished first or second in the greatest number of Place Pick (n) contests. The Place Pick (n) carryover shall be designated for distribution on a specified date and performance under any of the following circumstances:
 - (a) Upon written approval from the Commission as provided in subsection 9 of this rule.
 - (b) Upon written approval from the Commission when there is a change in the carryover cap, a change from one type of Place Pick (n) wagering to another, or when the Place Pick (n) is discontinued.
 - (c) On the closing performance of the meet or split meet.
- (11) If, for any reason, the Place Pick (n) carryover must be held over to the corresponding Place Pick (n) pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the Commission. The Place Pick (n) carryover plus accrued interest shall then be added to the net Place Pick (n) pool of the following meet on a date and performance so designated by the Commission.
- (12) With the written approval of the Commission, the association may contribute to the Place Pick (n) carryover a sum of money up to the amount of any designated cap.
- (13) Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining is strictly prohibited. This shall not prohibit necessary communication between totalisator and parimutuel department employees for processing of pool data.
- (14) The association may suspend previously-approved Place Pick (n) wagering with the prior approval of the Commission. Any carryover shall be held until the suspended Place Pick (n) wagering is reinstated. An association may request approval of a Place Pick (n) wager or separate wagering pool for specific performances.

I. Quinella Pools

- (1) The Quinella requires selection of the first two finishers, irrespective of order, for a single contest.
- (2) The net Quinella pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (a) If contestants of a coupled entry or mutuel field finish as the first two finishers, as a single price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish; otherwise
 - (b) As a single price pool to those whose combination finished as the first two betting interests; but if there are no such wagers, then

- (c) As a profit split to those whose combination included either the first- or second-place finisher; but if there are no such wagers on one of the those two finishers, then
 - (d) As a single price pool to those whose combination included the one covered betting interest included within the first two finishers; but if there are no such wagers, then (e) The entire pool shall be refunded on Quinella wagers for that contest.
- (3) If there is a dead heat for first involving:
- (a) contestants representing the same betting interest, the Quinella pool shall be distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish.
 - (b) contestants representing two betting interests, the Quinella pool shall be distributed as if no dead heat occurred.
 - (c) contestants representing three or more betting interests, the Quinella pool shall be distributed as a profit split.
- (4) If there is a dead heat for second involving contestants representing the same betting interest, the Quinella pool shall be distributed as if no dead heat occurred.
- (5) If there is a dead heat for second involving contestants representing two or more betting interests, the Quinella pool shall be distributed to wagers in the following precedence, based upon the official order of finish:
- (a) As a profit split to those combining the winner with any of the betting interests involved in the dead heat for second; but if there is only one covered combination, then
 - (b) As a single price pool to those combining the winner with the one covered betting interest involved in the dead heat for second; but if there are no such wagers, then
 - (c) As a profit split to those combining the betting interests involved in the dead heat for second; but if there are no such wagers, then
 - (d) As a profit split to those whose combination included the winner and any other betting interest and wagers selecting any of the betting interests involved in the dead heat for second; but if there are no such wagers, then
 - (e) The entire pool shall be refunded on Quinella wagers for that contest.

J. Quinella Double Pools

- (1) The Quinella Double requires selection of the first two finishers, irrespective of order, in each of two specified contests.
- (2) The net Quinella Double pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (a) If a coupled entry or mutuel field finishes as the first two contestants in either contest, as a single price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish for that contest, as well as the first two finishers in the alternate Quinella Double contest; otherwise
 - (b) As a single price pool to those who selected the first two finishers in each of the two Quinella Double contests; but if there are no such wagers, then
 - (c) As a profit split to those who selected the first two finishers in either of the two Quinella

- Double contests; but if there are no such wagers on one of those contests, then
- (d) As a single price pool to those who selected the first two finishers in the one covered Quinella Double contest; but if there were no such wagers, then
 - (e) The entire pool shall be refunded on Quinella Double wagers for those contests.
- (3) If there is a dead heat for first in either of the two Quinella Double contests involving:
- (a) contestants representing the same betting interest, the Quinella Double pool shall be distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish for that contest.
 - (b) contestants representing two betting interests, the Quinella Double pool shall be distributed as if no dead heat occurred.
 - (c) contestants representing three or more betting interests, the Quinella Double pool shall be distributed as a profit split.
- (4) If there is a dead heat for second in either of the Quinella Double contests involving contestants representing the same betting interest, the Quinella Double pool shall be distributed as if no dead heat occurred.
- (5) If there is a dead heat for second in either of the Quinella Double contests involving contestants representing two or more betting interests, the Quinella Double pool shall be distributed as profit split.
- (6) Should a betting interest in the first-half of the Quinella Double be scratched prior to the first Quinella Double contest being declared official, all money wagered on combinations including the scratched betting interest shall deducted from the Quinella Double pool and refunded.
- (7) Should a betting interest in the second-half of the Quinella Double be scratched prior to the close of wagering on the first Quinella Double contest, all money wagered on combinations including the scratched betting interest shall be deducted from the Quinella Double pool and refunded.
- (8) Should a betting interest in the second-half of the Quinella Double be scratched after the close of wagering on the first Quinella Double contest, all wagers combining the winning combination in the first contest with a combination including the scratched betting interest in the second contest shall be allocated a consolation payout. In calculating the consolation payout the net Quinella Double pool shall be divided by the total amount wagered on the winning combination in the first contest and an unbroken consolation price obtained. The unbroken consolation price is multiplied by the dollar value of wagers on the winning combination in the first contest combined with a combination including the scratched betting interest in the second contest to obtain the consolation payout. Breakage is not declared in this calculation. The consolation payout is deducted from the net Quinella Double pool before calculation and distribution of the winning Quinella Double payout. In the event of a dead heat involving separate betting interests, the net Quinella Double pool shall be distributed as a profit split.

- (9) If either of the Quinella Double contests is cancelled prior to the first Quinella Double contest, or the first Quinella Double contest is declared "no contest", the entire Quinella Double pool shall be refunded on Quinella Double wagers for those contests.
- (10) If the second Quinella Double contest is cancelled or declared "no contest" after the conclusion of the first Quinella Double contest, the net Quinella Double pool shall be distributed as a single price pool to wagers selecting the winning combination in the first Quinella Double contest. If there are no wagers selecting the winning combination in the first Quinella Double contest, the entire Quinella Double pool shall be refunded on Quinella Double wagers for those contests.

P. Twin Trifecta Pools

- (1) The Twin Trifecta requires selection of the first three finishers, in their exact order, in each of two designated contests. Each winning ticket for the first Twin Trifecta contest must be exchanged for a free ticket on the second Twin Trifecta contest in order to remain eligible for the second-half Twin Trifecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second Twin Trifecta contest. Winning first-half Twin Trifecta wagers will receive both an exchange and a monetary payout. Both of the designated Twin Trifecta contests shall be included in only one Twin Trifecta pool.
- (2) After wagering closes for the first-half of the Twin Trifecta and commissions have been deducted from the pool, the net pool shall then be divided into separate pools: the first-half Twin Trifecta pool and the second-half Twin Trifecta pool.
- (3) In the first Twin Trifecta contest only, winning wagers shall be determined using the following precedence, based upon the official order of finish for the first Twin Trifecta contest:
 - (a) As a single price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then
 - (b) As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
 - (c) As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then
 - (d) The entire Twin Trifecta pool shall be refunded on Twin Trifecta wagers for that contest and the second-half shall be cancelled.
- (4) If no first-half Twin Trifecta ticket selects the first three finishers of that contest in exact order, winning ticket holders shall not receive any exchange tickets for the second-half Twin Trifecta pool. In such case, the second-half Twin Trifecta pool shall be retained and added to any existing Twin Trifecta carryover pool.
- (5) Winning tickets from the first-half of the Twin Trifecta shall be exchanged for tickets selecting the first three finishers of the second-half of the Twin Trifecta. The second-half Twin Trifecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish for the second Twin Trifecta contest:
 - (a) As a single price pool, including any existing carryover monies, to those whose combination finished in correct sequence as the first three betting interests; but if there are no such tickets, then
 - (b) The entire second-half Twin Trifecta pool for that contest shall be added to any existing carryover monies and retained for the corresponding second-half Twin Trifecta pool of the next consecutive performance.
- (6) If a winning first-half Twin Trifecta ticket is not presented for cashing and exchange prior to the second-half Twin Trifecta contest, the ticket holder may still collect the monetary value

associated with the first-half Twin Trifecta pool but forfeits all rights to any distribution of the second-half Twin Trifecta pool.

- (7) Coupled entries and mutuel fields shall be prohibited in Twin Trifecta contests.
- (8) Should a betting interest in the first-half of the Twin Trifecta be scratched, those Twin Trifecta wagers including the scratched betting interest shall be refunded.
- (9) Should a betting interest in the second-half of the Twin Trifecta be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second Twin Trifecta contest, the ticket holder forfeits all rights to the second-half Twin Trifecta pool.
- (10) If, due to a late scratch, the number of betting interests in the second-half of the Twin Trifecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets shall be entitled to the second-half Twin Trifecta pool for that contest as a single price pool, but not the Twin Trifecta carryover.
- (11) If there is a dead heat or multiple dead heats in either the first- or second-half of the Twin Trifecta, all Twin Trifecta wagers selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be a winner. In the case of a dead heat occurring in:
 - (a) the first-half of the Twin Trifecta, the payout shall be calculated as a profit split.
 - (b) the second-half of the Twin Trifecta, the payout shall be calculated as a single price pool.
- (12) If either of the Twin Trifecta contests are cancelled prior to the first Twin Trifecta contest, or the first Twin Trifecta contest is declared "no contest", the entire Twin Trifecta pool shall be refunded on Twin Trifecta wagers for that contest and the second-half shall be cancelled.
- (13) If the second-half Twin Trifecta contest is cancelled or declared "no contest", all exchange tickets and outstanding first-half winning Twin Trifecta tickets shall be entitled to the net Twin Trifecta pool for that contest as a single price pool, but not Twin Trifecta carryover. If there are no such tickets, the net Twin Trifecta pool shall be distributed as described in subsection 3 of the Twin Trifecta rules.
- (14) The Twin Trifecta carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Twin Trifecta carryover equals or exceeds the designated cap, the Twin Trifecta carryover will be frozen until it is won or distributed under other provisions of this rule. After the Twin Trifecta carryover is frozen, 100 percent of the net Twin Trifecta pool for each individual contest shall be distributed to winners of the first-half of the Twin Trifecta pool.
- (15) A written request for permission to distribute the Twin Trifecta carryover on a specific performance may be submitted to the Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

- (16) Should the Twin Trifecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second-half of the Twin Trifecta after completion of the first-half of the Twin Trifecta:
 - (a) As a single price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then
 - (b) As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
 - (c) As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then
 - (d) As a single price pool to holders of valid exchange tickets.
 - (e) As a single price pool to holders of outstanding first-half winning tickets.
- (17) Contrary to subsection 4 of the Twin Trifecta rules, during a performance designated to distribute the Twin Trifecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first-half of the Twin Trifecta. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Twin Trifecta, all first-half tickets will become winners and will receive 100 percent of that performance's net Twin Trifecta pool and any existing Twin Trifecta carryover
- (18) The Twin Trifecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
 - (a) Upon written approval from the Commission as provided in subsection 15 of the Twin Trifecta rules.
 - (b) Upon written approval from the Commission when there is a change in the carryover cap or when the Twin Trifecta is discontinued.
 - (c) On the closing performance of the meet or split meet.
- (19) If, for any reason, the Twin Trifecta carryover must be held over to the corresponding Twin Trifecta pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the Commission. The Twin Trifecta carryover plus accrued interest shall then be added to the second-half Twin Trifecta pool of the following meet on a date and performance so designated by the Commission.
- (20) Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited. This shall not prohibit necessary communication between totalisator and parimutuel department employees for processing of pool data.
- (21) The association must obtain written approval from the Commission concerning the scheduling of Twin Trifecta contests, the percentages of the net pool added to the first-half

pool and second-half pool, and the amount of any cap to be set on the carryover. Any changes to the approved Twin Trifecta format require prior approval from the Commission.

Q. Tri-Superfecta Pools

- (1) The Tri-Superfecta requires selection of the first three finishers, in their exact order, in the first of two designated contests and the first four finishers, in exact order, in the second of the two designated contests. Each winning ticket for the first Tri-Superfecta contest must be exchanged for a free ticket on the second Tri-Superfecta contest in order to remain eligible for the second-half Tri-Superfecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second Tri-Superfecta contest. Winning first-half Tri-Superfecta tickets will receive both an exchange and a monetary payout. Both of the designated Trisuperfecta contests shall be included in only one Tri-Superfecta pool.
- (2) After wagering closes for the first-half of the Tri-Superfecta and commissions have been deducted from the pool, the net pool shall then be divided into two separate pools: the first-half Tri-Superfecta pool and the second-half Tri-Superfecta pool.
- (3) In the first Tri-Superfecta contest only, winning tickets shall be determined using the following precedence, based upon the official order of finish for the first Tri-Superfecta contest:
 - (a) As a single price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then
 - (b) As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
 - (c) As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then
 - (d) The entire Tri-Superfecta pool shall be refunded on Tri-Superfecta wagers for that contest and the second-half shall be cancelled.
- (4) If no first-half Tri-Superfecta ticket selects the first three finishers of that contest in exact order, winning ticket holders shall not receive any exchange tickets for the second-half TriSuperfecta pool. In such case, the second-half Tri-superfecta pool shall be retained and added to any existing Tri-Superfecta carryover pool.
- (5) Winning tickets from the first-half of the Tri-Superfecta shall be exchanged for tickets selecting the first four finishers of the second-half of the Tri-Superfecta. The second-half TriSuperfecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish for the second Tri-Superfecta contest:
 - (a) As a single price pool, including any existing carryover monies, to those whose combination finished in correct sequence as the first four betting interests; but if there are no such tickets, then

- (6) If a winning first-half Tri-Superfecta ticket is not presented for cashing and exchange prior to the second-half Tri-Superfecta contest, the ticket holder may still collect the monetary value

associated with the first-half Tri-Superfecta pool but forfeits all rights to any distribution of the second-half Tri-Superfecta pool.

- (7) Coupled entries and mutuel fields shall be prohibited in Tri-Superfecta contests.
- (8) Should a betting interest in the first-half of the Tri-Superfecta be scratched, those TriSuperfecta tickets including the scratched betting interest shall be refunded.
- (9) Should a betting interest in the second-half of the Tri-Superfecta be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second Tri-Superfecta contest, the ticket holder forfeits all rights to the second-half Tri-Superfecta pool.
- (10) If, due to a late scratch, the number of betting interests in the second-half of the TriSuperfecta is reduced to fewer than the minimum, all exchange tickets and outstanding first half winning tickets shall be entitled to the second-half Tri-Superfecta pool for that contest as a single price pool, but not the Tri-Superfecta carryover.
- (11) If there is a dead heat or multiple dead heats in either the first- or second-half of the TriSuperfecta, all Tri-Superfecta tickets selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be a winner. In the case of a dead heat occurring in:
 - (a) the first-half of the Tri-Superfecta, the payout shall be calculated as a profit split.
 - (b) the second-half of the Tri-Superfecta, the payout shall be calculated as a single price pool.
- (12) If either of the Tri-Superfecta contests are cancelled prior to the first Tri-Superfecta contest, or the first Tri-Superfecta contest is declared "no contest", the entire Tri-Superfecta pool shall be refunded on Tri-Superfecta wagers for that contest and the second-half shall be cancelled.
- (13) If the second-half Tri-Superfecta contest is cancelled or declared "no contest", all exchange tickets and outstanding first-half winning Tri-Superfecta tickets shall be entitled to the net Tri-Superfecta pool for that contest as a single price pool, but not the Tri-Superfecta carryover. If no there are no such tickets, the net Tri-Superfecta pool shall be distributed as described in subsection 3 of the Tri-Superfecta rules.
- (14) The Tri-Superfecta carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Tri-Superfecta carryover equals or exceeds the designated cap, the Tri-Superfecta carryover will be frozen until it is won or distributed under other provisions of this rule. After the second-half TriSuperfecta carryover is frozen, 100 percent of the net Tri-Superfecta pool for each individual contest shall be distributed to winners of the first-half of the Tri-Superfecta pool.
- (15) A written request for permission to distribute the Tri-Superfecta carryover on a specific performance may be submitted to the Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.
- (16) Should the Tri-Superfecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second-half of the Tri-Superfecta after completion of the first-half of the Tri-Superfecta:

- (a) As a single price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then
 - (b) As a single price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then
 - (c) As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
 - (d) As a single price pool to those whose combination included, in correct sequence, the first-place betting interest only; but if there are no such wagers, then (e) As a single price pool to holders of valid exchange tickets.
 - (f) As a single price pool to holders of outstanding first-half winning tickets.
- (17) Contrary to subsection 4 of the Tri-Superfecta rules, during a performance designated to distribute the Tri-Superfecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first-half of the Tri-Superfecta. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Tri-Superfecta, all first-half tickets will become winners and will receive 100 percent of that performance's net Tri-Superfecta pool and any existing Tri-Superfecta carryover as a single price pool.
- (18) The Tri-Superfecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
- (a) Upon written approval from the Commission as provided in subsection 15 of the TriSuperfecta rules.
 - (b) Upon written approval from the Commission when there is a change in the carryover cap or when the Tri-Superfecta is discontinued.
 - (c) On the closing performance of the meet or split meet.
- (19) If, for any reason, the Tri-Superfecta carryover must be held over to the corresponding TriSuperfecta pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the Commission. The Tri-Superfecta carryover plus accrued interest shall then be added to the second-half Tri-superfecta pool of the following meet on a date and performance so designated by the Commission.
- (20) Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited. This shall not prohibit necessary communication between totalisator and parimutuel department employees for processing of pool data.
- (21) The association must obtain written approval from the Commission concerning the scheduling of Tri-Superfecta contests, the percentages of the net pool added to the first-half pool and second-half pool, and the amount of any cap to be set on the carryover. Any changes to the approved Tri-Superfecta format require prior approval from the Commission.

R. Twin Superfecta Pools

- (1) The Twin Superfecta requires selection of the first four finishers, in their exact order, in each of two designated contests. Each winning ticket for the first Twin Superfecta contest must be exchanged for a free ticket on the second Twin Superfecta contest in order to remain eligible for the second-half Twin Superfecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second Twin Superfecta contest. Winning first-half Twin Superfecta tickets will receive both an exchange and a monetary payout. Both of the designated Twin Superfecta contests shall be included in only one Twin Superfecta pool.
- (2) After wagering closes for the first-half of the Twin Superfecta and commissions have been deducted from the pool, the net pool shall then be divided into two separate pools: the first half Twin Superfecta pool and the second-half Twin Superfecta pool.
- (3) In the first Twin Superfecta contest only, winning wagers shall be determined using the following precedence, based upon the official order of finish for the first Twin Superfecta contest:
 - (a) As a single price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then
 - (b) As a single price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then
 - (c) As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
 - (d) As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then
 - (e) The entire Twin Superfecta pool shall be refunded on Twin Superfecta wagers for that contest and the second-half shall be cancelled.
- (4) If no first-half Twin Superfecta ticket selects the first four finishers of that contest in exact order, winning ticket holders shall not receive any exchange tickets for the second-half Twin Superfecta pool. In such case, the second-half Twin Superfecta pool shall be retained and added to any existing Twin Superfecta carryover pool.
- (5) Winning tickets from the first-half of the Twin Superfecta shall be exchanged for tickets selecting the first four finishers of the second-half of the Twin Superfecta. The second-half Twin Superfecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish for the second Twin Superfecta contest:
 - (a) As a single price pool, including any existing carryover monies, to those whose combination finished in correct sequence as the first four betting interests; but if there are no such tickets, then
 - (b) The entire second-half Twin Trifecta pool for that contest shall be added to any existing carryover monies and retained for the corresponding second-half Twin Superfecta pool of the next performance.
- (6) If a winning first-half Twin Superfecta ticket is not presented for cashing and exchange prior to the second-half Twin Superfecta contest, the ticket holder may still collect the monetary

value associated with the first-half Twin Superfecta pool but forfeits all rights to any distribution of the second-half Twin Trifecta pool.

- (7) Coupled entries and mutuel fields shall be prohibited in Twin Superfecta contests.
- (8) Should a betting interest in the first-half of the Twin Superfecta be scratched, those Twin Superfecta tickets including the scratched betting interest shall be refunded.
- (9) Should a betting interest in the second-half of the Twin Superfecta be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second Twin Superfecta contest, the ticket holder forfeits all rights to the second-half Twin Superfecta pool.
- (10) If, due to a late scratch, the number of betting interests in the second-half of the Twin Superfecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets shall be entitled to the second-half Twin Superfecta pool for that contest as a single price pool, but not the Twin Superfecta carryover.
- (11) If there is a dead heat or multiple dead heats in either the first- or second-half of the Twin Superfecta, all Twin Superfecta tickets selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be a winner. In the case of a dead heat occurring in:
 - (a) the first-half of the Twin Superfecta, the payout shall be calculated as a profit split.
 - (b) the second-half of the Twin Superfecta, the payout shall be calculated as a single price pool.
- (12) If either of the Twin Superfecta contests are cancelled prior to the first Twin Superfecta contest, or the first Twin Superfecta contest is declared "no contest", the entire Twin Superfecta pool shall be refunded on Twin Superfecta wagers for that contest and the second-half shall be cancelled.
- (13) If the second-half Twin Superfecta contest is cancelled or declared "no contest", all exchange tickets and outstanding first-half winning Twin Superfecta tickets shall be entitled to the net Twin Superfecta pool for that contest as a single price pool, but not the Twin Superfecta carryover. If there are no such tickets, the net Twin Superfecta pool shall be distributed as described in subsection 3 of the Twin Superfecta rules.
- (14) The Twin Superfecta carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Twin Superfecta equals or exceeds the designated cap, the Twin Superfecta carryover will be frozen until it is won or distributed under other provisions of this rule. After the second-half Twin Superfecta carryover is frozen, 100 percent of the net Twin Superfecta pool for each individual contest shall be distributed to winners of the first-half of the Twin Superfecta pool.
- (15) A written request for permission to distribute the Twin Superfecta carryover on a specific performance may be submitted to the Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.
- (16) Should the Twin Superfecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for

the second-half of the Twin Superfecta after completion of the first-half of the Twin Superfecta:

- (a) As a single price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then
 - (b) As a single price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then
 - (c) As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
 - (d) As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then
 - (e) As a single price pool to holders of valid exchange tickets.
 - (f) As a single price pool to holders of outstanding first-half winning tickets.
- (17) Contrary to subsection 4 of the Twin Superfecta rules, during a performance designated to distribute the Twin Superfecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first-half of the Twin Superfecta. If there are no wagers correctly selecting the first-, second-, third-, and fourth-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-, second-, and third-place betting interests. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first-half of the Twin Superfecta, all first-half tickets will become winners and will receive 100 percent of that performance's net Twin Superfecta pool and any existing Twin Superfecta carryover as a single price pool.
- (18) The Twin Superfecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
- (a) Upon written approval from the Commission as provided in subsection 15 of the Twin Superfecta rules.
 - (b) Upon written approval from the Commission when there is a change in the carryover cap or when the Twin Superfecta is discontinued.
 - (c) On the closing performance of the meet or split meet.
- (19) If, for any reason, the Twin Superfecta carryover must be held over to the corresponding Twin Superfecta pool of a subsequent meet, the carryover shall be deposited in an interest bearing account approved by the Commission. The Twin Superfecta carryover plus accrued interest shall then be added to the second-half Twin Superfecta pool of the following meet on a date and performance so designated by the Commission.
- (20) Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is

prohibited. This shall not prohibit necessary communication between totalisator and parimutuel department employees for processing of pool data.

- (21) The association must obtain written approval from the Commission concerning the scheduling of Twin Superfecta contests, the percentages of the net pool added to the first-half pool and second-half pool, and the amount of any cap to be set on the carryover. Any changes to the approved Twin Superfecta format require prior approval from the Commission.

S. Exacta (n)

- (1) The Exacta(n) requires selection of the first two finishers, in their exact order, in each of a designated number of contests. The association must obtain written approval from the Commission concerning the scheduling of Exacta(n) contests, the designation of one of the methods prescribed in Part 4, and the amount of any cap to be set on the carryover. Any changes to the approved Exacta(n) format require prior approval from the Commission.
- (2) The Exacta(n) pool shall be apportioned under one of the following methods:
- (a) **Method 1, Exacta(n) With No Minor Pool and No Carryover:** The net Exacta(n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta(n) contests, based upon the official order of finish. If there are no wagers selecting the first and second place finishers, in exact order, in each of the Exacta(n) contests, the net Exacta(n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in the greatest number of Exacta(n) contests. If there are no winning wagers, the entire pool shall be refunded on Exacta(n) wagers for those contests.
 - (b) **Method 2, Exacta(n) With No Minor Pool and Carryover Instead of a Refund:** The net Exacta(n) pool and the carryover, if any, shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta(n) contests, based upon the official order of finish. If there are no wagers selecting the first and second place finishers, in exact order, in each of the Exacta(n) contests, the net Exacta(n) pool and the carryover shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in the greatest number of Exacta(n) contests. If there are no winning wagers, the net Exacta(n) pool shall be added to the carryover.
 - (c) **Method 3, Exacta(n) With No Minor Pool and Carryover:** The net Exacta(n) pool and the carryover, if any, shall be distributed as a single price pool to those who selected the first and second place finishers, in the exact order, in each of the Exacta(n) contests, based upon the official order of finish. If there are no winning wagers, the net Exacta(n) pool shall be added to the carryover.
 - (d) **Method 4, Exacta(n) With Minor Pool and No Carryover:** The major share of the net Exacta(n) pool shall be distributed as a single price pool to those who selected the first and second finishers, in exact order, in each of the Exacta(n) contests, based upon the official order of finish. The minor share of the net Exacta(n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in the second greatest number of Exacta(n) contests, based upon the official order

of finish. If there are no wagers selecting the first and second place finishers, in exact order, in each of the Exacta(n) contests, the major share of the net Exacta(n) pool shall be combined with the minor share for distribution as a single price pool to those who selected the first and second place finishers, in exact order, in the greatest number of exacta(n) contests. If there are no wagers selecting the first and second place finishers, in exact order, in a second greatest number of Exacta(n) contests, the minor share of the net Exacta(n) pool shall be combined with the major share for distribution as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta(n) contests. If there are no winning wagers, the pool shall be refunded on Exacta(n) wagers for those contests.

- (e) **Method 5, Exacta(n) With Minor Pool and Carryover:** The major share of the net Exacta(n) pool and the carryover, if any, shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta(n) contests, based upon the official order of finish. The minor share of the net Exacta(n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in the second greatest number of Exacta(n) contests, based on the official order of finish. If that are no wagers selecting the first and second place finishers, in exact order, in each of the Exacta(n) contests, the minor share of the net Exacta(n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in the greatest number of Exacta(n) contests, and the major share shall be added to the carryover. If there are no wagers selecting the first and second place finishers, in exact order, in a second greatest number of Exacta(n) contests, the minor share of the net Exacta(n) pool shall be combined with the major share for distribution as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta(n) contests, or if there are no such winning wagers, added to the carryover.
- (f) **Method 6, Exacta(n) With Minor Pool Based Upon Any One Exacta, and No Carryover:** The major share of the net Exacta (n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta (n) contests, based upon the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool to those (including recipients of the major share of the net Exacta (n) pool) who selected the first and second place finishers, in exact order, in at least one of the Exacta (n) contests, based upon the official order of finish. If there are no wagers selecting the first and second place finishers, in exact order, in each of the Exacta (n) contests, the major share of the net Exacta (n) pool shall be combined with the minor share for distribution as a single price pool to those who selected the first and second place finishers, in exact order, in at least one of the Exacta (n) contests. If there are no winning wagers, the pool is refunded.
- (g) **Method 7, Exacta (n) With Minor Pool Based Upon Any One Exacta, and Carryover:** The major share of the net Exacta (n) pool and the carryover, if any, shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta (n) contests, based upon the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price

pool to those (including recipients of the major share of the net Exacta (n) pool) who selected the first and second place finishers, in exact order, in at least one of the Exacta (n) contests, based upon the official order of finish. If there are no wagers selecting the first and second place finishers, in exact order, in each of the Exacta (n) contests, the major share shall be added to the carryover. If there are no wagers selecting the first and second place finishers, in exact order, in any of the Exacta (n) contests, the minor share of the net Exacta (n) pool shall also be added to the carryover.

(h) Method 8, Exacta (n) With Minor Pool Based Upon Individual Exactas, and No Carryover

- (A) The major share of the net Exacta (n) pool shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta (n) contests, based upon the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool based upon the sum of the dollar value of wagers for each of the Exacta (n) contests considered separately, in which the first and second place finishers, in exact order, were correctly selected, based on the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool to those (including recipients of the major share of the net Exacta (n) pool) who selected the first and second place finishers, in exact order, in one or more of the Exacta (n) contests. Each recipient of a minor share shall receive an amount equal to the single price times the number of Exacta (n) contests in which the recipient correctly selected the winning combination.
- (B) If there are no wagers selecting the first and second place finishers, in exact order, in all Exacta (n) contests, the major share shall be combined with the minor share and the entire net Exacta (n) pool shall be distributed in accordance with the rules in the preceding paragraph for distributing the minor share of the net Exacta (n) pool. If there are no winning wagers, the pool shall be refunded.

(i) Method 9, Exacta (n) With Minor Pool Based Upon Individual Exactas, and Carryover

- (A) The major share of the net Exacta (n) pool and the carryover, if any, shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta (n) contests, based upon the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool based upon the sum of the dollar value of wagers, for each of the Exacta (n) contests considered separately, in which the first and second place finishers, in exact order, were correctly selected, based on the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool to those (including recipients of the major share of the net Exacta (n) pool) who selected the first and second place finishers, in exact order, in one or more of the Exacta (n) contests. Each recipient of a minor share shall receive an amount equal to the single price times the number of Exacta (n) contests in which the recipient correctly selected the winning combination.

- (B) If there are no wagers selecting the first and second place finishers, in exact order, in all Exacta (n) contests, the minor share shall be distributed in accordance with the rules in the preceding paragraph for distributing the minor share of the net Exacta (n) pool, and the major share shall be added to the carryover; except that if there are no winning wagers in either the major or the minor pool, the performance's pool shall be refunded and the carryover shall be carried over.
- (j) Method 10, Exacta (n) With Minor Pool Based Upon Individual Exactas, and Carryover; 100% Carryover if no Winning Wagers**
- (A) The major share of the net Exacta (n) pool and the carryover, if any, shall be distributed as a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta (n) contests, based upon the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool based upon the sum of the dollar value of wagers, for each of the Exacta (n) contests considered separately, in which the first and second place finishers, in exact order, were correctly selected, based upon the official order of finish. The minor share of the net Exacta (n) pool shall be distributed as a single price pool to those (including recipients of the major share of the net Exacta (n) pool) who selected the first and second place finishers, in exact order, in one or more of the Exacta (n) contests. Each recipient of a minor share shall receive an amount equal to the single price times the number of Exacta (n) contests in which the recipient correctly selected the winning combination.
- (B) If there are no wagers selecting the first and second place finishers, in exact order, in all Exacta (n) contests, the minor share shall be distributed in accordance with the rules in the preceding paragraph for distributing the minor share of the net Exacta (n) pool, and the major share shall be added to the carryover. If there are no winning wagers, the minor share shall also be added to the carryover.
- (3) Dead Heats. In the event of a dead heat in any of the Exacta (n) contests, the net Exacta(n) shall be distributed to winning wagers in the following precedence, based upon the official order of finish, for each exacta contest within the Exacta(n) wager:
- (a) If there is a dead heat for first in any of the Exacta (n) contests involving contestants representing the same betting interest, the Exacta (n) pool shall be distributed as a single price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish for that contest.
- (b) If there is a dead heat for first in any of the Exacta (n) contests involving contestants representing two or more betting interests, the Exacta (n) pool shall be distributed as a single price pool with a winning wager including each betting interest involved in the dead heat.
- (c) If there is a dead heat for second in any of the Exacta (n) contests involving contestants representing the same betting interest, the Exacta (n) pool shall be distributed as if no dead heat occurred.
- (d) If there is a dead heat for second in any of the Exacta (n) contests involving contestants representing two or more betting interests, the Exacta (n) pool shall be distributed as a

single price pool with a winning wager including the betting interest which finished first together with any betting interest involved in the dead heat for second.

(4) Scratches

- (a) Should a betting interest in any contest of the Exacta (n) be scratched or excused from the contest prior to the first Exacta (n) contest being declared official, all money wagered on combinations including the scratched betting interest shall be deducted from the Exacta (n) pool and refunded.
- (b) Should a betting interest in any contest of the Exacta (n) be scratched or excused from the contest after the first Exacta (n) contest has been declared official, all money wagered on combinations including this betting interest shall remain in the Exacta (n) pool and the ticket holder may still collect the monetary value of any distribution evidenced by the ticket containing the scratched betting interest.
- (c) If, due to a late scratch, the number of betting interests in a contest of the Exacta (n) is reduced to fewer than two, for purposes of the Exacta (n) such contest shall be declared "no contest" and the Exacta (n) pool shall be subject to the rules set forth in Subsection 5 of these rules.

(5) Cancelled Contests

- (a) If any of the Exacta (n) contests are cancelled or declared "no contest" prior to the first Exacta (n) contest being declared official, the entire Exacta (n) pool shall be refunded on Exacta (n) wagers for those contests.
- (b) If all remaining Exacta (n) contests are cancelled or declared "no contest" after the first Exacta (n) contest is declared official, the net Exacta (n) pool shall be distributed as a single price pool to wagers selecting the winning combination in the first Exacta (n) contest, but not the Exacta (n) carryover. However, if there are no wagers selecting the winning combination in the first Exacta (n) contest, the entire Exacta (n) pool shall be refunded on Exacta (n) wagers for those contests.
- (c) If any of the remaining Exacta (n) contests are cancelled or declared "no contest" after the first Exacta (n) is declared official, the net Exacta (n) pool shall be distributed in accordance with rules governing distribution of the minor share where there is no winner of the major share.

(6) Mandatory Distribution

- (a) A written request for permission to distribute the Exacta (n) carryover on a specific performance may be submitted to the Commission. The request shall contain justification for the mandatory distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. The association must notify the Commission at least 10 days prior to implementation. If the Exacta (n) pool cannot be distributed during a designated performance, the mandatory distribution shall resume on the next scheduled mandatory distribution performance.
- (b) If the Exacta (n) carryover is designated for distribution on a specified date and performance, the following precedence shall be followed in determining winning tickets for the net Exacta (n) pool and the carryover pool:

- (A) As a single price pool to those who selected the first and second place finishers, in exact order, in each of the Exacta (n) contests, based upon the official order of finish. If there are no wagers selecting the first and second place finishers, in exact order, in all Exacta (n) contests, then
 - (B) As a single price pool to those who selected the first and second place finishers, in exact order, in at least one of the Exacta (n) contests, based upon the official order of finish.
 - (C) If there are no wagers which correctly selected the first and second place finishers, in exact order, in at least one of the Exacta (n) contests, based upon the official order of finish, then all Exacta (n) tickets shall become winners and receive 100% of that performance's net Exacta (n) pool and the Exacta (n) carryover pool as a single price pool.
- (7) If, for any reason, the Exacta (n) carryover must be held over to the corresponding Exacta (n) pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the Commission. The Exacta (n) carryover plus accrued interest shall then be added to the net Exacta (n) pool of the following meet on a date and performance so designated by the Commission.

T. Pick (n) Position (x) Pools

- (1) The Pick (n) Position (x) Pool requires selection of the first (x) finishers, in their exact positions, in each of a designated number of (n) contests. For example, in a Four Position Pool (x = 4), the bettor chooses four finishers in each contest. If the bettor has chosen "1, 2, 3 and 4", and the actual finishers are "4, 2, 3 and 1", the bettor has correctly chosen 2 positions [the second and third place finishers.]
- (2) The association must obtain written approval from the Commission concerning the scheduling of Pick (n) Position (x) contests, the designation of one of the methods prescribed in Parts 3 and 6, the percentages of the net pool apportioned between the major share of the Position (x) pool and the minor share(s) of the Position (x) pool, and the amount of any cap to be set on the carryover. Any changes to the approved Pick (n) Position (x) format require prior approval from the Commission.
- (3) Unless otherwise stated, the major share of the net Pick (n) Position (x) Pool [hereafter, "Position (x) Pool"] shall be distributed as a single price pool to those who selected all (x) finishers, in exact position, in a minimum specified number of positions in the (n) contests (considered as a whole) that comprise the Position (x) Pool, based upon the official order of finish. The minimum specified number of positions may be all (x) positions in all (n) contests (for instance, four positions in each of six contests, for a total of 24 positions) or a lesser specified number (for instance, 22 or more accurate positions within the six contests taken as a whole.)
- (4) The Pick (n) Position (x) pool shall be apportioned under one of the following methods:
 - (a) Method 1, Position (x) With No Minor Pool and No Carryover
 - (A) The net Position (x) pool shall be distributed in accordance with the method for distributing the major share as described in Subsection (3), above.

- (B) If there are no wagers qualifying for the major share, the net Position (x) pool shall be distributed as a single price pool to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests.
 - (C) If there are no winning wagers, the entire pool shall be refunded on Position (x) wagers for those contests.
- (b) Method 2, Position (x) With No Minor Pool and Carryover Instead of a Refund
- (A) The net Position (x) pool shall be distributed in accordance with the method for distributing the major share as described in Subsection (3), above.
 - (B) If there are no wagers qualifying for the major share, the net Position (x) pool and the carryover shall be distributed as a single price pool to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests.
 - (C) If there are no winning wagers, the net Position (x) pool shall be added to the carryover.
- (c) Method 3, Position (x) With No Minor Pool and Carryover
- (A) The net Position (x) pool shall be distributed in accordance with the method for distributing the major share as described in Subsection (3), above.
 - (B) If there are no wagers qualifying for the major share, the net Position (x) pool shall be added to the carryover.
- (d) Method 4, Position (x) With Minor Pool and No Carryover
- (A) The major share of the net Position (x) pool shall be distributed in accordance with the method for distributing the major share as described in Subsection (3), above.
 - (B) The minor share of the net Position (x) pool shall be distributed as a single price pool to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests (but less than the number of positions qualifying for the major share), based upon the official order of finish.
 - (C) If there are no wagers qualifying for the major share, the major share of the net Position (x) pool shall be combined with the minor share for distribution as a single price pool to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests.
 - (D) If there are no wagers correctly selecting any finishers, in exact position, in Position (x) contests, other than winners of the major share of the net Position (x) pool, the minor share of the net Position (x) pool shall be combined with the major share for distribution as a single price pool to those who qualified for the major share.
 - (E) If there are no winning wagers, the pool shall be refunded on Position (x) wagers for those contests.
- (e) Method 5, Position (x) With Minor Pool and Carryover
- (A) The major share of the net Position (x) pool shall be distributed in accordance with the method for distributing the major share as described in Subsection (3), above.

- (B) The minor share of the net Position (x) pool shall be distributed as a single price pool to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests (but less than the number of positions qualifying for the major share), based upon the official order of finish.
 - (C) If there are no wagers qualifying for the major share, the minor share of the net Position (x) pool shall be distributed as a single price pool to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests, and the major share shall be added to the carryover.
 - (D) If there are no wagers correctly selecting any finishers, in exact position, other than winners of the major share of the net Position (x) pool, the minor share of the net Position (x) pool shall be combined with the major share for distribution as a single price pool to those who qualified for the major share, or if there are no such winning wagers, added to the carryover.
- (f) Method 6, Position (x) With Minor Pool(s) and Carryover
- (A) The major share of the net Position (x) pool shall be distributed in accordance with the method for distributing the major share as described in Subsection (3), above.
 - (B) A principal minor share of the net Position (x) pool may be designated, and distributed as a single price pool, to those who correctly selected finishers, in exact position, in the greatest number of positions in Position (x) contests (but less than the number of positions qualifying for the major share), based upon the official order of finish.
 - (C) Additional minor shares of the net Position (x) pool may be designated, and distributed as single price pools, to those who correctly selected the designated number, or range, of finishers, in exact position, in Position (x) contests (but less than the number of positions qualifying for the major share), based upon the official order of finish.
 - (D) Those qualifying for the principal minor share may also qualify for one of the additional minor shares. When this occurs, the two unbroken prices shall be summed before surcharging or rounding the prices for breakage. For example:
 - (i) Suppose there are \$5 of wagers correctly selecting 12 positions, \$3 of wagers selecting 13 positions, and \$2 of wagers selecting 14 positions, and 14 is the greatest number of positions correctly selected.
 - (ii) Suppose that the principal minor share of the net pool is \$20,000.16. Further, one of the other minor shares is designated for a range of 12 to 15 positions, and this share of the net pool is \$10,000.80. (These amounts are chosen only to illustrate the following steps.)
 - (iii) Then the principal minor share is divided among those selecting 14 positions, and the other minor share is divided among all the wagers selecting 12, 13, and 14 positions, so the 14-position winners receives the sum of two winning prices.
 - (iv) The principal minor share \$20,000.16 divided among the \$2 of 14-position winners yields an unbroken price of \$10,000.08 per dollar, and the other

The Association of Racing Commissioners International
Model Rules of Racing

minor share \$10,000.80 divided among the \$10 of 12, 13, and 14-position winners yields an unbroken price of \$1,000.08 per dollar.

- (v) The sum $\$10,000.08 + \$1,000.08 = \$11,000.16$ is the combined unbroken price for choosing 14 finishers.
- (vi) If the rounding for breakage is to the next lower \$0.10, the final broken prices are \$11,000.10 for 14 finishers, and \$1,000.00 for 12 or 13 finishers.
- (E) The commission shall approve the number of minor shares, and the designated number, or range, of finishers, in exact position, in Position (x) contests qualifying as the winning selection in any such minor share.
- (F) If there are no wagers qualifying for the major share, the major share shall be added to the carryover. If there are no wagers qualifying for a designated minor share, the minor share of the net Position (x) pool shall be combined with the major share for distribution as a single price pool to those who qualified for the major share, or if there are no such winning wagers, added to the carryover.
- (g) Method 7, Position (x) With Minor Pool(s) Based Upon Any One Contest, and No Carryover
 - (A) The major share of the net Position (x) pool shall be distributed as a single price pool to those who selected all (x) finishers, in exact position, in each (or a specified minimum number) of the Position (x) contests, based upon the official order of finish.
 - (B) The minor shares of the net Position (x) pool shall be distributed as single price pools to those (including recipients of the major share of the net Position (n) pool) who selected all (x) finishers, in exact position, in at least one of the Position (x) contests, based upon the official order of finish, as follows:
 - (C) There may be separate minor pools for those who selected all (x) finishers, in exact positions of finish, in the most Position (x) contests, those who selected all (x) finishers, in exact positions of finish, in the second most position (x) contests, and so forth down to those who selected all (x) finishers, in exact positions of finish, in one position (x) contest. Not all such minor shares need to be designated for the wager.
 - (D) If there are no wagers qualifying for the major share, the major share of the net Position (x) pool shall be combined with the highest level minor share for distribution as a single price pool. If there are no wagers qualifying for a designated minor share of the net Position (x) pool, that minor share shall be combined with the next (lower) minor share for distribution as a single price pool.
 - (E) If there are no winning wagers, the pool is refunded.
- (h) Method 8, Position (x) With Minor Pool(s) Based Upon Any One Contest, and Carryover
 - (A) The major share of the net Position (x) pool and the carryover, if any, shall be distributed as a single price pool to those who selected all (x) finishers, in exact position, in each (or a specified minimum number) of the Position (x) contests, based upon the official order of finish.

- (B) The minor shares of the net Position (x) pool shall be distributed as single price pools to those (including recipients of the major share of the net Position (x) pool) who selected all (x) finishers, in exact position, in at least one of the Position (x) contests, based upon the official order of finish, as follows:
 - (C) There may be separate minor pools for those who selected all (x) finishers, in exact positions of finish, in the most position (x) contests, those who selected all (n) finishers, in exact positions of finish, in the second most position (x) contests, and so forth down to those who selected all (x) finishers, in exact positions of finish, in one position (x) contest. Not all such minor shares need to be designated for the wager.
 - (D) If there are no wagers qualifying for the major share, the major share shall be added to the carryover.
 - (E) If there are no wagers selecting all finishers, in exact position, in a number of the Position (x) contests that qualify for a designated minor share, that minor share of the net Position (n) pool shall also be added to the carryover.
- (i) Method 9, Position (x) With Minor Pool(s) Based Upon Any One Contest, and Carryover
- (A) The major share of the net Position (x) pool and the carryover, if any, shall be distributed as a single price pool to those who selected all (x) finishers, in exact position, in each (or a specified minimum number) of the Position (x) contests, based upon the official order of finish.
 - (B) The minor shares of the net Position (x) pool shall be distributed as single price pools to those (including recipients of the major share of the net Position (x) pool) who selected all (x) finishers, in exact position, in at least one of the Position (x) contests, based upon the official order of finish, as follows:
 - (C) There may be separate minor pools for those who selected all (x) finishers, in exact positions of finish, in the most position (x) contests, those who selected all (x) finishers, in exact positions of finish, in the second most position (x) contests, and so forth down to those who selected all (x) finishers, in exact positions of finish, in one position (x) contest. Not all such minor shares need to be designated for the wager.
 - (D) If there are no wagers qualifying for the major share, the major share shall be added to the carryover.
 - (E) If there are no wagers selecting all finishers, in exact position, in a number of the position (x) contests that qualify for a designated minor share, that minor share of the position (x) pool shall be added to the next (lower) minor share of the position (x) pool. If there is no lower designated minor share of the position (x) pool, the minor share shall also be added to the carryover.
- (j) Method 10, Position (x) With Minor Pool Based Upon Any One Contest, and Carryover;
100% Carryover if no Winning Wagers

- (A) The major share of the net Position (x) pool and the carryover, if any, shall be distributed as a single price pool to those who selected all (x) finishers, in exact position, in each (or a specified minimum number) of the Position (x) contests, based upon the official order of finish.
 - (B) The minor share of the net Position (x) pool shall be distributed as a single price pool based upon the sum of the dollar value of wagers, for each of the Position (x) contests considered separately, in which all (x) finishers, in exact position, were correctly selected, based upon the official order of finish. The minor share of the net Position (x) pool shall be distributed as a single price pool to those (including recipients of the major share of the net Position (x) pool) who selected all (x) finishers, in exact position, in one or more of the Position (x) contests. Each recipient of a minor share shall receive an amount equal to the single price times the number of Position (x) contests in which the recipient correctly selected the winning combination.
 - (C) If there are no wagers qualifying for the major share, the major share shall be added to the carryover. If there are no winning wagers, the minor share shall also be added to the carryover.
- (k) Method 11, Position (x) with Minor Pools and Carryover
- (A) The net position (x) pool and the carryover, if any, shall be distributed to any player who correctly selects (x) finishers in specified positions in each of (n) contests, based upon the official order of finish.
 - (B) Minor shares shall be designated, and distributed as single price pools, to those who correctly select the designated position(s) of finishers, in Position (x) contests, based upon the official order of finish, and any remainder shall be added to the carryover.
 - (C) The Commission shall approve the number of minor shares, and the designated position(s) of finishers, in exact position, in Position (x) contests qualifying as the winning selection(s) in any such minor share.
 - (D) If there are no wagers qualifying for the major share, the major share shall be added to the carryover. If there are no winning wagers, the minor share shall also be added to the carryover.
- (5) Apportionment of Net Position (x) Pool Between Major and Minor Pool(s)
- The commission shall approve the method of apportioning the net Position (x) pool between winners of the Major share of the Position (x) pool and winners of the Minor share(s) of the Position (x) pool.
- Example (utilizing Method 8): A Four Position Pool ($x = 4$) consisting of 5 contests ($n = 5$.) The major share goes to those who correctly choose all 20 positions. Assume the commission has approved three minor shares: The highest minor share goes to those who have picked all positions, in exact order, in 4 of the contests. The next minor share goes to those who have picked all positions, in exact order, in 3 of the contests. The final minor share goes to those who have picked all positions, in exact order, in 1 or 2 of the contests. One apportionment of payouts could be 40% of the net Position (x) pool for the major share, and 20% of the net Position (x) pool for each of the three minor shares. Another apportionment of payouts could be 50% of the net Position (x) pool for the major share, 25% for the highest minor share, 15% to the next minor share, and 10% to the final minor share.

- (6) Dead Heats. In the event of a dead heat in any of the Position (x) contests, based upon the official order of finish:
- (a) For purposes of determining whether a wager correctly selected the finishers, in exact position, contestants in a dead heat are deemed to jointly occupy both (or all) positions in the dead heat. For example, if 5 and 6 finish in a dead heat for first, then a selection of 5 for either first or second is correct, and a selection of 6 for either first or second is also correct.
 - (b) Each share of the net Position (x) pool shall be distributed as a single price pool regardless of dead heats.
- (7) Scratches
- (a) If, due to a late scratch, the number of betting interests in a contest of the Position (x) pool is reduced to fewer than (x), for purposes of the Position (x) pool only, such contest shall be declared “no contest” and the Position (x) pool shall be subject to the rules set forth in the “Cancelled Contests” section (Part 7) of these rules.
 - (b) Should a betting interest in any contest of the Position (x) pool be scratched or excused from the contest, no more wagers shall be accepted selecting that scratched contestant.
 - (c) Existing wagers that select a scratched betting interest shall be handled under one of the following methods. The Commission shall make its determination of which of these alternatives shall apply at the time of approving the wagering pool, which alternative shall remain in effect until and unless changed by the Commission.
 - (A) Method 1, Substitute a higher contestant number:
 - (i) The next higher live contestant number that is not already part of the wager shall be substituted for the scratched contestant number. If no higher contestant number is eligible, the search shall then proceed upward from contestant number 1.
 - (ii) If a wager selects more than one scratched contestant for a contest, the substitutions shall begin with the lowest scratched contestant number in the wager and proceed in order to the highest.
 - (iii) Substitution shall be performed on the basis of single wagers, regardless of whether a wager was placed as part of any type of multiple wager format such as “box” or “wheel”.
 - (iv) The totalisator shall produce reports showing each of the wagering combinations with substituted contestants which became winners as a result of the substitution, in addition to the normal winning combination.
 - (B) Method 2, Substitute favorite contestant number:
 - (i) The actual favorite, as evidenced by total amounts wagered in the Win pool at the close of wagering on that contest, shall be substituted for the scratched contestant for all purposes, including pool calculations.
 - (ii) If the Win pool total for two or more favorites is identical, the substitute selection shall be the contestant with the lowest contestant number not already selected in the wager as part of the contest.

- (iii) If such favorite has already been selected in the wager as part of the contest, the next favorite(s) shall be used, as evidenced by the total amounts wagered in the Win pool, ordered from the highest amount to the lowest.
 - (iv) If a wager selects more than one scratched contestant for a contest, the substitutions shall begin with the lowest scratched contestant number in the wager and proceed in order to the highest.
 - (v) Substitution shall be performed on the basis of single wagers, regardless of whether a wager was placed as part of any type of multiple wager format such as “box” or “wheel”.
 - (vi) The totalisator shall produce reports showing each of the wagering combinations with substituted contestants which became winners as a result of the substitution, in addition to the normal winning combination. (C)
Method 3, Scratched contestant wins
 - (i) The scratched contestant is deemed to be a correct selection of a winning finisher, for purposes of the Position (x) pool only.
 - (ii) The totalisator shall produce reports showing each of the wagering combinations which became winners as a result of the scratched contestants, in addition to the normal winning combination.
- (D) Method 4, Scratched contestant loses:
- (i) The scratched contestant is deemed to be a loser, for purposes of the Position (x) pool only.
 - (ii) Other correctly selected finishers in a wager shall continue to count toward winning, as usual.
- (8) Cancelled Contests
- (a) If any of the Position (x) contests are cancelled or declared “no contest” prior to the first Position (x) contest being declared official, the entire Position (x) pool shall be refunded on Position (x) wagers for those contests.
 - (b) If all remaining Position (x) contests are cancelled or declared “no contest” after the first Position (x) contest is declared official, the entire net Position (x) pool, but not the Position (x) carryover, shall be distributed as a single price pool to wagers selecting the winning combination in the first Position (x) contest. However, if there are no wagers selecting the winning combination in the first Position (x) contest, the entire Position (x) pool shall be refunded on Position (x) wagers for those contests.
 - (c) If any of the remaining Position (x) contests are cancelled or declared “no contest” after the first Position (x) is declared official, the net Position (x) pool shall be distributed in accordance with rules governing distribution of the minor share(s) where there is no winner of the major share. If there is more than one minor share, the entire net Position (x) pool, but not the Position (x) carryover, shall be divided amongst the minor share(s), in accordance with the Apportionment section (Part 3) of these rules, in proportion to the designated percentages, or by some other method approved by the Commission.

- (d) If any of the remaining Position (x) contests are cancelled or declared "no contest" after the first Position (x) is declared official, and the net Position (x) pool has been designated for distribution in accordance with the Mandatory Distribution section (Part 9) of these rules, the rules governing mandatory distribution shall apply.
- (9) Carryover Cap. The Position (x) carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Position (x) carryover equals or exceeds the designated cap, the Position (x) carryover will be frozen until it is won or distributed under other provisions of these Position (x) rules. After the Position (x) carryover is frozen, the part of the net pool that ordinarily would be added to the Position (x) carryover shall be distributed to those whose selection finished in the highest level of the minor share(s) of the Position (x) for that performance.
- (10) Mandatory Distribution
- (a) A written request for permission to distribute the Position (x) carryover on a specific performance may be submitted to the Commission. The request shall contain justification for the mandatory distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution. The association must notify the Commission at least 10 days prior to implementation. If the Position (x) pool cannot be distributed during a designated performance, the mandatory distribution shall resume on the next approved mandatory distribution performance.
 - (b) If the Position (x) carryover is designated for distribution on a specified date and performance, and if there are no wagers qualifying for the major share, then the following precedence shall be followed in determining winning wagers for the net Position (x) pool and the carryover pool:
 - (A) If the method chosen in Part 3 is method 7, 8, 9, or 10, then:
 - (B) The major share and the Position (x) carryover shall be distributed as a single price pool to those who selected all (x) finishers, in exact position, in the most individual Position (n) contests, based upon the official order of finish. Designated minor shares may still be awarded;
 - (C) If the method chosen in Part 3 is 1, 2, 3, 4, 5, or 6, then:
 - (D) The major share and the Position (x) carryover shall be distributed as a single price pool to those who correctly selected the most finishers, in their exact positions, in the Position (n) contests, based upon the official order of finish. Designated minor shares may still be awarded.
 - (E) If there are no wagers which qualified for distribution of the major share, then all Position (x) tickets shall become winners and share 100% of that performance's net Position (x) pool and the Position (x) carryover pool as a single price pool.
 - (c) The Position (x) carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
 - (A) Upon written approval from the Commission as provided in Part 9a) of the Position (x) rules.

- (B) Upon written approval from the Commission when there is a change in the carryover cap or when the Position (x) wager is discontinued.
 - (C) On the closing performance of the meet.
 - (d) If, for any reason, the Position (x) carryover must be held over to the corresponding Position (x) pool of a subsequent meet, the carryover shall be deposited in an interest bearing account approved by the Commission. The Position (x) carryover plus accrued interest shall then be added to the net Position (x) pool of the following meet on a date and performance so designated by the Commission.
- (11) Coupled entries and mutuel fields
- (a) Coupled entries and mutuel fields may be permitted in Position (x) contests with the written approval of the Commission.
 - (b) Contestants coupled in wagering as a coupled entry or mutuel field shall be considered part of a single betting interest for the purpose of price calculations and distribution of Position (x) pools. Should any contestant in a coupled entry or mutuel field be officially withdrawn or scratched, the remaining contestants in that coupled entry or mutuel field shall remain valid betting interests and no refunds will be granted. If all contestants within a coupled entry or mutuel field are scratched, then the Scratches section (Part 6) of these rules shall apply.
 - (c) For the purpose of Position (x) price calculations only, coupled entries and mutuel fields shall be calculated as a single finishing contestant, using the finishing position of the leading contestant in that coupled entry or mutuel field to determine order of placing. This rule shall apply to all circumstances, including situations involving a dead heat. For example, if the actual order of finish in a contest is 1 / 2 / 1A / 3 / 4, then the finishers used for that contest of the Position (x) would be 1 / 2 / 3 / 4.
- (12) With the written approval of the Commission, the association may contribute to the Position (x) carryover, or to the major or minor share(s) of the Position (x) pool, a sum of money up to the amount of any designated cap.

U. The Team Wager Pool

- (1) The Team Wager Pool requires selection of a designated “team” in each of a designated number of contests. Winning bets shall be determined based upon the official order of finish in each contest and the standing of each team with respect to the official order of finish. For purposes of the Team Wager, finishers from the same team shall be bracketed together to determine a single betting interest, as set forth in Part 3.
- (2) Prior to the start of the contests that comprise the Team Wager, all participants in each of the contests shall be divided by the association between or among each of the Team Wager teams, and the roster of each team made public, as well as the number of points to be awarded to the team whose member is the first finisher in a designated contest, the second finisher, and so forth until no more points are awarded in that contest.
- (3) At the conclusion of all contests that comprise the Team Wager, the number of points for each team shall be compiled, and the team with the most points shall be declared the “winning team.”

(4) The Team Wager pool shall be apportioned under either of the following methods: (a)
Winning Margins Team Wager

(A) In the “Winning Margins Team Wager”, the total number of points awarded in the Team Wager shall be divided by the association into a series of brackets comprised of a series of point ranges (“winning margin”) by which one team (Team A) might defeat the other team (Team B); a series of point ranges by which Team B might defeat Team A; and a tie between the teams. Each bracket shall constitute a separate betting interest in the Winning Margins Team Wager.

(B) The net Winning Margins Team Wager pool shall be distributed as a single price pool to those who selected the correct bracket. If there are no wagers selecting the correct bracket, the entire pool shall be refunded.

(C) Example: Points are assigned to each of the first four finishers in each contest [four points for the first finisher down to one point for the fourth finisher, for a total of 10 points awarded in each contest], based upon the official order of finish, with a total of six contests in the Team Wager, resulting in a total of 60 points in all. The brackets could be designated as:

(i) Team A’s winning margin is

- 1-10 points
- 11-20 points
- 21-30 points
- 31-40 points
- 41-50 points
- 51-60 points

(ii) Team B’s winning margin is

- 1-10 points
- 11-20 points
- 21-30 points
- 31-40 points
- 41-50 points
- 51-60 points

(iii) The two teams tie, and the margin is 0 Points

(iv) In this example, there are 13 separate betting interests.

(v) If, in this example, finishers representing Team A come in 1st and 3rd in one contest, and finishers representing Team B come in 2nd and 4th in that contest, Team A would have 4+2=6 points and Team B would have 3+1=4 points. The current winning margin (after this first contest) would be Team A by 2 points.)

(b) Team Double Wager

(A) In the “Team Double Wager”, the commission shall approve two different methods of determining the winning tickets qualifying for a share of the net pool.

- (B) The commission shall also approve the manner of apportioning the net Team Double Wager pool, and the conditions under which the pool shall be refunded or otherwise apportioned if there are no winning wagers.
 - (C) Example: A “daily-double”-style pool consisting of having to correctly select the bracket of the winning margin, as above, as well as a bracket based upon and including the total points achieved by the winning team.
- (5) Brackets
- (a) The brackets may be comprised of the margins by which the winning team defeats the team that finishes second; the total number of points achieved by the winning team; or other method of determining the brackets, as approved by the commission.
 - (b) Such factors as the number of teams in the Team Wager; the method by which teams are designated; the number of points to be awarded in each contest; the number of contests comprising the Team Wager; and the method by which the “brackets” constituting each betting interest in the Team Wager are designated, shall all be subject to approval of the commission.
- (6) Coupled Entries; Fields. With approval of the commission, coupled entries may be permitted in contests comprising the Team Wager, but may only participate as part of the same Team. With approval of the commission, fields may be permitted in contests comprising the Team Wager, but may only participate as part of the same Team.
- (7) Dead Heat. If there is a dead heat including any finisher(s) for which points are awarded in the Team Wager, the total amount of points in the dead heat positions shall be combined and divided equally amongst the betting interests that have finished in the dead heat.
- (8) Scratches
- (a) Should an entry in any contest of the Team Wager be scratched or excused from the contest, all money wagered on combinations including this entry shall remain in the Team Wager pool and the ticket holder may still collect the monetary value of any distribution evidenced by the ticket containing the scratched betting interest.
 - (b) If, due to a scratch or excused entry, the number of entries assigned to a team in a contest of the Team Wager is reduced to fewer than the number of positions in the final order of finish for which the team is eligible to receive points, for purposes of the Team Wager pool such contest shall be declared “no contest” and wagers involving any betting interests that are no longer capable of being achieved shall be refunded.

V. Future Wager Pool

- (1) The Future Wager requires selection of the first-place finisher in a specified contest.
- (2) The association shall apply in writing to the commission for approval to offer the Future Wager on the specified contest and shall not offer the wager until the commission approval has been granted. The written application shall include the date and time for the pool to be opened and closed, a description of the system for compiling the pool and calculating odds and payout prices, and the time interval for displaying the odds.

- (3) The association, or in the case of interjurisdictional common pool wagering the Host track, shall name the contestants included in each betting interest on which future wagers may be made and shall assign a program number to each betting interest.
- (4) The amount wagered on the betting interest which finishes first in the specified race is deducted from the net pool, the balance remaining being the profit; the profit is divided by the amount wagered on the betting interest finishing first, such quotient being the profit per dollar wagered in the Future Pool on that betting interest.
- (5) The net Future Pool shall be distributed as a single price pool to winning wagers in the following precedence, based upon the official order of finish:
 - (a) To those whose selection finished first; but if there are no such wagers, then
 - (b) To those whose selection finished second; but if there are no such wagers, then
 - (c) To those whose selection finished third; but if there are no such wagers, then (d) The entire pool shall be refunded on Future Pool wagers for that contest.
- (6) If there is a dead heat for first involving:
 - (a) contestants representing the same betting interest, the Future Pool shall be distributed as if no dead heat occurred.

Y. 123Racing Pick (n) Wager Pool

- (1) The ‘123RACING PICK-N’ is a pari-mutuel wager that requires the selection of one runner from each contest in a series of specific contests comprising the 123RACING PICK-N pool (“123RACING pool”). ‘N’ denotes the number of designated contests in that pool.
- (2) Four is the minimum number of contests required to offer a 123RACING Pick-N pool.

The Association of Racing Commissioners International
Model Rules of Racing

- (3) If a 123RACING Pick-N pool is reduced to fewer than 4 completed contests, the 123RACING Pick-N pool will be cancelled and all wagers will be refunded.
- (4) Each wager is automatically assigned to a unique wager ID by the host totalizator platform, and is allocated “points” in each contest.
- (5) Points are allocated for winning selections of contestants that finish in the 1st, 2nd or 3rd position in the official results for each contest and have a pari-mutuel pay-out associated with its finish. Points scored will be equivalent to adding the pari-mutuel pool host payouts for the Win, Place and Show wager on that selection (i.e. \$2 Win, \$2 Place and \$2 Show wagers).
- (6) Points are accumulated after each contest in the 123RACING Pick-N pool and displayed on a leaderboard shown at betting venues and online.
- (7) Each 123RACING Pick-N wager is assigned a unique identifier/nickname associated with the serial number of the ticket or account wager record. This unique identifier/nickname is used to identify the wagers’ progress on the leaderboard display.
- (8) The unique 123RACING Pick-N wagers with the highest points scores after the last designated contest share in the pay-outs of the net pool according to subsection (14) of this section.
- (9) After each leg of the contests comprising the 123RACING Pick-N wager, the leaderboard displays the points accumulated from that leg and the cumulative points of each player and their ranking in the 123RACING Pick-N pool. After the final contest comprising the 123RACING Pick-N, the leaderboard displays the final result and pay-outs for the 123RACING Pick-N pool.
- (10) Where a selection in a 123RACING Pick-N wager does not finish in 1st, 2nd or 3rd in the official results or the selection was a non-wagering interest, no Points are scored.
- (11) The 123Racing Pick-N wager is not eliminated if a selection does not score points.
- (12) Wagering on the 123RACING Pick-N pool shall close at the start of the first designated contest in the 123RACING Pick-N pool. Participants are not permitted to cancel a 123RACING Pick-N wager after the 123RACING Pick-N pool has closed.
- (13) 100% of the net 123RACING Pick-N pool is paid out upon completion of all designated contests in the 123RACING Pick-N pool.
- (14) The distribution of the 123RACING Pick-N pool is based on the winning wager(s) in the following order of precedence:

(a) Single winners of the 123RACING Pick-N pool

The highest scoring single wager in the 123RACING pool receives 60% of the Net Pool.

The 2nd highest scoring single wager receives 30% of the Net Pool.

The 3rd highest scoring single wager receives 10% of the Net Pool.

(b) If there are two 123RACING Pick-N wagers that score the highest points then those two winning wagers share 90% (60% + 30%) of the Net Pool equally divided between the two winning wagers and the 2nd highest scoring single wager receives 10% of the Net Pool.

(c) If there are 3 or more winning wagers scoring the same highest points 100% of the Net Pool is equally divided amongst each winning wager. This shall be done consistent with the minimum pari-mutuel payouts of the jurisdiction in which the wager was hosted.

(d) If there is a single wager with the highest points total, and two or more wagers with the second highest points total, the highest scoring wager will receive 60% of the Net Pool, and the second highest points wagers share 40% of the Net Pool equally divided by the two or more wagers, as the case may be, that scored the second highest points total.

(e) If there is a single wager with the highest points total, and a single wager with the second highest points total, and two or more wagers with the third highest points total, the highest scoring wager will receive 60% of the Net Pool, the second highest point wager will receive 30% of the Net Pool, and the third highest point wagers will share 10% of the Net Pool equally divided by the two or more wagers, as the case may be, that scored the third highest point total.

- (15) Subject to subsection (3), if a single contest included as part of a 123RACING Pick-N pool is cancelled or declared a “no contest”, the net pool shall be distributed based on the results of the other designated contests included in the pool.
- (16) Coupled entries or mutuel fields, as defined within the rules and regulations of the Commission, shall race in any 123RACING Pick-N contest as a single betting interest for purposes of the 123RACING Pick-N pool calculations.
- (17) A scratch after wagering on the 123RACING Pick-N has begun of any betting interest of a coupled entry or mutuel field selection in said 123RACING Pick-N contest shall be of no effect with respect to the status of such remaining entry and/or field as a viable wagering interest, unless in conflict with the wagering rules in the host track jurisdiction
- (18) Should a betting interest in any of the 123RACING Pick-N contests be scratched, the post time favorite, as evidenced by total amounts wagered in the Win pool at the host association for the contest at the close of wagering on that contest shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the Win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number. The totalizator shall produce reports

showing each of the wagering combinations with substituted betting interest which became winners as a result of the substitution in addition to the normal winning combination.

- (19) The takeout and the pool distribution for a 123RACING Pick-N pool shall be set by the host association and approved by the host regulatory commission.
- (20) With written approval of the Commission, the pool host may contribute to the Net amount of the 123RACING Pick-N pool.

123RACING Scoring Example:

Picks that finish 1st, 2nd or 3rd in each contest score points allocated by summing the parimutuel pay-outs equivalent to a \$2 Win, Place, and Show wager, i.e. by summing the Official Win, Place and Show pari-mutuel pay-outs for the contest, as in the following example: -----

Horse A – 1st

Win: \$6.00 Place: \$5.60 Show: \$2.20

Total Score = Win + Place + Show = 13.80 points

----- Horse

B – 2nd

Place: \$15.60 Show: \$4.80

Total Score = Place + Show = 20.40 points

----- Horse

C – 3rd

Show: \$2.10

Total Score = Show = 2.10 points

- a. The scratched betting interest will be substituted with the betting interest that drew into the race off the also eligible list. In the event that two betting interest scratch, the scratched betting interest with the lower program number will be substituted with the also eligible that has the lower program number and the scratched betting interest with the higher program number will be substituted with the also eligible that has the higher program number. In the event that more than two betting interests are scratched, the pattern for determining the also eligible betting interest to be substituted for the scratched betting interest set forth in the previous sentence shall be applied for all such betting interests; or
 - b. The association can elect to refund the ticket.
- (12) In the event that a ticket is purchased prior to the day's surface change, if any, being announced and a betting interest designated as "main track only" draws into the race, the association shall specify which method it will use described under paragraph (12)a or b. A guest association which commingles wagers into the pool may elect to not offer wagering to its customers until all betting interests which were designated as "main track only," if any, have been declared starters.
- a. A betting interest that was scratched will be substituted with the betting interest that was designated as "main track only." In the event that two betting interests scratch, the scratched betting interest with the lower program number will be substituted with the "main track only" betting interest that has the lower program number and the scratched betting interest with the higher program number will be substituted with the "main track only" betting interest that has the higher program number. In the event that more than two betting interests are scratched, the pattern for determining the "main track only" betting interest to be substituted for the scratched betting interest set forth in the previous sentence shall be applied for all such betting interests; or
 - b. The association may elect to refund the ticket.
- (13) The association, with the approval of the Commission, may close the Exact (n) pool prior to the association closing its other single contest wagering pools. If after the Exact (n)

pool closes, a betting interest is either scratched, declared a non-starter, or does not finish the race, such betting interest shall be considered only for purpose of the Exact (n) pool to have finished the race in last position. If two betting interests are scratched, declared nonstarters, or do not finish the race after the Exact (n) pool has closed, the scratched, nonstarter, or non-finishing betting interest with the highest program number shall be considered to have finished in last position and the scratched, non-starter, or non-finishing betting interest with the second highest program number shall be considered to have finished second to last. In the event that more than two betting interests are scratched, declared non-starters, or do not finish the race after the Exact (n) pool has closed, the pattern for determining the finishing position of the betting interests set forth in the previous sentence shall be applied for all such betting interests. Notwithstanding the foregoing, but only as it relates to tickets which contain a betting interest which is scratched after the pool closes but before the race is declared “off” or a betting interest which is declared a non-starter, the association may elect to refund such ticket.

- (14) In the event that the race is declared a non-contest, or if when the pool closes there are less than (n) betting interests, the entire pool shall be refunded and any previous carryover shall be added to the next scheduled corresponding pool.

AA. RACINGO Pool

- (1) RACINGO requires selection of the first, second and third finishers, in exact or inexact order, as the case may be, for three designated races. The selection shall be made on a ticket approved by the Commission. The RACINGO daily net pool shall be allocated to one of four prize categories.
- (2) The association shall obtain written approval from the Commission concerning the ticket design, the percent of the daily pool net pool allocated to each prize category, the scheduling of the RACINGO contests, the guaranteed minimum payout (if any) for any prize category, the amount of any cap to be set on any carryover, and the date of any scheduled mandatory distribution.
- (3) Within each prize category all winning tickets shall be calculated as a single price pool. Winners for each prize category will be determined by matching squares on the RACINGO ticket in the patterns as described below:
 - (a) For Prize Category A – “The DIAMOND” – Matching four (4) squares on the ticket in the following pattern: middle left with upper and lower center and middle right (i.e. place position 1st leg, win and show position 2nd leg, and place position 3rd leg).
 - (b) For Prize Category B - “The X” – Matching five (5) squares on the ticket in the following pattern: upper and lower left with middle center and upper and lower right (i.e. win and show position 1st leg, place position 2nd leg, and win and show position 3rd leg).
 - (c) For Prize Category C – The FULL CARD IN ANY ORDER – Matching all squares on the ticket. Selections can appear on the ticket in any order of finish for first, second and third in each of the three separate legs.
 - (d) For Prize Category D – The FULL CARD IN EXACT ORDER – Matching all squares

on the ticket. All selections must appear on the ticket in their exact order of finish for first, second and third in each of the three separate legs. In the event of a dead heat (s) for any position a square will be considered an exact match if it contains any of the betting interests dead heated for that position.

- (4) Except as provided for in Subsections 7 and 12, winning tickets shall apply to one prize category only in precedence starting with Prize Category D. For example, a winning ticket for Prize Category D shall not participate in the distribution of Prize Categories A, B, or C. A winning ticket for Prize Category C shall not participate in the distribution of Prize Categories A, B, or D. A winning ticket for Prize Category B shall not participate in the distribution of Prize Categories A, C, or D. And a winning ticket for Prize Category A shall not participate in the distribution of Prize Categories B, C, or D.
- (5) The net pool for Prize Category D may be supplemented in order to guarantee a minimum payout. Such minimum payout (if applicable) must be established by the association and authorized by the Commission prior to the first RACINGO pool or prior to the first RACINGO pool after Prize Category D has been won. For example, if a minimum payout of \$1 million is established, the actual gross pool plus any applicable carryover would be supplemented to raise the payout to \$1 million. The amount to be supplemented would decrease as the jackpot pool grows. The supplement would cease once the jackpot pool reaches \$1 million.
- (6) The payout for each prize category shall be separately calculated as a single price pool by dividing the amount of winning dollars into the portion of the net pool plus any applicable carryover and supplemental money allocated to that particular prize category.
- (7) Prize Categories C and D are separate Jackpot prizes. The net pool for each jackpot will consist of the current allocation of the daily net RACINGO pool plus the applicable carryover, if any. If no winning tickets are sold for either of these Prize Categories C and D, 100 percent of that performance's net pool allocated to the respective Prize Categories plus applicable carryover shall be carried over to the corresponding prize category of the next scheduled RACINGO contest.
- (8) In the event there is no pari-mutuel ticket sold selecting a winner for Prize Category A or Prize Category B, the portion of the net pool allocated for that prize will be divided equally, and added to the carryover for distribution in Prize Categories C and D.
- (9) A RACINGO pool shall not be offered if any of the three designated RACINGO legs have fewer than three programmed betting interests.
- (10) The RACINGO pool shall be cancelled and all RACINGO wagers for the individual contest shall be refunded and no additions to the jackpot prizes will be made if:
 - (a) any of the three designated legs are cancelled or declared "no contest", or
 - (b) fewer than three betting interests start or finish in any of the three designated legs.
- (11) In the event of a scratch after wagering has begun on RACINGO, substitution will be to the next highest program number available and not already bet by the RACINGO player. In the event where the next highest program number is either scratched or already in use by the RACINGO player, substitution will proceed via a wrap-around method to the lowest unused program number and come forward until an available program number has been reached.

Substitution for scratched entries will always begin with the lowest numbered scratched entry in that leg of the contest. In the event of multiple scratched program numbers in the same leg, the substitution for each of the scratched betting interests will begin with the lowest program number in that leg of the contest. Substitutions will take place only after the Host track has posted all official scratches in the official results of each leg.

- (12) In the event of a dead heat in any of the 3 designated RACINGO races, squares on RACINGO tickets containing any of the dead heated betting interests in that race shall be considered matching squares. For example, if in the first designated RACINGO race betting interests 1 and 2 finished in a dead heat to win, RACINGO players who selected either 1 or 2 to win in the first race would be given credit for a matching square. Using this same example, if a RACINGO player selected either 1 or 2 in either the win or place positions for the first designated race, they would be given credit for a matching square for both win and place positions. Squares containing dead heated entries in the correct order of finish in that leg shall be considered exact matching squares pursuant to qualification for Prize Category D as detailed below.
- (13) On a performance designated for mandatory distribution of a RACINGO pool, the current pool allocation to the Jackpot prize plus any applicable carryover will be distributed according to Subsection 3 or, if there are no tickets sold in the various prize categories, in the following manner:
 - (a) Prize Category D: If no tickets are sold to win Prize Category D, the sum of the allocated net pool and accumulated carryover from Prize Category D will be added to the allocated net pool and accumulated carryover from Prize Category C.
 - (b) Prize Category C: If no tickets are sold to win Prize Category C, the sum of the allocated net pool and accumulated carryover from Prize Category C shall be added to the allocated net pool and accumulated carryover for Prize Category B.
 - (c) Prize Category B: If no tickets are sold to win Prize Category B, the sum of the allocated net pool and accumulated carryover from Prize Category B shall be added to the allocated net pool plus accumulated carryover for Prize Category A.
 - (d) Prize Category A: If no tickets are sold to win Prize Category A, the allocated net pool plus accumulated carryover from Prize Categories A shall be added to the allocated net pool plus accumulated carryover for Prize Category D.
 - (e) If no ticket is sold to win Prize Categories A, B, C, or D, the allocated net pool plus accumulated carryover from the respective Prize Categories shall be paid to all ticket holders of the current RACINGO contest.
- (14) If for any reason the net pool cannot be paid, the funds shall be deposited in an interest bearing account approved by the Commission and available the next time the pool is offered by the Host.

BB. Choose (n) Rules

- (1) The Choose (n) is a form of pari-mutuel wagering. Each bettor attempts to choose the winner of (n) races but chooses the races at his own discretion instead of having the races designated for him by the association. The races need not be consecutive and the ticket's first race may begin at any time provided that there are an equal number of races left on the program. The

Choose (n) ticket is in effect a contract by the purchaser of the ticket to select any of the (n) winners from the entire card. The association must obtain written approval from the Commission concerning the scheduling of Choose (n) contests and the amount of any cap to be set on the carryover. Any changes to the approved Choose (n) format require prior approval from the Commission.

- (2) The Choose (n) pool shall be held separately from all other pools and is in no way part of a daily double, exacta, trifecta or any other wagering pool. The Choose (n) is a pool wherein the bettor is required to select any (n) winning horses from that particular card and is not a parlay.
- (3) Choose (n) tickets shall be sold in denominations as determined by the association. No less than or no more than the (n) races will comprise a Choose (n) ticket.
- (4) Races in which Choose (n) wagering is permitted shall be approved by the Commission. Some races may be closed to Choose (n) wagering at the discretion of the association. The Choose (n) pool shall close after each race but shall reopen with respect to subsequent races that have not yet been run provided that there are at least as many races remaining as required to be selected on a winning Choose (n) ticket.
- (5) The design of the Choose (n) tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.
- (6) Those horses constituting an entry or field, as defined within the rules and regulations of the Commission, shall race in any Choose (n) race as a single wagering interest for purposes of the Choose (n) pool calculations. A scratch after wagering has begun of any part of the entry or field selection in a race shall be of no effect with respect to the status of such entry and/or field as a viable wagering interest.
- (7) At any time after wagering begins on the Choose (n), should a horse, entire betting entry or field be scratched or declared a non-starter in any Choose (n) race, no further tickets selecting such horses, entry or field shall be issued, and wagers upon such horse, entry or field for purposes of the Choose (n) shall be deemed wagers upon the horse, entry or field on which the most money has been wagered in the win pool at the close of win betting for such race. In the event of a tie, the horse, entry or field with the lowest program number shall be designated.
- (8) In the event of a dead heat for win between two or more horses in any of the Choose (n) races, all such horses shall be considered as the winning horse for the purpose of distributing the Choose (n) pool.
- (9) The Choose (n) pool shall be calculated as follows:
 - (a) 100% of the net amount in the Choose (n) pool subject to distribution among winning ticket holders shall be distributed among holders of Choose (n) tickets which have correctly selected the winner of the (n) races comprising the Choose (n).
 - (b) In the event there is no Choose (n) ticket which correctly designates the winner of the (n) winners that make up the Choose (n), 25% of that racing date's net amount available for distribution shall be distributed among the holders of Choose (n) tickets correctly designating the most winning selections of the races that comprise the Choose (n), and

the remaining 75% of said pool shall be carried over and added to the pool on the next day that the wager is conducted.

- (c) If, on the last day on which the Choose (n) is conducted at a horse race meeting, no one selects the winning horse in (n) races, the total amount of the Choose (n) pool which exists on that day shall be paid to the bettor or bettors selecting the largest number of winning horses in those races. In no event shall any part of the pool be carried over to the next year's race meeting.
- (10) When the condition of the turf course warrants a change of racing surface in any of the races open to Choose (n) wagering, and such change has not been made known to the betting public prior to the close of wagering for the first Choose (n) race, the Stewards shall declare the changed races a "no contest" for Choose (n) wagering purposes and the pool shall be distributed in accordance with subsection (11). Following the designation of a race as a "no contest", no tickets shall be sold selecting a horse in such "no contest" race.
- (11) If, for any reason, one or more races are cancelled or declared a "no contest" the Choose (n) pool shall be paid using the following formula, or an alternative formula developed by the racing association and made available to the public (the following formula assumes a Choose 6):
- (a) Any race that has been cancelled or declared a "no contest" shall not be considered a contested race for Choose 6 purposes.
 - (b) Any ticket, regardless of its starting point, that has not completed at least four contested legs will be refunded.
 - (c) In the event that only 4 Choose 6 races have been contested: 100% of that day's net pool (not including any carryover), after refunds (the "Daily Pool"), shall be paid to tickets with 4 wins.
 - (d) In the event that only 5 Choose 6 races have been contested: 75% of the Daily Pool shall be paid to tickets with 5 wins and 25% of the Daily Pool shall be paid to tickets with 4 wins, no losses, and selections in two non-contested races.
 - (e) In the event that at least 6 races have been contested for the Choose 6 and two or more races have not been contested: 75% of the Daily Pool plus any carryover shall be paid to tickets with 6 wins, 18.75% of the Daily Pool to tickets with 5 wins and a selection in a non-contested race, and 6.25% of the Daily Pool to tickets with 4 wins and selections in two non-contested races. If no ticket has 6 wins, 50% of the Daily Pool shall be paid to tickets with 5 wins and a selection in a non-contested race, 25% of the Daily Pool to tickets with 4 wins and selections in two non-contested races, and 25% of the Daily Pool to tickets with 5 wins and 1 loss.
 - (f) In the event that at least 6 races have been contested for the Choose 6 and one race has not been contested: 75% of the Daily Pool plus any carryover shall be paid to tickets with 6 wins and 25% of the Daily Pool to tickets with 5 wins and a selection in the non-contested race. If no ticket has 6 wins, 75% of the Daily Pool shall be paid to tickets with 5 wins and a selection in the non-contested race and 25% of the Daily Pool to tickets with 5 wins and 1 loss.

- (g) In the event that there is no payable ticket in a category within any of these subsections, that portion of the Daily Pool will be divided equally between the other categories within that subsection. In the event that there is no payable ticket within a subsection, the entire Daily Pool shall be carried over and added to the pool on the next day that wagering is conducted.
- (12) The Choose (n) carryover may be capped at a designated level approved by the Commission so that if, at the close of any performance, the amount in the Choose (n) carryover equals or exceeds the designated cap, the Choose (n) carryover will be frozen until it is won or distributed under other provisions of this rule. After the Choose (n) carryover is frozen, 100 percent of the net pool, part of which ordinarily would be added to the Choose (n) carryover, shall be distributed to those whose selection finished first in the greatest number of Choose (n) contests for that performance.
- (13) A written request for permission to distribute the Choose (n) carryover on a specific performance may be submitted to the Commission. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.
- (14) Should the Choose (n) carryover be designated for distribution on a specified date and performance in which there are no wagers with (n) wins, the entire pool shall be distributed as a single price pool to those whose selection finished first in the greatest number of Choose (n) contests. The Choose (n) carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
 - (a) Upon written approval from the Commission as provided in subsection (n) of this rule.
 - (b) Upon written approval from the Commission when there is a change in the carryover cap, a change from one type of Choose (n) wagering to another, or when the Choose (n) is discontinued.
 - (c) On the closing performance of the meet or split meet.
- (15) If, for any reason, the Choose (n) carryover must be held over to the corresponding Choose (n) pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the Commission. The Choose (n) carryover plus accrued interest shall then be added to the net Choose (n) pool of the following meet on a date and performance so designated by the Commission.
- (16) With the written approval of the Commission, the association may contribute to the Choose (n) carryover a sum of money up to the amount of any designated cap.
- (17) Providing information to any an individual regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining is strictly prohibited. This shall not prohibit necessary communication between totalisator and pari-mutuel department employees for processing of pool data. The association shall be permitted to provide information regarding number of tickets sold and number of live tickets remaining to the wagering public.
- (18) The association may suspend previously approved Choose (n) wagering with the prior approval of the Commission. Any carryover shall be held until the suspended Choose (n)

wagering is reinstated. An association may request approval of a Choose (n) wager or separate wagering pool for specific performances.

- (19) Should circumstances occur which are not addressed by these rules, questions arising thereby shall be resolved in accordance with general pari-mutuel practice. Decisions regarding distribution of the Choose (n) pool made by the Stewards shall be final.

CC. Group Bet Rules

Method I

- (1) The Group Bet (or other approved name) is a form of pari-mutuel wagering and part of the win pool in every race in which it is offered. The Group Bet is a bet to win on every participant in the selected group.
- (2) In each race, the association shall designate a non-member of either group (usually the morning line favorite) and designate the remaining runners as members of one of two groups, Group A and Group B.
- (3) In each race in which the Group Bet is offered, there shall be a win payoff for bettors selecting the winning participant in standard win betting and, in the event a member of one the groups wins the race, a Group Bet win payout for those bettors wagering on the winning group. If the non-member wins the race, there shall be no payout for the Group Bet.
- (4) The identity of the non-member and the members of Group A and Group B shall be disseminated in the track program (when possible), by the track announcer, on television monitors and, where applicable, internet wagering websites.
- (5) The minimum bet for the Group Bet is the same as the minimum bet to win. The amount bet on Group A and Group B shall be allocated among the members of the respective group in proportion to the amount bet on such member to win in standard win betting. Allocations may be made in fractional amounts less than the minimum permissible bet to win.
- (6) The payout for a winning Group Bet shall be same regardless of which member of the group is the race winner. The probable and actual payoff for a winning group bet on Group A or Group B shall be displayed in a similar manner as the probable and actual payout for a standard win bet.
- (7) In the event that the non-member of either group is scratched or declared a non-starter, group betting shall cease and all wagers on both groups refunded. In the event of a scratch or a declaration of non-starter of all of the members of a group, group betting shall cease and all wagers on both groups shall be refunded. In the event of a scratch or declaration of nonstarter of a member of a group, monies previously allocated to the scratched runner or nonstarter shall be reallocated amongst the remaining member or members of that group.
- (8) In the event of a dead heat to win involving two or more members of the same group, the Group Bet payout shall be calculated in the same manner as if there was one winner of the race and such winner was a member of such group. In the event of a dead heat to win involving the non-member of the group and one or more members of either group, or one or more members of different groups, the Group Bet payout shall be determined in the same manner as the calculation of the win payoff, i.e. by dividing the net pool.

- (9) Should circumstances occur which are not addressed by these rules, questions arising thereby shall be resolved in accordance with general pari-mutuel practice. Decisions regarding the Group Bet made by the Stewards shall be final.

Method II

- (1) In Method II, the Group Bet (or other approved name) is a separate pool from the standard Win pool in every race in which it is offered. The Group Bet is a single price pool that requires the selection of the designated group that includes the betting interest member that is the first-place finisher for a single contest.
- (2) For each contest in which the Group Bet is offered, the association shall designate each betting interest as a member of one of three clearly named groups (approved by the Commission) such as, Group A, Group B, and Group C.
- (3) For each contest in which the Group Bet is offered, the pool shall be distributed as a single price pool to those correctly selecting the group that includes the betting interest member that finished in first-place in that contest.
- (4) For each contest in which the Group Bet is offered the association shall, before betting is open, provide to the public in an easily accessible manner, the identity of the members of Group A, Group B, and Group C.
- (5) The payout for a winning Group Bet wager shall be same regardless of which betting interest member of the group is the first-place finisher. The probable and actual payoff for a winning bet on Group A, Group B, and Group C shall be displayed in a similar manner as the probable and actual payout for a standard Win pool bet.
- (6) In the event that all of the betting interest members of any group are scratched or declared non-starters, betting on the Group Bet pool shall immediately stop and all wagers made on the Group Bet pool shall be refunded.
- (7) In the event of a dead heat for first in a contest which includes the Group Bet pool involving two or more betting interest members;
 - (a) of the same group, the Group Bet pool shall be distributed in the same manner as if no dead heat occurred,
 - (b) of two different groups, the Group Bet pool shall be distributed as a profit split (place pool), or
 - (c) of three different groups, the Group Bet pool shall be distributed as a profit split (show pool).
- (8) Where the calculation or distribution of the Group Bet pool cannot be determined, the entire pool shall be refunded.

DD. Tournament-Style Wagering

- (1) The Tournament-Style Wager is a separate pari-mutuel pool wager established by the association on a designated number of races. The gross pool consists of the total amount wagered for the multiple race bet. Winning wagers are determined by the highest points totals earned after all rounds have been completed, based on cumulative fantasy win, place, or show wagers, or any combination thereof, on one betting interest per wagering race. It is not a parlay and has no connection with or relation to other pools conducted by the association other than the utilization of live race payouts as a means of calculating players' fantasy bankrolls.
- (2) A valid Tournament-Style Wager ticket shall be evidence of a binding contract between the holder of the ticket and the association, and shall constitute an acceptance of Tournament-Style Wager provisions and rules contained in this Article.
- (3) A Tournament-Style Wager may be given a distinctive name by the association conducting the meeting, subject to Board approval, and existing licenses, copyrights, and/or patents.
- (4) Tournament-Style Wagers shall be conducted as follows:
 - (a) Each player receives a starting fantasy bankroll.
 - (b) The number of races that complete the wager varies depending on the specifics of "tournament," as determined by the host racing association, but shall include no less than three races.
 - (c) Each round of the "tournament" consists of a fantasy win, place, or show wagering opportunity, or any combination of the three, on only one betting interest per race. Players may also "pass" (not wager) on any or all of the races comprising the tournament.
 - (d) Official program numbers must be used for all wagers. All players are responsible for ensuring each wager is placed correctly.
 - (e) There are no minimum fantasy wagers per race, and the player may risk up to their entire fantasy bankroll on any given race, however, any wager made must be in whole dollar amounts.
 - (f) Live race payouts are used to calculate players' fantasy point totals.
 - (g) As part of the announced tournament rules, and as approved by the Board, the host racing association may opt to cap the maximum odds on all fantasy payouts.
 - (h) Each player's fantasy wins or losses will be reflected in their cumulative fantasy bankroll at the end of each race.
 - (i) Following a race being declared "official," the actual pari-mutuel pool payout will be added to a player's cumulative fantasy bankroll, subject to any odds cap imposed under subsection (g) hereinabove.
 - (j) A tournament-style "final cut" will be made after the second to last race of the wager. The "final cut" shall be based on the cumulative fantasy bankroll at the end of most recently concluded race, and made so as to identify the tournament's

finalists. The number of finalists shall be no less than five, and may include more as determined by the host racing association. Preliminary cuts may be made, as determined by the host racing association, when five (5) or more races constitute the “tournament-style” wager. Each such preliminary cut shall reduce the number of remaining participants by a set percent announced at the beginning of the tournament, excluding the “final cut.”

- (k) Of the finalists, the player(s) with the highest fantasy bankroll after the last leg is/are the “winner(s).”
 - (l) All subsequent placings after the final cut shall be determined by the final fantasy bankroll for each of the finalists, and shall not be altered by or subjugated to the final fantasy bank of any player not reaching the finals.
 - (m) The net pari-mutuel pool is distributed to the top 5% of all players in the tournament in accord with subsection (9) herein below.
 - (n) The net pari-mutuel pool shall be distributed in accord with distribution schedule as set forth in the regulation, or as otherwise approved by the Board, at the request of the host racing association.
- (5) A fantasy wager on a coupled entry or field is considered a wager on the remaining part of the coupled entry or field as determined by the rules of the live corresponding race.
 - (6) If a selection in any race designates a betting interest that was scratched, excused, or determined by the Stewards to be a nonstarter in the race, the fantasy wager will be refunded.
 - (7) Points for dead heats will be determined by the payouts of the live corresponding race.
 - (8) The takeout and its distribution for the Tournament-Style Wager shall be set and approved by the host regulatory commission, but shall include the distribution of the negotiated proprietary fee.
 - (9) In accord with the following provisions, the association shall distribute the net pool to the top five percent (5%) of holders of valid tickets that correctly selected the combination of first, second, and/or third place finishers that generated the highest point totals through the designated races/rounds comprising the Tournament-Style Wager as follows:
 - (a) Eighty percent (80%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed among the players competing in final round which had the highest qualifying point totals after all rounds/races have been completed, based on fantasy win, place, or show wagers, or any combination thereof, on one betting interest per wagering opportunity/race/event, as follows:
 - (A) Forty-five percent (45%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed to the holder(s) of the pari-mutuel ticket which had the highest fantasy point total after all races have been completed.

- (B) Twenty percent (20%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed among holders of pari-mutuel tickets which had the second highest point total after all races have been completed.
 - (C) Eight percent (8%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed among holders of pari-mutuel tickets which had the third highest point total after all races have been completed.
 - (D) Four percent (4%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed among holders of pari-mutuel tickets which had the fourth highest point total after all races have been completed.
 - (E) Three percent (3%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed among holders of pari-mutuel tickets which had the fifth highest point total after all rounds/races have been completed.
- (b) After distributions to pari-mutuel ticket holders pursuant to subsection (a), twenty percent (20%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed to the balance of the top five percent (5%) of pari-mutuel ticket holders, with those reaching the final round taking priority in ranking, as follows:
- (A) Nine and two-thirds percent (9 2/3%) of the net amount in the parimutuel pool subject to distribution among winning ticket holders shall be distributed equally among the pari-mutuel ticket holders placing in the top-20% of point totals, not including the top five finishers and ties, with each such player receiving no more than two percent (2%) of the net amount in the pari-mutuel pool subject to distribution.
 - (B) Four percent (4%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed equally among the pari-mutuel ticket holders placing in the range of greater than 20 % up to 30% of the point totals, with each such player receiving no more than eight-tenths of one percent (0.8%) of the net amount in the pari-mutuel pool subject to distribution.
 - (C) Two percent (2.0%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed equally among the pari-mutuel ticket holders placing in the range of greater than 30% up to 40% of the point totals, with each such player receiving no more than four-tenths of one percent (0.4%) of the net amount in the pari-mutuel pool subject to distribution.
 - (D) One percent (1.0%) of the net amount in the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed equally

 - (c) persons employed by the association, or employed by a person or concern contracting with or approved by the association or Commission to provide a service or commodity, which requires their presence in a restricted area, or which requires their presence anywhere on association grounds while parimutuel wagering is being conducted; and
 - (d) all Commission employees.
- (2) Members of the media, including chart callers, while not required to be licensed, may at the commission's discretion be subject to background investigation, fingerprinting, be required to carry credentials, and pay all required fees.

- (3) Persons required to be licensed shall submit a completed application on forms furnished by the Commission and accompanied by the required fee.
- (4) License applicants may be required to furnish to the Commission a set(s) of fingerprints and a recent photograph and may be required to be re-fingerprinted or rephotographed periodically as determined by the Commission.

B. Fingerprinting and Licensing Reciprocity

The Commission may license persons holding valid permanent (not temporary) licenses issued by racing jurisdictions in North America. The licensee must be in good standing; have cleared a Federal Bureau of Investigation (FBI) or Royal Canadian Mounted Police (RCMP) fingerprint check within the previous 36 months, or such other period as is required by this jurisdiction; file an application and/or affidavit as may be required by the Commission; and pay the required applicable fees prior to participating in racing.

- (1) The Commission may recognize the issuance of racing licenses from jurisdictions in North America for purposes of issuance of licenses in this jurisdiction.
- (2) Only permanent licenses in good standing shall be considered. Temporary or probationary licenses shall not be considered.
- (3) An applicant must be in good standing in each jurisdiction where they hold or have held a racing license.
- (4) The applicant must have submitted fingerprints within the past 36 months, or such other period as is required by this jurisdiction, for the purpose of a criminal records check by the FBI or RCMP. The applicant shall provide this jurisdiction with proof of licensure from another jurisdiction to which fingerprints were submitted.
- (5) The applicant shall submit the license application form and license fee required by this jurisdiction.
- (6) Provided the above requirements have been met, this jurisdiction may issue either a license and/or a validation sticker. The validation sticker shall be affixed to either a license issued by this jurisdiction or a valid license issued by another jurisdiction. The validation sticker shall measure a maximum of one-half inch vertically by one and one-half inches horizontally and shall contain this jurisdiction's two-letter postal service abbreviation, the year of validation and the audit trail code or serial number (where applicable). The validation sticker shall be constructed of an approved tamper resistant material. The affixing of the validation sticker shall constitute licensing. This Commission shall determine the period of time that such license shall be valid in this jurisdiction.
- (7) In the event the licensee is absent from this jurisdiction, and upon payment of the applicable fees, a receipt shall be mailed to the licensee's permanent address. The receipt may then be presented at the Commission office by the licensee so that a Commission representative may affix the proper validation sticker to the racing license badge.

C. Multi-Jurisdictional Licensing Information

In lieu of a license application from this jurisdiction, the Commission shall accept a NAPRA or RCI Multi-Jurisdictional License Form.

D. Age Requirement

Applicants for licensing shall be a minimum of 16 years of age unless otherwise specified in these rules. An applicant may be required to submit a certified copy of his/her birth certificate. Persons under the age of 18 may be required to show evidence of active participation in a certified educational program or have a high school diploma or equivalent.

E. Consent to Investigation

The filing of an application for license shall authorize the Commission to investigate criminal and employment records, to engage in interviews to determine applicant's character and qualifications and to verify information provided by the applicant.

F. Consent to Search and Seizure

By acceptance of a license, a licensee consents to search and inspection by the Commission or its agents and to the seizure of any prohibited medication, drugs, paraphernalia or devices in accordance with state/provincial and federal law.

G. Protection of Horses

- (1) Each person licensed by the Commission shall do all that is reasonable and within his/her power and scope of duty to guard against and prevent the administration of any drug, medication or other substance, including permissible medication in excess of the maximum allowable level, to any horse entered or to be entered in an official workout or race, as prohibited by these rules.
- (2) No licensee or other person under the jurisdiction of the Commission shall subject or permit any animal under his/her control, custody or supervision to be subjected to or to incur any form of cruelty, mistreatment, neglect or abuse or abandon, injure, maim or kill or administer any noxious substance to or deprive any animal of necessary care or sustenance, shelter or veterinary care.

H. Substance Abuse/Addiction

- (1) All licensees shall be deemed to be exercising the privileges of their license, and to be subject to the requirements of these rules, when engaged in activities that could affect the outcome of a race or diminish the conditions of safety or decorum required in restricted areas.
- (2) It shall be a violation to exercise the privileges granted by a license from this Commission if the licensee:
 - (a) Is engaged in the illegal sale or distribution of alcohol or a controlled substance;
 - (b) Possesses, without a valid prescription, a controlled substance;
 - (c) Is intoxicated or under the influence of alcohol or a controlled substance;

- (d) Is addicted, having been determined to be so by a professional evaluation, to alcohol or other drugs and not engaged in an abstinence-based program of recovery acceptable to the Commission;

 - (f) Refuses to submit to urine or drug testing, when notified that such testing is based on a random drug testing procedure, is based on reasonable suspicion that the person is using drugs or alcohol or is based on the licensee's acting as if in an impaired condition; or
 - (g) Presently has drugs (controlled substances) or alcohol in his or her body. With regard to alcohol, the results of a breathalyzer test showing a reading of more than .05 percent of alcohol in the blood shall be the criterion for a finding of alcohol present in the body. With regard to other controlled substances, presence of the drug in any quantity measured by the testing instrument establishes the presence of the drug for purposes of this paragraph.
- (3) At its discretion, the Commission may conduct random or episodic random drug testing, as well as testing based on reasonable suspicion, in order to ensure safety on the racetrack.
 - (4) When conducted, random drug testing shall apply, equally, to all licensees who are, at the time of the random testing, exercising the privileges of their license in such ways as may affect the outcome of a race or diminish the conditions of safety or decorum required in restricted areas.
 - (5) No notice need be given as to onset or cessation of random testing.
 - (6) For licensees who are tested under the provisions in this chapter, and whose testing shows the presence of drugs (controlled substances) or alcohol, any field screening test results shall be confirmed by a laboratory acceptable to the Commission which shall include Gas Chromatography/ Mass Spectrometry (GC/MS) procedures.
 - (7) When the sample quantity permits, each test sample shall be divided into portions so that one portion may be used for the confirmation procedure and another portion may be utilized by the licensee to obtain an independent analysis of the urine sample.
 - (8) The Commission shall provide for a secure chain of custody for the sample to be made available to the licensee.
 - (9) All costs for the transportation and testing for the sample portion made available for the licensee shall be the financial responsibility of the requesting person.
 - (10) Payment shall be due from the requesting person within 30 days of receipt of notice of the costs.

- (11) A licensee penalized or restricted pursuant to this chapter shall retain rights of due process with respect to any determination of alleged violations which may adversely affect the right to hold a license.
- (12) If there has been a violation, under number 2 above, the following procedures will be followed:
- (13) The Commission may, at its discretion, order the licensee to obtain a professional assessment to determine whether there is a substantial probability that the licensee is dependent on, or abuses, alcohol or other drugs or the Commission may act on the information at hand.
- (14) Actions in the case of first violators may include revocation of the license, suspension of the license for up to six months, placing the violator on probation for up to 90 days or ordering formal assessment and treatment.
- (15) Treatment or assessment, if ordered, must meet the conditions given in numbers 1618 below.
- (16) The license of the person may be revoked or suspended for a period of up to one year or a professional assessment of the person may be ordered by the Commission.
- (17) If a professional assessment indicates presence of a problem of alcohol or other drug abuse that is not treatable within the reasonably foreseeable future (360 days) the license may be suspended for a period of up to one year.
- (18) If a professional assessment indicates presence of a treatable problem of alcohol or other drug abuse or dependence, the Commission may order the licensee to undergo treatment as a condition of continuing licensure. Such treatment will be through a program or by a practitioner, acceptable to the licensee and the Commission. Required features of any program or practitioner acceptable to the Commission will be:
 - (a) Accreditation or licensure by an appropriate government agency, if required by state statute;
 - (b) A minimum of one year follow-up of formal treatment; and
 - (c) A formal contract indicating the elements of the treatment and follow up program that will be completed by the licensee and, upon completion, certified to the Commission as completed. To effect the contract, the licensee will authorize release of information by the treating agency, hospital or individual.
- (19) For third-time violators, the violator's license may be revoked and the violator may be deemed ineligible for licensure for up to five years.
- (20) Although relapse (failure to maintain abstinence) is not inevitable, it is common for relapse to occur in recovery from alcoholism or other substance dependence. Therefore, a licensee who is engaged in a formal program of recovery, and is compliant with all provisions other than abstinence, will not be regarded automatically as having committed a new violation.
- (21) When a licensee is determined to have failed in maintaining abstinence, the licensee shall furnish to the Commission an assessment by the treating agency, hospital or

individual practitioner indicating whether the licensee was compliant with the agreed upon program of recovery, and an opinion as to whether a "new violation" occurred.

- (22) The Commission will determine whether a new violation has occurred in each instance. If a new violation has occurred, the Commission will proceed under numbers 13-15 above or numbers 16-18 above. Otherwise, the licensee shall continue in the agreed upon program of recovery.

In the absence of a contract or special agreement, and taking into consideration local conditions and total purses paid at their racing facility, the commission shall use the following as a guideline for establishing jockey mount fees.

PURSE	WINNING MOUNT	SECOND MOUNT	THIRD MOUNT	FOURTH MOUNT	OTHER MOUNTS
--------------	----------------------	---------------------	--------------------	---------------------	---------------------

The Association of Racing Commissioners International
Model Rules of Racing

0 to \$2,499	10% of Win Purse	\$55	\$50	\$45	\$40
\$2,500 to \$4,999	10% of Win Purse	\$60 - \$75	\$55 - \$70	\$50 - \$65	\$45 - \$60
\$5,000 to \$9,999	10% of Win Purse	\$65 - \$85	\$60 - \$80	\$55 - \$75	\$50 - \$65
\$10,000 to \$24,999	10% of Win Purse	5% of Place Purse	\$90 - \$100	\$70 - \$90	\$65 - \$80
\$25,000 to \$49,999	10% of Win Purse	5% of Place Purse	5% of Show Purse	\$80 - \$100	\$75 - \$95
\$50,000 to \$99,999	10% of Win Purse	5% of Place Purse	5% of Show Purse	5% of Fourth Place Purse	\$80 - \$100
\$100,000 and up	10% of Win Purse	5% of Place Purse	5% of Show Purse	5% of Fourth Place Purse	\$105 - \$115

Using a base year of 2010 commissions should adjust this table based on an average of the following indexes: US Social Security Administration’s Cost of Living Adjustment (COLA), US Department of Labor’s CPA inflation calculator ([HTTP://BLS.GOV](http://BLS.GOV)), and Consumer Price Index (CPI), local percent change in pari-mutuel handle. As a guideline, taking into account local circumstances, tracks paying purses in excess of \$250,000 per day should move to the higher range in each category and tracks paying below \$125,000 per day in purses should be considered at the lower of the range.

H. Jockey Fee Earned

A jockey’s fee shall be considered earned when the jockey is weighed out by the clerk of scales. In the event an owner or trainer elects to remove a jockey from his or her mount after naming a rider at the time of the draw, the stewards may require a double jockey fee to be paid. The fee to be paid is equal to that earned by the jockey who rode the horse. The fee shall not be considered earned when a jockey(s), of their own free will, take themselves off their mounts, where injury to the horse or rider is not involved. Any conditions or considerations not covered by the above rule shall be at the discretion of the stewards. All jockey protests must be filed prior to the race.

A copy of such races shall be posted in the Jockeys' Room, and any other such place deemed appropriate by the Stewards. A transfer of ownership arising from a recognized claiming race will terminate any existing prior lease for that horse.
- (2) Title to a claimed horse shall be vested in the successful claimant at the time the horse leaves the paddock. The successful claimant shall then become the owner of the horse whether it be alive or dead, sound or unsound or injured at any time after leaving the paddock, during the race or after. However, the successful claimant may request on the claim blank at the time he/she makes the claim that the horse be tested for the presence of equine infectious anemia via a Coggins test., or other test as approved by the official veterinarian Should this test prove positive, it shall be cause for voiding the claim. The expense of the test and the maintenance of the horse during the period requested for the test, shall be the responsibility of the successful claimant, unless the test proves positive, wherein the owner(s) of the horse at the time of entry shall be responsible.

 - (a) Full disclosure of such fact is on file with the racing secretary and such information is posted in his/her office;
 - (b) The stallion service certificate has been deposited with the racing secretary's office;
 - (c) All payments due for the service in question and for any live progeny resulting from that service are paid in full; and
 - (d) The release of the stallion service certificate to the successful claimant at the time of claim is guaranteed.
- (4) The stewards may set aside and order rescision of a claim for any horse from a claiming race run in this jurisdiction upon a showing that any party to the claim committed a prohibited action, as specified in ARCI-009-025 of this chapter, or that the owner of the horse at the time of entry in the claiming race failed to comply with any requirement of these rules. Should the stewards order a rescision of a claim, they may make a further order for the costs of maintenance and care of the horse as they may deem appropriate.
- (5) A claim shall be voided if a horse is a starter as determined by the regulatory authority, and the horse:
 - (a) Dies on the racetrack; or
 - (b) Suffers an injury which requires the euthanasia of the horse as determined by the Official Veterinarian while the horse is on the racetrack.
- (6) A claim is voidable at the discretion of the new owner for a period of one hour after the race is made official, for any horse:
 - (a) That is vanned off the track at the direction of the Official Veterinarian; or

ARCI-010-010 Entries And Nominations

A. Entering

No horse shall be qualified to start unless it has been and continues to be entered.

B. Procedure

- (1) Entries and nominations shall be made with the racing secretary and shall not be considered until received by the racing secretary, who shall maintain a record of time of receipt of them for a period of one year.
- (2) An entry shall be in the name of the horse's licensed owner and made by the owner, trainer or a licensed designee of the owner or trainer.
- (3) Races printed in the condition book shall have preference over substitute and extra races.
- (4) An entry must be in writing, by telephone or facsimile machine to the racing secretary. The entry must be confirmed in writing should the stewards or the racing secretary so request.
- (5) The person making an entry shall clearly designate the horse so entered.
- (6) No alteration may be made in any entry after the closing of entries, but an error may be corrected with permission of the stewards.
- (7) No horse may be entered in more than one race (with the exception of stakes races) to be run on the same day on which pari-mutuel wagering is conducted.
- (8) Any permitted medication or approved change of equipment must be declared at time of entry.

C. Limitation as to Spouses

No entry in any race shall be accepted for a horse owned wholly or in part by, or trained by, a person whose husband or wife is under license suspension at time of such entry; except that, if the license of a jockey has been suspended for a routine riding offense, the stewards may waive this rule.

D. Coupled Entries

- (1) With the approval of the Stewards, when two or more horses with common ownership are entered in a race, the Racing Secretary may uncouple the horses as a mutual entry and single betting interest if they are owned or leased in whole or in part by the same owner or are trained by a trainer who owns or leases any interest in any of the other horses in the race.
- (2) No more than two horses having common ties through ownership or training may be entered in an overnight race. Under no circumstances may both horses of a coupled entry start to the exclusion of a single entry. When making a coupled entry, a preference for one of the horses must be made.

Version 8.5, ARCI Board of Directors 12/3/2018 amended ARCI-010-010 D(1)

E. Nominations

- (1) Any nominator to a stakes race may transfer or declare such nomination prior to closing.
- (2) Joint nominations and entries may be made by any one of joint owners of a horse, and each such owner shall be jointly and severally liable for all payments due.
- (3) Death of a horse, or a mistake in its entry when such horse is eligible, does not release the nominator or transferee from liability for all stakes fees due. No fees paid in connection with a nomination to a stakes race that is run shall be refunded, except as otherwise stated in the conditions of a stakes race.
- (4) Death of a nominator to a stakes race shall not render void any subscription, entry or right of entry. All rights, privileges and obligations shall be attached to the legal heirs of the decedent or the successor owner of the horse.
- (5) When a horse is sold privately or at public auction or claimed, stakes engagements shall be transferred automatically to its new owner; except when the horse is transferred to a person whose license is suspended or who is otherwise unqualified to race or enter the horse, then such nomination shall be void as of the date of such transfer.
- (6) All stakes fees paid toward a stakes race shall be allocated to the winner unless otherwise provided by the conditions for the race. If a stakes race is not run for any reason, all such nomination fees paid shall be refunded.

F. Closings

- (1) Entries for purse races and nominations to stakes races shall close at the time designated by the association in previously published conditions for such races. No entry, nomination or declaration shall be accepted after such closing time; except in the event of an emergency or if a overnight race fails to fill, the racing secretary may, with the approval of a steward, extend such closing time.
- (2) Except as otherwise provided in the conditions for a stakes race, the deadline for accepting nominations and declarations is midnight of the day of closing, provided they are received in time for compliance with every other condition of the race.

G. Number of Starters in a Race

The maximum number of starters in any race shall be limited to the number of starting positions afforded by the association starting gate and its extensions. The number of starters may be further limited by the number of horses which, in the opinion of the board of stewards, after consultation with the horsemen's group and the jockeys' association, can be afforded a safe, fair and equal start.

H. Split or Divided Races

- (1) In the event a race is cancelled or declared off, the association may split any overnight race for which post positions have not been drawn.
- (2) Where a overnight race is split, forming two or more separate races, the racing secretary shall give notice of not less than 15 minutes before such races are closed to grant time for making additional entries to such split races.

I. Post Positions

Post positions for all races shall be determined by lot and shall be publicly drawn in the presence of a steward or steward designee.

J. Also-Eligible List

- (1) If the number of entries for a race exceeds the number of horses permitted to start, the racing secretary may create and post an also-eligible list.
- (2) If any horse is scratched from a race for which an also-eligible list was created, a replacement horse shall be drawn from the also-eligible list into the race in order of preference. If none is preferred, a horse shall be drawn into the race from the also-eligible list by public lot.
- (3) Any owner or trainer of a horse on the also-eligible list who does not wish to start the horse in such race shall so notify the racing secretary prior to scratch time for the race, thereby forfeiting any preference to which the horse may have been entitled.
- (4) A horse which draws into a straightaway race from the also-eligible list shall start from the post position vacated by the scratched horse. In the event more than one horse is scratched, post positions of horses drawing in from the also-eligible list shall be determined by public lot.
- (5) A horse which draws into a non-straightaway race from the also-eligible list shall start from the outermost post position. In the event more than one horse is scratched, post positions of horses drawing in from the also-eligible list shall be determined by public lot.

K. Preferred List

The racing secretary shall maintain a list of entered horses eliminated from starting by a surplus of entries, and these horses shall constitute a preferred list and have preference. The manner in which the preferred list shall be maintained and all rules governing such list shall be the responsibility of the racing secretary. Such rules must be submitted to the Commission 30 days prior to the commencement of the race meeting and are subject to the approval of the Commission.

- (4) No horse may be scratched from an overnight race without approval of the stewards.
- (5) In overnight races, horses that are physically disabled or sick shall be permitted to be scratched first. Should horses representing more than 10 betting interests in the daily double or exotic wagering races, of horses representing more than eight betting interests in any other overnight race, remain in after horses with physical excuses have been scratched, then owners or trainers may be permitted at scratch time to scratch horses without physical excuses down to such respective minimum numbers for such races. This privilege shall be determined by lot if an excessive number of owners or trainers wish to scratch their horses.
- (6) Any horse which has been scratched, or excused from starting by the stewards, because of a physical disability or sickness shall not be accepted until the expiration of seven days after such horse was scratched or excused and the horse has been released from the Veterinarian's List by the official veterinarian.

- (4) Jockeys shall be weighed out for their respective mounts by the clerk of scales not more than 30 minutes before post time for each race.
- (5) Only valets employed by the association shall assist jockeys in weighing out.
- (6) A jockey must wear a safety vest when riding in any official race. The safety vest shall meet one of the standards for safety vests outlined in ARCI-008010(Z)(2).
- (7) Weighing Out

- (a) A jockey's weight shall include his/her clothing, boots, saddle and its attachments and any other equipment except the bridle, bit, blinkers, goggles, number cloth and safety equipment including helmet, vest, over-girth, reins and breast collar.
 - (b) Upon Stewards approval, jockeys may be allowed up to three (3) pounds more than published weights to account for inclement weather clothing and equipment.
- (8) Seven pounds is the limit of overweight any horse is permitted to carry.
 - (9) Once jockeys have fulfilled their riding engagements for the day and have left the jockeys' quarters, they shall not be re-admitted to the jockeys' quarters until after the entire racing program for that day has been completed, except with permission of the stewards.

D. Paddock to Post

- (1) Each horse shall carry the full weight assigned for that race from the paddock to the starting post, and shall parade past the stewards' stand, unless excused by the stewards. The post parade shall not exceed 12 minutes, unless otherwise ordered by the stewards. It shall be the duty of the stewards to ensure that the horses arrive at the starting gate as near to post time as possible.
- (2) After the horses enter the track, no jockey may dismount nor entrust his horse to the care of an attendant unless, because of accident occurring to the jockey, the horse or the equipment, and with the prior consent of the starter. During any delay during which a jockey is permitted to dismount, all other jockeys may dismount and their horses may be attended by others. After the horses enter the track, only the jockey, an assistant starter, the official veterinarian, the racing veterinarian or an outrider or pony rider may touch the horse before the start of the race.
- (3) If a jockey is injured on the way to the post, the horse shall be returned to the paddock or any other area designated by the stewards, re-saddled with the appropriate weight and remounted with a replacement jockey.
- (4) After passing the stewards' stand in parade, the horses may break formation and proceed to the post in any manner unless otherwise directed by the stewards. Once at the post, the horses shall be started without unnecessary delay.
- (5) Horses shall arrive at the starting post in post position order.
- (6) In case of accident to a jockey or his/her mount or equipment, the stewards or the starter may permit the jockey to dismount and the horse to be cared for during the delay, and may permit all jockeys to dismount and all horses to be attended to during the delay.
- (7) If a horse throws its jockey on the way from the paddock to the post, the horse must be returned to the point where the jockey was thrown, where it shall be remounted and then proceed over the route of the parade to the post. The horse must carry its assigned weight from paddock to post and from post to finish.
- (8) If a horse leaves the course while moving from paddock to post, the horse shall be returned to the course at the nearest practical point to that at which it left the course,

and shall complete its parade to the post from the point at which it left the course unless ordered scratched by the stewards.

- (9) No person shall willfully delay the arrival of a horse at the post.
- (10) The starter shall load horses into the starting gate in any order deemed necessary to ensure a safe and fair start. Only the jockey, the racing veterinarian, the starter or an assistant starter shall handle a horse at the post.

E. Post to Finish

(1) The Start

- (a) The starter is responsible for assuring that each participant receives a fair start.
- (b) If the stewards suspect a false start has occurred, they shall post the inquiry sign and may disqualify the horse(s), declare it a non-starter, or take no action.
- (c) If, when the starter dispatches the field, any door at the front of the starting gate stalls should not open properly due to a mechanical failure or malfunction or should any action by any starting personnel directly cause a horse to receive an unfair start, the stewards may declare such a horse a non-starter.
- (d) Should a horse, not scratched prior to the start, not be in the starting gate stall thereby causing it to be left when the field is dispatched by the starter, the horse shall be declared a non-starter by the stewards.
- (e) Should an accident or malfunction of the starting gate, or other unforeseeable event compromise the fairness of the race or the safety of race participants, the stewards may declare individual horses to be non-starters, exclude individual horses from all pari-mutuel pools or declare a "no contest" and refund all wagers except as otherwise provided in the rules involving multi-race wagers.

(2) Interference, Jostling or Striking

- (a) A jockey shall not ride carelessly or willfully so as to permit his/her mount to interfere with, impede or intimidate any other horse in the race.
- (b) No jockey shall carelessly or willfully jostle, strike or touch another jockey or another jockey's horse or equipment.
- (c) No jockey shall unnecessarily cause his/her horse to shorten its stride so as to give the appearance of having suffered a foul.

(3) Maintaining a Straight Course

- (a) When the way is clear in a race, a horse may be ridden to any part of the course, but if any horse swerves, or is ridden to either side, so as to interfere with, impede or intimidate any other horse, it is a foul.
- (b) The offending horse may be disqualified, if in the opinion of the stewards, the foul altered the finish of the race, regardless of whether the foul was accidental, willful or the result of careless riding.
- (c) If the stewards determine the foul was intentional, or due to careless riding, the jockey may be held responsible.

- (d) In a straightaway race, every horse must maintain position as nearly as possible in the lane in which it starts. If a horse is ridden, drifts or swerves out of its lane in such a manner that it interferes with, impedes or intimidates another horse, it is a foul and may result in the disqualification of the offending horse.
- (4) Disqualification
 - (a) When the stewards determine that a horse shall be disqualified for interference, they may place the offending horse behind such horses as in their judgment it interfered with, or they may place it last.
 - (b) If a horse is disqualified for a foul, any horse or horses in the same race owned or trained by the same interests, whether coupled or uncoupled may also be disqualified.
 - (c) When a horse is disqualified for interference in a time trial race, for the purposes of qualifying only, it shall receive the time of the horse it is placed behind plus one-hundredth of a second penalty or more exact measurement if photo finish equipment permits, and shall be eligible to qualify for the finals or consolations of the race on the basis of the assigned time.
 - (d) Possession of any electrical or mechanical stimulating or shocking device by a jockey, horse owner, trainer or other person authorized to handle or attend to a horse shall be prima facie evidence of a violation of these rules and is sufficient grounds for the stewards to scratch or disqualify the horse.
 - (e) The stewards may determine that a horse shall be unplaced for the purpose of purse distribution and time trial qualification.
- (5) Multiple Disqualifications. Should the stewards determine that there is more than one incident of interference in a race where disqualification is warranted, the stewards shall deal with the incidents in the order in which the incident occurs during the race from start to finish; except in the case where the same horses are involved in multiple incidents. Once a horse has been disqualified, it should remain placed behind the horse with which it interfered. The stewards shall make a conscious effort to place and maintain as placed, every and all horses placed behind others for interference.
- (6) Horses Shall be Ridden Out. All horses shall be ridden out in every race. A jockey shall not ease up or coast to the finish, without reasonable cause, even if the horse has no apparent chance to win prize money. A jockey shall give a best effort during a race, and each horse shall be ridden to win.
- (7) Use of Riding Crop
 - (a) Although the use of a riding crop is not required, any jockey who uses a riding crop during a race shall do so only in a manner consistent with exerting his/her best efforts to win.
 - (b) In all races where a jockey will ride without a riding crop, an announcement of such fact shall be made over the public-address system.
 - (c) No electrical or mechanical device or other expedient designed to increase or retard the speed of a horse, other than the riding crop approved by the stewards, shall be

possessed by anyone, or applied by anyone to the horse at any time on the grounds of the association during the meeting, whether in a race or otherwise.

- (d) Riding crops shall not be used on two-year-old horses before April 1 of each year.
- (e) The riding crop shall only be used for safety, correction and limited encouragement, and be appropriate, proportionate, professional, taking into account the rules of racing herein. However, stimulus provided by the use of the riding crop shall be monitored so as not to compromise the welfare of the horse.
- (f) Use of the riding crop varies with each particular horse and the circumstances of the race.
- (g) Except for extreme safety reasons all riders should comply with the following when using a riding crop:
 - (A) Initially showing the horse the riding crop, and/or tapping the horse with the riding crop down, giving it time to respond before using it;
 - (B) The riding crop shall not be used more than twice in succession and the horse must be given a chance to respond before using it again;
 - i. “Chance to respond” is defined as three complete strides and one of the following actions by a jockey:
 1. Pausing the use of the riding crop on their horse before resuming again; or
 2. Pushing on their horse with a rein in each hand, keeping the riding crop in the up or down position; or
 3. Showing the horse the riding crop without making contact; or
 4. Moving the riding crop from one hand to the other.
 - (C) Using the riding crop in rhythm with the horse’s stride.
- (h) When deciding whether or not to review the jockey’s use of the riding crop, Stewards will consider how the jockey has used the riding crop during the course of the entire race, with particular attention to its use in the closing stages, and relevant factors such as:
 - (A) The manner in which the riding crop was used
 - (B) The purpose for which the riding crop was used
 - (C) The distance over which the riding crop was used and whether the number of times it was used was reasonable and necessary
 - (D) Whether the horse was continuing to respond.
- (i) In the event there is a review by the Stewards, use of the riding crop may be deemed appropriate in the following circumstances:
 - (A) To keep a horse in contention or to maintain a challenging position prior to what would be considered the closing stages of a race,
 - (B) To maintain a horse’s focus and concentration,
 - (C) To correct a horse that is noticeably hanging,

- (D) To assure the horse maintains a straight course, or (E) Where there is only light contact with the horse.
- (j) Prohibited use of the riding crop includes but are not limited to striking a horse:
 - (A) On the head, flanks or on any other part of its body other than the shoulders or hind quarters except when necessary to control a horse;
 - (B) During the post parade or after the finish of the race except when necessary to control the horse;
 - (C) Excessively or brutally causing welts or breaks in the skin;
 - (D) When the horse is clearly out of the race or has obtained its maximum placing;
 - (E) Persistently even though the horse is showing no response under the riding crop; or
 - (F) Striking another rider or horse.
- (k) After the race, horses will be subject to inspection by a racing or official veterinarian looking for cuts, welts or bruises in the skin. Any adverse findings shall be reported to the Stewards.
- (l) The giving of instructions by any licensee that if obeyed would lead to a violation of this rule may result in disciplinary action also being taken against the licensee who gave such instructions.
- (7) Horse Leaving the Racecourse. If a horse leaves the racecourse during a race, it must turn back and resume the race from the point at which it originally left the course.
- (8) Order of Finish
 - (a) The official order of finish shall be decided by the stewards with the aid the photo finish system, and in the absence of the photo finish film record, the video replay. The photo finish and video replay are only aids in the stewards' decision. The decision of the stewards shall be final in all cases.
 - (b) The nose of the horse shall determine the placement of the horse in relationship to other horses in the race.
- (9) Returning After the Finish
 - (a) After a race has been run, the jockey shall ride promptly to the place designated by the stewards, dismount and report to the clerk of scales to be weighed in. Jockeys shall weigh in with all pieces of equipment with which they weighed out.
 - (b) If a jockey is prevented from riding to the designated unsaddling area because of an accident or illness to the jockey or the horse, the jockey may walk or be transported to the scales, or may be excused from weighing in by the stewards.
- (10) Unsaddling
 - (a) Only persons authorized by the stewards may assist the jockey with unsaddling the horse after the race.
 - (b) No one shall place a covering over a horse before it is unsaddled.
- (11) Weighing In

- (a) A jockey shall weigh in at no less than the same weight at which he/she weighed out, and if under that weight, and after consideration of mitigating circumstances by the board of stewards, his/her mount may be disqualified from any portion of the purse money.
- (b) In the event of such disqualification, all monies wagered on the horse shall be refunded unless the race has been declared official.
- (c) A jockey's weight shall include clothing, boots, saddle and its attachments and any other equipment except the bridle, bit, blinkers, number cloth and overgirth, reins and breast collar.
- (d) Upon approval of the stewards, the jockeys may be allowed up to three (3) pounds more than published weights to account for inclement weather clothing and equipment.
- (e) The post-race weight of jockeys includes any sweat, dirt and mud that have accumulated on the jockey, jockey's clothing, jockey's safety equipment and over-girth. This accounts for additional weight, depending on specific equipment, as well as weather, track and racing conditions.

(12) Dead Heats

- (a) When two horses run a dead heat for first place, all purses or prizes to which first and second horses would have been entitled shall be divided equally between them; and this applies in dividing all purses or prizes whatever the number of horses running a dead heat and whatever places for which the dead heat is run.
- (b) In a dead heat for first place, each horse involved shall be deemed a winner and liable to penalty for the amount it shall receive.
- (c) When a dead heat is run for second place and an objection is made to the winner of the race, and sustained, the horses which ran a dead heat shall be deemed to have run a dead heat for first place.
- (d) If the dividing owners cannot agree as to which of them is to have a cup or other prize which cannot be divided, the question shall be determined by lot by the stewards.

(13) Time Trials

In absence of specific conditions for a particular race that set forth criteria to address the situations that may arise from the running of time trials to determine the eligible horses to participate in finals, these rules shall apply:

- (a) Except in cases where the starting gate physically restricts the number of horses starting, each time trial shall consist of no more than 10 horses.
- (b) The time trials shall be raced under the same conditions as the finals. If the time trials are conducted on the same day, the horses with the 10 fastest times shall qualify to participate in the finals. If the time trials are conducted on two days, the horses with the five fastest times on the first day and the horses with the five fastest times on the second day shall qualify to participate in the finals. When time trials are conducted on two days, the racing secretary shall make his/her best

effort to split owners with more than one entry into separate days and/or time trials.

- (c) If the association's starting gate has less than 10 stalls, then the maximum number of qualifiers will correspond to the maximum number of starting gate post positions.
- (d) Except in races around the turn, if only 11 or 12 horses are entered to run in time trials from a gate with 12 or more stalls, the association may choose to run finals only. If 11 or 12 horses participate in the finals, only the first 10 finishers will receive purse money.
- (e) In the time trials, horses shall qualify on the basis of time and order of finish. The times of the horses in the time trial will be determined to the limit of the timer. The only exception is when two or more horses have the same time in the same trial heat. Then the order of finish shall also determine the preference in qualifying for the finals. Should two or more horses in different time trials have the same qualifying time to the limit of the timer for the final qualifying position(s), then a draw by public lot shall be conducted as directed by the stewards. Qualifying times in separate trials shall not be determined beyond the limit of the timer by comparing and/or enlarging photo-finish images.
- (f) Except in the case of a disqualification, under no circumstances shall a horse qualify ahead of a horse that finished ahead of that horse in the official order of finish in a time trial.
- (g) Should a horse be disqualified for interference during the running of a time trial, it shall receive the time of the horse it is immediately placed behind plus one hundredth of a second, or the maximum accuracy of the electronic timing device. No adjustments will be made in the times recorded in the time trials to account for head-wind, tail-wind, off-track, etc. If a horse is disqualified for interference with another horse causing loss of rider or the horse not to finish the race, the disqualified horse shall be given no time plus and that horse should not be eligible to run in the finals.
- (h) Should a malfunction occur with electronic timer on any time trial, finalists from that time trial will then be determined by official hand timing operated by three official and disinterested persons. The average of the three hand times will be utilized for the winning time, unless one of the hand times is clearly incorrect. In such cases, the average of the two accurate hand times will be utilized for the winning time: other horses shall be given times according to the order and margins of finish with the aid of the photo finish, if available.
- (i) When there is a malfunction of the timer during some time trials, but the timer operates correctly in other time trials, the accurate electronic times shall not be discarded, nor shall the average of hand times be used for all time trials.
- (j) If the accuracy of the electronic timer and/or the average of the hand times are questioned, the video of a time trial may be used by the stewards to estimate the winning time by counting the number of video frames in the race from the

moment the starting gate stall doors are fully open parallel to the racing track. When the timer malfunctions and there are no hand times, the stewards may select qualifiers based on the video.

- (k) Should there be a malfunction of the starting gate, and one or more stall doors not open or open after the exact moment when the starter dispatches the field, the stewards may declare the horses with malfunctioning stall doors nonstarters or may allow any horse whose stall door opened late, but still ran a time fast enough to qualify to be declared a starter for qualifying purposes. If a horse breaks through the stall door, or the stall door opens prior to the exact moment the starter purposely dispatches the field, the horse may be declared a nonstarter and the stewards may direct that all entry fees refunded. If one or more, but not all stall doors, open at the exact moment the starter purposely dispatches the field, these horses should be considered starters for qualifying purposes, and placed according to their electronic time. If the electronic timer malfunctions in this instance, the average of the hand times, or if not available, the video may be utilized for horses declared starters.
- (l) If a horse should be scratched from the time trials, the horse's owner shall not be eligible for a refund of the fees paid and shall not be allowed to enter the final. If a horse that qualified for the final should be unable to enter due to racing soundness, or scratched for any reason other than a positive drug test or a rule violation, the horse shall be deemed to have earned and the owner will receive, last place money. If more than one horse is scratched then those purse monies shall be added together and divided equally among those owners.
- (m) If a qualifier for a final or consolation is disqualified for ineligibility or a rule violation after the time trials are declared official, but prior to entry for the final or consolation, the non-qualifier with the next fastest time shall replace the disqualified horse. If a qualifier is disqualified after entry for a final or consolation for any reason other than racing unsoundness, illness or death, if necessary, the purse shall be redistributed among the remaining qualifiers.

ARCI-010-040 Protests, Objections And Inquiries

A. Stewards to Inquire

- (1) The stewards shall take cognizance of foul riding and, upon their own motion or that of any racing official or person empowered by this chapter to object or complain, shall make diligent inquiry or investigation into such objection or complaint when properly received.
- (2) In determining the extent of disqualification, the stewards in their discretion may:
 - (a) declare null and void a track record set or equaled by a disqualified horse, or any horses coupled with it as an entry;
 - (b) affirm the placing judges' order of finish and hold the jockey responsible if, in the stewards' opinion, the foul riding did not affect the order of finish; or
 - (c) disqualify the offending horse and hold the jockey blameless if in the stewards' opinion the interference to another horse in a race was not the result of an intentional foul or careless riding on the part of a jockey.

B. Race Objections

- (1) An objection to an incident alleged to have occurred during the running of a race shall be received only when lodged with the clerk of scales, the stewards or their designees, by the owner, the authorized agent of the owner, the trainer or the jockey of a horse engaged in the same race.
- (2) An objection following the running of any race must be filed before the race is declared official, whether all or some riders are required to weigh in, or the use of a fast official procedure is permitted.
- (3) The stewards shall make all findings of fact as to all matters occurring during and incident to the running of a race; shall determine all objections and inquiries, and shall determine the extent of disqualification, if any, of horses in the race. Such findings of fact and determinations shall be final.

C. Prior Objections

- (1) Objections to the participation of a horse entered in any race shall be made to the stewards in writing, signed by the objector, and filed not later than one hour prior to post time for the first race on the day which the questioned horse is entered. Any such objection shall set forth the specific reason or grounds for the objection in such detail so as to establish probable cause for the objection. The stewards upon their own motion may consider an objection until such time as the horse becomes a starter.
- (2) An objection to a horse which is entered in a race may be made on, but not limited to, the following grounds or reasons:
 - (a) A misstatement, error or omission in the entry under which a horse is to run;
 - (b) the horse which is entered to run is not the horse it is represented to be at the time of entry, or the age was erroneously given;
 - (c) the horse is not qualified to enter under the conditions specified for the race, or the allowances are improperly claimed or not entitled the horse, or the weight to be carried is incorrect under the conditions of the race;

- (d) the horse is owned in whole or in part, or leased or trained by a person ineligible to participate in racing or otherwise ineligible to own a race horse as provided in these rules; or
 - (e) the horse was entered without regard to a lien filed previously with the racing secretary.
- (3) The stewards may scratch from the race any horse which is the subject of an objection if they have reasonable cause to believe that the objection is valid.

D. Protests

- (1) A protest against any horse which has started in a race shall be made to the stewards in writing, signed by the protestor, within 72 hours of the race exclusive of nonracing days. If the incident upon which the protest is based occurs within the last two days of the meeting, such protest may be filed with the Commission within 72 hours exclusive of Saturdays, Sundays or official holidays. Any such protest shall set forth the specific reason or reasons for the protest in such detail as to establish probable cause for the protest.
- (2) A protest may be made on any of the following grounds:
- (a) Any grounds for objection as set forth in this chapter;
 - (b) the order of finish as officially determined by the stewards was incorrect due to oversight or errors in the numbers of the horses which started the race;
 - (c) a jockey, trainer, owner or lessor was ineligible to participate in racing as provided in this chapter;
 - (d) the weight carried by a horse was improper, by reason of fraud or willful misconduct; or
 - (e) an unfair advantage was gained in violation of the rules.
- (3) Notwithstanding any other provision in this article, the time limitation on the filing of protests shall not apply in any case in which fraud or willful misconduct is alleged provided that the stewards are satisfied that the allegations are bona fide and verifiable.
- (4) No person shall file any objection or protest knowing the same to be inaccurate, false, untruthful or frivolous.
- (5) The stewards may order any purse, award or prize for any race withheld from distribution pending the determination of any protest. In the event any purse, award or prize has been distributed to an owner or for a horse which by reason of a protest or other reason is disqualified or determined to be not entitled to such purse, award or prize, the stewards or the Commission may order such purse, award or prize returned and redistributed to the rightful owner or horse. Any person who fails to comply with an order to return any purse, award or prize erroneously distributed shall be subject to fines and suspension.

EQUINE VETERINARY PRACTICES, HEALTH AND MEDICATION - CHAPTER 11

ARCI-011-005 Purpose

To describe requirements and procedures used to ensure the health and welfare of racehorses and to safeguard the interests of the public and the participants in racing.

Adopted in Version 1.4 ARCI 8/27/02 NAPRA 10/2/02

ARCI-011-010 Veterinary Practices

A. Veterinarians under Authority of Official Veterinarian

Veterinarians licensed by the Commission and practicing at any location under the jurisdiction of the Commission are under the authority of the official veterinarian and the stewards. The official veterinarian shall recommend to the stewards or the Commission the discipline that may be imposed upon a veterinarian who violates the rules.

B. Appropriate Role of Veterinarians

The following limitations apply to drug treatments of horses that are engaged in activities, including training, related to competing in pari-mutuel racing in the jurisdiction:

(1) No drug may be administered except in the context of a valid veterinarian/client patient relationship between an attending veterinarian, the horse owner (who may be represented by the trainer or other agent) and the horse. The owner is not required by this subdivision to follow the veterinarian's instructions, but no drug may be administered without a veterinarian having examined the horse and provided the treatment recommendation. Such relationship requires the following:

(a) The veterinarian, with the consent of the owner, has accepted responsibility for making medical judgments about the health of the horse;

(b) The veterinarian has sufficient knowledge of the horse to make a preliminary diagnosis of the medical condition of the horse;

(c) The veterinarian has performed an examination of the horse and is acquainted with the keeping and care of the horse;

(d) The veterinarian is available to evaluate and oversee treatment outcomes, or has made appropriate arrangements for continuing care and treatment;

(e) The relationship is maintained by veterinary visits as needed, and;
The veterinary judgments of the veterinarian are independent and are not dictated by the trainer or owner of the horse.

(2) No prescription drug may be administered except as prescribed by an attending veterinarian.

- (3) The trainer and veterinarian are both responsible to ensure compliance with these limitations on drug treatments of horses, except the medical judgment to recommend a drug treatment or to prescribe a drug is the responsibility of the veterinarian and the decision to proceed with a drug treatment that has been so recommended is the responsibility of the horse owner (who may be represented by the trainer or other agent).

C. Treatment Restrictions

- (1) Only Licensed Trainers, Licensed Owners, or their designees shall be permitted to authorize veterinary medical treatment of horses under their care, custody, and control at locations under the jurisdiction of the relevant commission.
- (2) Except as otherwise provided by this subsection, no person other than a veterinarian licensed to practice veterinary medicine in this jurisdiction and licensed by the Commission may administer a prescription or controlled medication, drug, chemical or other substance (including any medication, drug, chemical or other substance by injection) to a horse at any location under the jurisdiction of the Commission.
- (3) This subsection does not apply to the administration of the following substances except in approved quantitative levels, if any, present in post-race samples or as they may interfere with post-race testing:
- (a) A recognized non-injectable nutritional supplement or other substance approved by the official veterinarian;
 - (b) A non-injectable substance on the direction or by prescription of a licensed veterinarian; or
 - (c) A non-injectable non-prescription medication or substance.
- (4) No person shall possess a hypodermic needle, syringe capable of accepting a needle or injectable of any kind on association grounds, unless otherwise approved by the Commission. At any location under the jurisdiction of the Commission, veterinarians may use only one-time disposable syringe and needle, and shall dispose of both in a manner approved by the Commission. If a person has a medical condition which makes it necessary to have a syringe at any location under the jurisdiction of the Commission, that person may request permission of the stewards and/or the Commission in writing, furnish a letter from a licensed physician explaining why it is necessary for the person to possess a syringe, and must comply with any conditions and restrictions set by the stewards and/or the Commission.
- (5) Practicing Veterinarians shall not have contact with an entered horse within 24 hours before the scheduled post time of the race in which the horse is scheduled to compete except for the administration of furosemide under the guidelines set forth in ARCI-011-020 F.) unless approved by the official veterinarian. Any unauthorized contact may result in the horse being scratched from the race in which it was scheduled to compete and may result in further disciplinary action by the stewards.
- (6) Any horse entered for racing must be present on the grounds 5 hours prior to the post time of the race they are entered in.

- (7) Clenbuterol use is prohibited in racing and training unless the following conditions are met:
- (a) The prescription for clenbuterol is made for a specific horse based upon a specific diagnosis. The prescription and volume dispensed cannot exceed a treatment period of 30 days.
 - (b) The horse's name, the specific diagnosis, dosage and duration of clenbuterol treatment must be reported by the prescribing veterinarian to the Official Veterinarian.
 - (c) This notification must be made on a form and by a deadline designated by the Commission.
 - (d) The veterinarian may be required to provide a copy of the prescription and diagnosis to the Equine Medical Director for review and approval. In such instances the horse may not receive clenbuterol before this approval is issued.
 - (e) Trainers must take daily notification to the official veterinarian of the horse(s) in their custody having been administered clenbuterol. Notification shall be made on a form and by a deadline designated by the Commission.
 - (f) A horse administered clenbuterol shall be placed on the official veterinarian's list. The horse must meet all conditions for removal from the list including a timed workout and blood and urine sampling. Both samples must have no detectable clenbuterol.
 - (g) A horse may not enter to race until it has completed all the requirements in subdivision (f).
 - (h) If clenbuterol is detected in a horse's post-race or out of competition testing sample and appropriate notification as outlined in subdivisions in 7(a) and (b) was not completed, the horse shall immediately be placed on the Official Veterinarian's List pending the outcome of the investigation. The horse shall be required to meet all the conditions for removal from the veterinarian's list outlined in subdivision (f) above.

D. Veterinarians' Reports

ARCI-011-020 Medications and Prohibited Substances

Upon a finding of a violation of these medications and prohibited substances rules, the stewards shall consider the classification level of the violation as listed in at the time of the violation in the Uniform Classification Guidelines of Foreign Substances as promulgated by the Association of Racing Commissioners International and impose penalties and disciplinary measures consistent with the recommendations contained therein. The stewards shall also consult with the official veterinarian to determine if the violation was a result of the administration of a therapeutic medication as documented in a veterinarian’s Medication Report Form received per ARCI-011-010 (C). The stewards may also consult with the laboratory director or other individuals to determine the seriousness of the laboratory finding or the medication violation Penalties for all medication and drug violations shall be investigated and reviewed on a case by case basis. Extenuating factors include, but are not limited to:

- (1) The past record of the trainer, veterinarian and owner in drug cases;
- (2) The potential of the drug(s) to influence a horse’s racing performance;
- (3) The legal availability of the drug;
- (4) Whether there is reason to believe the responsible party knew of the administration of the drug or intentionally administered the drug;
- (5) The steps taken by the trainer to safeguard the horse;
- (6) The probability of environmental contamination or inadvertent exposure due to human drug use;
- (7) The purse of the race;
- (8) Whether the drug found was one for which the horse was receiving a treatment as determined by the Medication Report Form;

- (9) Whether there was any suspicious betting pattern in the race, and;
- (10) Whether the licensed trainer was acting on the advice of a licensed veterinarian.

As a result of the investigation, there may be mitigating circumstances for which a lesser or no penalty is appropriate for the licensee and aggravating factors, which may increase the penalty beyond the minimum.

A. Uniform Classification Guidelines

The following outline describes the types of substances placed in each category. This list shall be publicly posted in the offices of the official veterinarian and the racing secretary.

(1) Class 1

Opiates, opium derivatives, synthetic opioids, psychoactive drugs, amphetamines, all United States Drug Enforcement Agency (DEA) Schedule I drugs and many Schedule II drugs. Also found in this class are drugs that are potent stimulants of the central nervous system. Drugs in this class have no generally accepted medical use in the racing horse and their pharmacologic potential for altering the performance of a racing horse is very high.

(2) Class 2

Drugs placed in this category have a high potential for affecting the outcome of a race. Most are not generally accepted as therapeutic agents in the racing horse. Many are products intended to alter consciousness or the psychic state of humans, and have no approved or indicated use in the horse. Some, such as injectable local anesthetics, have legitimate use in equine medicine, but should not be found in a racing horse. The following groups of drugs placed are in this class:

- (a) Opiate partial agonists, or agonist-antagonists;
- (b) Non-opiate psychotropic drugs. These drugs may have stimulant, depressant, analgesic or neuroleptic effects;
- (c) Miscellaneous drugs which might have a stimulant effect on the central nervous system (CNS);
- (d) Drugs with prominent CNS depressant action;
- (e) Antidepressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects;
- (f) Muscle blocking drugs that have a direct neuromuscular blocking action;
- (g) Local anesthetics that have a reasonable potential for use as nerve blocking agents (except procaine); and
- (h) Snake venoms and other biologic substances, which may be used as nerve blocking agents.

(3) Class 3

Drugs placed in this class may or may not have an accepted therapeutic use in the horse. Many are drugs that affect the cardiovascular, pulmonary and autonomic nervous systems. They all have the potential of affecting the performance of a racing horse. The following groups of drugs are placed in this class:

- (a) Drugs affecting the autonomic nervous system that do not have prominent CNS effects, but which do have prominent cardiovascular or respiratory system effects. Bronchodilators are included in this class;
- (b) A local anesthetic that has nerve blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anesthetic effect of the drug (procaine);
- (c) Miscellaneous drugs with mild sedative action, such as the sleep inducing antihistamines;
- (d) Primary vasodilating/hypotensive agents;
- (e) Potent diuretics affecting renal function and body fluid composition; and
- (f) Anabolic and/or androgenic steroids and other drugs

(4) Class 4

Drugs in this category comprise primarily therapeutic medications routinely used in racing horses. These may influence performance, but generally have a more limited ability to do so. Groups of drugs assigned to this category include the following:

- (b) Drugs affecting the autonomic nervous system that do not have prominent CNS, cardiovascular or respiratory effects
 - (A) Drugs used solely as topical vasoconstrictors or decongestants (B) Drugs used as gastrointestinal antispasmodics
 - (C) Drugs used to void the urinary bladder
 - (D) Drugs with a major effect on CNS vasculature or smooth muscle of visceral organs.
 - (E) Antihistamines which do not have a significant CNS depressant effect (This does not include H1 blocking agents, which are listed in Class 5);
- (c) Antihistamines that do not have a significant CNS depressant effect. This does not include H2 blocking agents, which are in Class 5.
- (d) Mineralocorticoid drugs;
- (e) Skeletal muscle relaxants;
- (f) Anti-inflammatory drugs. These drugs may reduce pain as a consequence of their anti-inflammatory action.
 - (A) Non-Steroidal Anti-Inflammatory Drugs (NSAIDs);
 - (B) Corticosteroids (glucocorticoids); and
 - (C) Miscellaneous anti-inflammatory agents.
- (g) Less potent diuretics;
- (h) Cardiac glycosides and antiarrhythmic agents.

Antidiarrheal drugs;
- (k) Miscellaneous drugs.
 - (A) Expectorants with little or no other pharmacologic action;
 - (B) Stomachics; and
 - (C) Mucolytic agents.

(5) Class 5

Drugs in this category are therapeutic medications for which concentration limits have been established by the racing jurisdictions as well as certain miscellaneous agents. Included specifically are agents that have very localized actions only, such as anti-ulcer drugs and certain antiallergenic drugs. The anticoagulant drugs are also included.

B. Penalties

- (1) In issuing penalties against individuals found guilty of medication and drug violations a regulatory distinction shall be made between the detection of therapeutic medications used routinely to treat racehorses and those drugs that have no reason to be found at any concentration in the test sample on race day.
- (2) The stewards or the commission will use the penalty guidelines schedule contained in these rules as a starting place in the penalty stage of the deliberations for a rule violation for any drug listed in the *Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances*.
- (3) If a licensed veterinarian is administering or prescribing a drug not listed in the *RCI Uniform Classification Guide lines for Foreign*, the identity of the drug shall be forwarded to the official veterinarian to be forwarded to the Drug Testing Standards and Practices Committee of the Association of Racing Commissioners International for classification.
- (4) Any drug or metabolite thereof found to be presenting a pre- or post-race sample which is not classified in the most current *RCI Uniform Classification Guidelines for Foreign Substances* shall be assumed to be a RCI Class 1 Drug and the trainer and owner shall be subject to those penalties as set forth in schedule "A" unless satisfactorily demonstrated otherwise by the Racing Medication and Testing Consortium, with a penalty category assigned.
- (5) The penalty categories and their related schedules, if applicable, shall be on the following criteria:
 - (a) Whether the drug is approved by the U.S. Food and Drug Administration for use in the horse;

The Association of Racing Commissioners International
Model Rules of Racing

- (b) Whether the drug is approved by the U.S. Food and Drug Administration for use in any species;
 - (c) Whether the drug has any legitimate therapeutic application in the equine athlete;
 - (d) Whether the drug was identified as “necessary” by the RMTC Veterinary Advisory Committee;
 - (e) Whether legitimate, recognized therapeutic alternatives exist, and; (f) The current RCI Classification of the drug.

The Association of Racing Commissioners International
Model Rules of Racing

- (7) The recommended penalty for a violation involving a drug that carries a Category “D” penalty is a written warning to the trainer and owner. Multiple violations may result in fines and/or suspensions
- (8) Any licensee of the commission, including veterinarians, found to be responsible for the improper or intentional administration of any drug resulting in a positive test may, after proper notice and hearing, be subject to the same penalties set forth for the licensed trainer.
- (9) The licensed owner, veterinarian or any other licensed party involved in a positive laboratory finding shall be notified in writing of the hearing and any resulting action. In addition their presence may be required at any and all hearings relative to the case.
- (10) Any veterinarian found to be involved in the administration of any drug carrying the penalty category of “A” shall be referred to the State Licensing Board of Veterinary Medicine for consideration of further disciplinary action and/or license revocation. This is in addition to any penalties issued by the stewards or the commission.
- (11) Any person who the stewards or the commission believe may have committed acts in violation of criminal statutes may be referred to the appropriate law enforcement agency. Administrative action taken by the stewards or the commission in no way prohibits a prosecution for criminal acts committed, nor does a potential criminal prosecution stall administrative action by the stewards or the commission.
- (12) Procedures shall be established to ensure that a licensed trainer is not able to benefit financially during the period for which the individual has been suspended. This includes, but is not limited to, ensuring that horses are not transferred to licensed family members.
- (13) Multiple Medication Violations (MMV)
 - (a) A trainer who receives a penalty for a medication violation based upon a horse testing positive for a Class 1-5 medication with Penalty Class A-C, as provided in the most recent version of the ARCI Uniform Classification Guidelines for Foreign Substances, or similar state regulatory guidelines, shall be assigned points as follows:

Penalty Class	Points If Controlled Therapeutic Substance	Points If Non-Controlled Substance
Class A	N/A	6
Class B	2	4
Class C	½ for first violation with an additional ½ point for	1 for first violation with an additional ½ point for each additional violation within 365 days

Model Rules of Racing

	each additional violation within 365 days ⁴	
Class D	0	0

If the Stewards or Commission determine that the violation is due to environmental contamination, they may assign lesser or no points against the trainer based upon the specific facts of the case.

- (b) The points assigned to a medication violation by the Stewards or Commission ruling shall be included in the ARCI official database. The ARCI shall record points consistent with Section 13(a) including when appropriate, a designation that points have been suspended for the medication violation. Points assigned by such regulatory ruling shall reflect, in the case of multiple positive tests as described in paragraph (d), whether they constitute a single violation. The Stewards' or Commission Ruling shall be posted on the official website of the Commission and within the official database of the Association of Racing Commissioners International. If an appeal is pending, that fact shall be noted in such Ruling. No points shall be applied until a final adjudication of the enforcement of any such violation.
- (c) A trainer's cumulative points for violations in all racing jurisdictions shall be maintained by the ARCI. Once all appeals are waived or exhausted, the points shall immediately become part of the trainer's official ARCI record and shall be considered by the Commission in its determination to subject the trainer to the mandatory enhanced penalties by the Stewards or Commission as provided in this regulation.
- (d) Multiple positive tests for the same medication incurred by a trainer prior to delivery of official notice by the commission may be treated as a single violation. In the case of a positive test indicating multiple substances found in a single post-race sample, the Stewards may treat each substance found as an individual violation for which points will be assigned, depending upon the facts and circumstances of the case.

⁴ Points for NSAID violations only apply when the primary threshold of the NSAID is exceeded. Points are not to be separately assigned for a stacking violation.

The Association of Racing Commissioners International
Model Rules of Racing

- (e) The official ARCI record shall be used to advise the Stewards or Commission of a trainer's past record of violations and cumulative points. Nothing in this administrative regulation shall be construed to confer upon a licensed trainer

the right to appeal a violation for which all remedies have been exhausted or for which the appeal time has expired as provided by applicable law.

- (f) The Stewards or Commission shall consider all points for violations in all racing jurisdictions as contained in the trainer's official ARCI record when determining whether the mandatory enhancements provided in this regulation shall be imposed.
- (g) In addition to the penalty for the underlying offense, the following enhancements shall be imposed upon a licensed trainer based upon the cumulative points contained in his/her official ARCI record:

Points	Suspension in days
5-5.5	15 to 30
6-8.5	30 to 60
9-10.5	90 to 180
11 or more	180 to 360

MMV penalties are not a substitute for the current penalty system and are intended to be an additional uniform penalty when the licensee:

- (i) Has had more than one medication violation for the relevant time period, and
- (ii) Exceeds the permissible number of points.

The Stewards and Commission shall consider aggravating and mitigating circumstances, including the trainer's prior record for medication violations, when determining the appropriate penalty for the underlying offense. The MMP is intended to be a separate and additional penalty for a pattern of violations.

- (h) The suspension periods as provided in Section 13(g) shall run consecutive to any suspension imposed for the underlying offense.

- (i) The Stewards' or Commission Ruling shall distinguish between the penalty for the underlying offense and any enhancement based upon a Stewards or Commission review of the trainer's cumulative points and regulatory record, which may be considered an aggravating factor in a case.
- (j) Points shall expire as follows:

Penalty Classification	Time to Expire
A	3 years
B	2 years
C	1 year

In the case of a medication violation that results in a suspension, any points assessed expire on the anniversary date of the date the suspension is completed.

C. Medication Restrictions

- (1) A finding by the commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse and, in the case of a post-race test, was present in the horse's body while it was participating in a race. Prohibited substances include:
 - (a) Drugs or medications for which no acceptable threshold concentration has been established;
 - (b) Controlled therapeutic medications in excess of established threshold concentrations or administration within the restricted time period as set forth in the ARCI Controlled Therapeutic Medication Schedule, Version 2.2.;

A surrender shall not be deemed voluntary after a licensee has been advised or it is apparent that an investigatory search has commenced.

E. Non-Steroidal Anti-Inflammatory Drugs (NSAIDs)

- (1) The use of NSAIDs shall be governed by the following conditions:
 - (a) No NSAID may be administered at less than 48 hours to the scheduled post time of the race in which the horse is entered;
 - (b) Evidence of an NSAID administration at less than 48 hours to the scheduled post time of the race in which the horse is entered constitutes a Class C violation.
 - (c) NSAIDs included in the ARCI Controlled Therapeutic Medication Schedule, Version 4.1, are not to be used in a manner inconsistent with the restrictions contained therein. NSAIDs not included on the ARCI Controlled Therapeutic Medication Schedule, Version 4.1, are not be present in a racing horse biological sample at concentrations in excess of the laboratory's lower limit of quantification in blood or urine.

 - (ii) The horse is eligible to race on the 15th day.

G. Corticosteroids

- (1) The detection of two or more corticosteroids in a flat or jump racing horse's post race serum/plasma and/or urine sample constitutes a stacking violation (Penalty Class B).
- (2) The detection of one or more additional NSAIDS in blood and/or urine constitutes a stacking violation in addition to the violation associated with the detection of each additional NSAID.

H. Furosemide

(1) Furosemide may be administered intravenously to a horse, which is entered to compete in a race. Except under the instructions of the official veterinarian or the racing veterinarian for the purpose of removing a horse from the Veterinarian's List or to facilitate the collection of a post-race urine sample, furosemide shall be permitted only after the official veterinarian has placed the horse on the Furosemide List. In order for a horse to be placed on the Furosemide List the following process must be followed.

- (a) After the horse's licensed trainer and licensed veterinarian determine that it would be in the horse's best interests to race with furosemide the official veterinarian or his/her designee shall be notified using the prescribed form, that the horse is to be put on the Furosemide List.
- (b) The form must be received by the official veterinarian or his/her designee by the proper time deadlines so as to ensure public notification.
- (c) A horse placed on the official Furosemide List must remain on that list unless the licensed trainer and licensed veterinarian submit a written request to remove the horse from the list. The request must be made to the official veterinarian or his/her designee, on the proper form, no later than the time of entry.

The Association of Racing Commissioners International
Model Rules of Racing

- (d) After a horse has been removed from the Furosemide List, the horse may not be placed back on the list for a period of 60 calendar days unless it is determined to be detrimental to the welfare of the horse, in consultation with the official veterinarian. If a horse is removed from the official Furosemide List a second time in a 365-day period, the horse may not be placed back on the list for a period of 90 calendar days.
 - (e) Furosemide shall only be administered on association grounds.
 - (f) Furosemide shall be the only authorized bleeder medication
- (2) The use of furosemide shall be permitted under the following circumstances on association grounds where a detention barn is utilized:

- (4) Test results must show a detectable concentration of the drug in the post-race serum, plasma or urine sample.

The Association of Racing Commissioners International
Model Rules of Racing

- (a) The specific gravity of post-race urine samples may be measured to ensure that samples are sufficiently concentrated for proper chemical analysis. The specific gravity shall not be below 1.010. If the specific gravity of the urine is found to be below 1.010 or if a urine sample is unavailable for testing, quantitation of furosemide in serum or plasma shall be performed;
 - (b) Quantitation of furosemide in serum or plasma shall be performed when the specific gravity of the corresponding urine sample is not measured or if measured below 1.010. Concentrations may not exceed 100 nanograms of furosemide per milliliter of serum or plasma.
- (5) The administering authority or association may assess a fee approved by the commission on licensed owners of treated horses to recoup the reasonable costs associated with the administration of furosemide in the manner prescribed in these rules.
 - (6) The presence of furosemide in a post-race sample in a furosemide restricted contest constitutes a violation (Penalty Class B).

- (4) The voluntary administration of furosemide without an external bleeding incident shall not subject the horse to the initial period of ineligibility as defined by this policy.
- (5) A horse may be removed from the Bleeder List only upon the direction of the official veterinarian, who shall certify in writing to the stewards the recommendation for removal.
- (6) A horse which has been placed on a Bleeder List in another jurisdiction pursuant to these rules shall be placed on a Bleeder List in this jurisdiction.

J. **Environmental Contaminants and Substances of Human Use**

- (1) Environmental contaminants are either endogenous to the horse or can arise from plants traditionally grazed or harvested as equine feed or are present in equine feed because of contamination during the cultivation, processing, treatment, storage or transportation phases.

- (2) Substances of human use and addiction may be found in the horse due to its close association with humans.
- (3) If the preponderance of evidence presented in the hearing shows that a positive test is the result of environmental contamination, including inadvertent exposure due to human drug use, or dietary intake, or is endogenous to the horse, those factors should be considered in mitigation of any disciplinary action taken against the affected trainer. Disciplinary action shall only be taken if test sample results exceed the regulatory thresholds in the most recent version of the ARCI Endogenous, Dietary, or Environmental Substances Schedule.
- (4) The identification and adoption of these uniform thresholds for certain substances shall not preclude an individual jurisdiction from maintaining thresholds for substances not on this list which predate the adoption of this regulation in such jurisdiction.

K. Androgenic-Anabolic Steroids (AAS)

- (1) No AAS shall be permitted in test samples collected from racing horses except for endogenous concentrations of the naturally occurring substances **boldenone**, **nandrolone**, and testosterone at concentrations less than the indicated thresholds.
- (2) Concentrations of these AAS shall not exceed the following free (*i.e.*, not conjugated) steroid concentrations in plasma or serum:
 - (a) Boldenone – A confirmatory threshold not greater than 25 picograms/milliliter for all horses, regardless of sex;
 - (b) Nandrolone – A confirmatory threshold not greater than 25 picograms/milliliter for fillies, mares, and geldings; males horses other than geldings shall be tested for Nandrolone in urine (see (2)(b)(B) below);
 - (c) Testosterone – A confirmatory threshold not greater than 100 picograms/milliliter for fillies, mares, and gelding.
- (3) Total concentrations of these AAS shall not exceed the following total concentrations in urine after hydrolysis of conjugates:
 - (a) Boldenone - A confirmatory threshold not greater than 1 nanogram/milliliter for fillies, mares, and geldings; a confirmatory threshold not greater than 15 nanograms/milliliter in male horses other than geldings;
 - (b) Nandrolone - A confirmatory threshold not greater than 1 nanogram/milliliter for fillies, mares, and geldings; a confirmatory threshold not greater than 45 nanograms/milliliter (as 5 α -estrane-3 β ,17 α -diol) of urine in male horses other than geldings;
 - (c) Testosterone – A confirmatory threshold of not greater than 55 nanograms/milliliter of urine in fillies and mares (unless in foal); a confirmatory threshold of not greater than 20 nanograms/milliliter in geldings
- (4) Any other AAS are prohibited in racing horses.
- (5) The sex of the horse must be identified to the laboratory on all pre-race and postrace samples designated for AAS testing.

- (6) If an anabolic steroid has been administered to a horse in order to assist in its recovery from illness or injury, that horse may be placed on the Veterinarian's List in order to monitor the concentration of the drug or metabolite in urine or blood. After the concentration has fallen below the designated threshold for the administrated AAS, the horse is eligible to be removed from the list.

Version 8.4.1 to 8.5 ARCI Board 12/03/18, amended ARCI-011-020 I.(2)(c) to 100 picograms/ml. Version 8.5 to 9.0 ARCI Board 04/04/2019, corrected language in ARCI-011-020 I (3)(c).

L. Alkalinizing Substances

The use of agents that elevate the horse's TCO₂ or Base excess level above those existing naturally in the untreated horse at normal physiological concentrations is prohibited. The following levels also apply to blood gas analysis:

- (1) The regulatory threshold for TCO₂ is 37.0 millimoles per liter of plasma/serum or a base excess level of 10.0 millimoles, and;
- (2) The decision level to be used for the regulation of TCO₂ is 37.0 millimoles per liter of plasma/serum plus the measurement uncertainty of the laboratory analyzing the sample, or a base excess level of 10.4 millimoles per liter of plasma/serum.

M. Compounded Medications on Association Grounds

- (1) The possession or use of a drug, substance, or medication on Association Grounds that has not been approved by the appropriate federal agency (e.g., the United States Food and Drug Administration in the United States) for any use in (human or animal) is forbidden without prior permission of the Commission or its designee.
- (2) It is a violation of this regulation to possess, use, or distribute a compounded medication on Association Grounds if there is an FDA approved equivalent of that substance available for purchase. A difference in available formulations or concentrations does not alleviate the need to use FDA approved products.
- (3) It is a violation of this regulation to possess, use, or distribute a compounded medication on Association Grounds made from bulk substances if an FDA approved equivalent is available for purchase.
- (4) Combining two or more substances with pharmacologic effect constitutes the development of a new drug. This may only be done in accordance with state and local laws and must contain FDA approved medications, if available.
- (5) Compounded veterinary drugs. Veterinary drugs shall be compounded in accordance with all applicable state and federal laws. Compounded medication shall be dispensed only by prescription issued by a licensed veterinarian to meet the medical needs of a specific horse and for use only in that specific horse

ARCI-011-022 Out of Competition Testing

(1) *Out-of-competition testing authorized.* The commission may at a reasonable time on any date take blood, urine or other biologic samples as authorized by commission rules from a horse to enhance the ability of the commission to enforce its medication and antidoping rules, *e.g.*, the Prohibited List pursuant to ARCI-011-015. The commission shall own such samples. This rule authorizes only the collection and testing of samples and does not independently make impermissible the administration to or presence in any horse of any drug or other substance. A race day prohibition or

restriction of a substance by a commission rule is not applicable to an out-of-competition test unless there is an attempt to race the horse in a manner that violates such rule.

(2) *Horses eligible to be tested.* Any horse that has been engaging in activities related to competing in horse racing in the jurisdiction may be tested. This includes without limitation any horses that are training outside the jurisdiction to participate in racing in the jurisdiction and all horses that are training in the jurisdiction, but excludes weanlings, yearlings and horses no longer engaged in horse racing (*e.g.*, retired broodmares).

- (a) A horse is presumed eligible for out-of-competition testing if:
 - (i) It is on the grounds at a racetrack or training center under the jurisdiction of the commission;
 - (ii) It is under the care or control of a trainer licensed by the commission;
 - (iii) It is owned by an owner licensed by the commission;
 - (iv) It is entered or nominated to race at a premises licensed by the commission;
 - (v) It has raced within the previous 12 months at a premises licensed by the commission; or
 - (vi) It is nominated to a program based on racing in the jurisdiction, including without limitation a state thoroughbred development, breeder's award fund, or standardbred state sires stakes.
- (b) Such presumptions are conclusive in the absence of evidence that a horse is not engaged in activities related to competing in horse racing in the jurisdiction.

(3) *Selection of horses to be tested.*

- (a) Horses shall be selected for sampling by a commission Veterinarian, Executive Director, Equine Medical Director, Steward or Presiding Judge or a designee of any of the foregoing.
- (b) Horses may be selected to be tested at random, for cause, or as otherwise determined in the discretion of the commission.
- (c) Collectors shall for suspicion-less collections of samples abide by a plan that has been approved by a supervisor not in the field and identifies specific horses or provides neutral and objective criteria to follow in the field to determine which

horses to sample. Such a supervisor may consider input from persons in the field during the operation of the plan and select additional horses to be sampled.

(4) *Cooperation with the commission*

- (a) Licensees of the commission are required to cooperate and comply fully with the provisions of this rule.
- (b) Persons who apply for and are granted a trainer or owner license shall be deemed to have given their consent for access at such premises as their horse may be found for the purpose of commission representatives collecting out-of-competition samples. Licensees shall take any steps necessary to authorize access by commission representatives at such premises.
- (c) No other person shall knowingly interfere with or obstruct a sampling.

(5) *General procedure for collecting samples*

- (a) Samples shall be taken under the supervision and direction of a person who is employed or designated by the commission. All blood samples shall be collected by a veterinarian licensed in the state where the sample is collected, or by a veterinary technician who is acting under appropriate supervision of the veterinarian.
- (b) Upon request of a representative of the commission, the trainer, owner, or their specified designee shall provide the location of their horses eligible for out-of-competition testing.
- (c) The commission need not provide advance notice before arriving at any location, whether or not licensed by the commission, to collect samples.
- (d) The trainer, owner, or their specified designee shall cooperate with the person who takes samples for the commission, which cooperation shall include without limitation:
 - (i) Assist in the immediate location and identification of the horse;
 - (ii) Make the horse available as soon as practical upon arrival of the person who is responsible for collecting the samples;
 - (iii) Provide a stall or other safe location to collect the samples;
 - (iv) Assist the person who is collecting samples in properly procuring the samples; and

(v) Witness the taking of samples including sealing of sample collection containers.

(e) The management and employees of a licensed racetrack or training facility at which a horse may be located shall cooperate fully with a person who is authorized to take samples. The person who collects samples for the commission may require that the collection be done at a specified location on such premises.

(f) The commission, if requested and in its sole discretion, may permit the trainer, owner, or their specified designee to present a horse that is located in the jurisdiction, but not at a racetrack or training center licensed by the commission, to be sampled at a time and location designated by the commission.

(6) *Procedure for collecting samples from horses located outside the jurisdiction*

(a) The commission may arrange for the sampling of an out-of-state horse by the racing commission or other designated person in the jurisdiction where the horse is located. Such racing commission or other designated person shall follow the relevant provisions of this rule, including paragraph (a) of subdivision five of this rule.

(b) The test results shall be made available, for its regulatory use, to each jurisdiction that has participated in the process of collecting any out-of-competition sample, subject to any restrictions on public disclosure of test results that apply to the commission that selected the horse for sampling.

(c) The commission, if requested and in its sole discretion, may permit the trainer or owner instead to transport the horse into its jurisdiction for sampling at a time and place designated by the commission.

(7) *Additional procedures*

(a) The person who takes samples for the commission shall provide identification and disclose the purpose of the sampling to the trainer or designated attendant of the horse.

(b) A written protocol for the collection of samples shall be made generally available.

- (c) An owner or trainer does not consent to a search of the premises by making a horse that is not located at a racetrack or training center available for sampling.
- (d) If the trainer or other custodian of a selected horse refuses or declines to make the horse available for sampling and the managing owner has previously provided the commission with a means for the commission to give immediate notification to the managing owner in such situation, then the commission shall attempt to notify the managing owner and the eligibility of the horse shall be preserved if the managing owner is able to make the horse available for immediate sampling. The commission is not required to make repeated attempts to notify the managing owner.
- (e) The chain of custody record for the sample (including a split sample where appropriate) shall be maintained and made available to the trainer, owner, or their designee when a complaint results from an out-of-competition test.

(8) *Analysis of collected samples*

- (a) The commission may have out-of-competition samples tested to produce information that may enhance the ability of the commission to enforce its medication and anti-doping rules.
- (b) Split sample rules and procedures for post-race testing shall apply to out-of-competition testing.
- (c) The commission may use any remaining sample for research and investigation.

(9) *Penalties for non-cooperation*

- (a) Willful failure to make a horse available for sampling or other willfully deceptive acts or interference in the sampling process shall carry a minimum penalty of a one year license suspension and referral to the commission in addition to any other authorized penalties.
- (b) A selected horse that is not made available for out-of-competition sampling shall be placed on the Steward's List. The horse shall remain on the Steward's List for a minimum of 180 days unless the owner can establish extraordinary mitigating circumstances.
- (c) A selected horse that is presumed eligible for out-of-competition testing shall be placed on the Steward's list and be ineligible to race in the jurisdiction for 180 days if the horse is not sampled because the trainer, owner or their designee asserts that the horse is not engaged in activities related to competing in horse racing in the

jurisdiction. This restriction shall not apply if the trainer, owner or their designee instead permits voluntarily an immediate collection of such samples from the horse.

(10) Responsible Persons

- (a) The trainer of the horse is responsible for the condition of a horse sampled for an out-of-competition test while on the grounds of a licensed training facility or racetrack.
- (b) If the horse is sampled while not on the grounds of a licensed training facility or racetrack, then the owner shall be presumed to be the responsible person unless the owner can establish, by substantial evidence, that another licensed person had accepted the responsibility for the care, custody, and control of the horse, making such person the responsible person.
- (c) If a horse sampled for an out-of-competition test was claimed, sold, or otherwise transferred during the time the substance giving rise to the positive test may have been administered, then the Commission shall investigate to determine, by a preponderance of the evidence, the identity of the responsible person at the time such substance may have been administered.
- (d) If the Commission cannot determine a responsible person, then the Commission may deem the owner responsible and may place the horse on the veterinarian's list for such time as is necessary to protect the integrity of racing.
- (e) A claimed horse is ineligible to be subjected to out-of-competition testing in the 48 hours post claim unless the horse was subjected to post race testing.

A. Reporting to the Test Barn

- (1) The official winning horse and any other horse ordered by the Commission and/or the stewards shall be taken to the test barn to have a blood and urine samples taken at the direction of the official veterinarian.
- (2) Random or extra testing may be required by the stewards or the Commission at any time on any horse on association grounds.
- (3) Unless otherwise directed by the stewards or the official veterinarian, a horse that is selected for testing must be taken directly to the test barn.
- (4) A track security guard shall monitor access to the test barn area during and immediately following each racing performance. All persons who wish to enter the test barn area must be a minimum of 18-years-old, be currently licensed by the

Commission, display their Commission identification badge and have a legitimate reason for being in the test barn area.

B. Sample Collection

- (1) Sample collection shall be done in accordance with the guidelines and instructions provided by the official veterinarian.
- (2) The official veterinarian shall determine a minimum sample requirement for the primary testing laboratory.
 - (a) If the specimen obtained from a horse is less than the minimum sample requirement, the entire specimen shall be sent to the primary testing laboratory.
 - (b) If a specimen obtained is greater than the minimum sample requirement but less than twice that amount, the portion of the sample that is greater than the minimum sample requirement shall be secured as the split sample.
 - (c) If a specimen obtained is greater than twice the minimum sample requirement, a portion of the sample approximately equal to the amount provided for the primary testing laboratory shall be secured as the split sample.
 - (d) Split samples collected for simultaneous determination of TCO₂ levels shall be collected and shipped in accordance with C. of this rule.
 - (e) Blood samples must be collected at consistent time, preferably not later than one hour post-race.

C. Alkalinizing Substances

- (1) Pre-race Sampling, Post-race Testing
 - (a) Blood samples for TCO₂ and base excess testing should be collected within one hour pre-race. The samples must be handled in a consistent manner and cannot be frozen.
 - (b) If a secure detention barn is available, a sample may be obtained prior to furosemide administration and the horse must be kept in the secure detention barn until race time.
 - (c) The provisions of this rule pertaining to B. Sample Collection and C. Storage and Shipment of Split Samples shall not apply to blood samples drawn for TCO₂ analysis.
 - (d) Split sample analyses of TCO₂ must be run in parallel with the official sample at the official laboratory in order to avoid delays in testing that result in lower TCO₂ values as a result of sample degradation.
 - (e) Blood samples must be processed within 120 hours and tested using standardized, reproducible, validated procedures.
- (2) Pre-race Sampling, Pre-race Testing
 - (a) The commission shall adopt standard operating procedures that include but is not limited to calibration procedures, sampling procedures, personnel and notification processes.

- (b) If a sample taken pre-race is determined to be above the thresholds stated in ARCI-011-020(J)(2) the horse shall be scratched.
- (c) Any owner, trainer or other licensed delegate of the owner or trainer who refuses or fails to permit any horse to be tested when a demand for testing has been made by an authorized commission designee shall have the applicable horse scratched.

(3) Post-race Sampling, Post-race Testing

Post-race sampling of thoroughbreds is discouraged.

D. Storage and Shipment of Split Samples

- (1) Split samples obtained in accordance with Subsection B, Numbers 2b and 2c above shall be secured and made available for further testing in accordance with the following procedures:
 - (a) A split sample shall be secured in the test barn under the same manner as the portion of the specimen acquired for shipment to a primary laboratory until such time as specimens are packed and secured for shipment to the primary laboratory. Split samples shall then be transferred to a freezer at a secure location approved by the Commission.
 - (b) A freezer for storage of split samples shall be equipped with two hasps or other devices to provide for use of two independent locks. One lock shall be the property of the Commission and one lock shall be the property of a representative of the group representing a majority of the horsemen at a race meeting. The locks shall be closed and locked so as to prevent access to the freezer at all times except as specifically provided by these rules.
 - (c) A freezer for storage of split samples shall be opened only for depositing or removing split samples, for inventory, or for checking the condition of samples.
 - (d) When a freezer used for storage of split samples is opened, it shall be attended by both a representative of the Commission and the owner, trainer or designee. A log shall be maintained that shall be used each time a split sample freezer is opened to specify each person in attendance, the purpose for opening the freezer, identification of split samples deposited or removed, the date and time the freezer was opened, and the time the freezer was closed and to verify that both locks were secured prior to and after opening of the freezer.
 - (e) Any evidence of a malfunction of a split sample freezer or samples that are not in a frozen condition during storage shall be documented in the log and immediately reported to the official veterinarian or a designated Commission representative.
- (2) Provisions for split sample testing for TCO₂ analysis shall be arranged by the trainer or designee at the time of sampling. The trainer shall be responsible for the cost of split sample testing. The trainer or designee shall make arrangements for

payment prior to or at the time of sampling. Split sample analysis of TCO₂ must be run in parallel with the official sample at the official laboratory as described in C. of this rule.

- (3) A trainer or owner of a horse having been notified that a written report from a primary laboratory states that a prohibited substance has been found in a specimen obtained pursuant to these rules may request that a split sample corresponding to the portion of the specimen tested by the primary laboratory be sent to another laboratory approved by the Commission. The request must be made in writing and delivered to the stewards not later than three (3) business days after the trainer of the horse receives written notice of the findings of the primary laboratory. Any split sample so requested must be shipped within an additional 48 hours.
- (4) The owner or trainer requesting testing of a split sample shall be responsible for the cost of shipping and testing. Failure of the owner, trainer or designee to appear at the time and place designated by the official veterinarian shall constitute a waiver of all rights to split sample testing. Prior to shipment, the Commission shall confirm the split sample laboratory's willingness to simultaneously provide the testing requested, the laboratory's willingness to send results to both the person requesting the testing and the Commission, and arrangements for payment satisfactory to the split sample laboratory. If a reference laboratory will accept split samples, that laboratory must be included among the laboratories approved for split sample testing.
- (5) Prior to opening the split sample freezer, the Commission shall provide a split sample chain of custody verification form that shall provide a place for recording the following information and such other information as the official veterinarian may require. The form shall be fully completed during the retrieval, packaging, and shipment of the split sample. The split sample chain of custody form requirements are:
 - (a) The date and time the sample is removed from the split sample freezer;
 - (b) The sample number;
 - (c) The address where the split sample is to be sent;
 - (d) The name of the carrier and the address where the sample is to be taken for shipment;
 - (e) Verification of retrieval of the split sample from the freezer;
 - (f) Verification of each specific step of the split sample packaging in accordance with the recommended procedure;
 - (g) Verification of the address of the split sample laboratory on the split sample package;
 - (h) Verification of the condition of the split sample package immediately prior to transfer of custody to the carrier; and
 - (i) The date and time custody of the sample is transferred to the carrier.

- (6) A split sample shall be removed from the split sample freezer by a Commission representative in the presence of a representative of the horsemen's association.
- (7) The owner, trainer or designee shall pack the split sample for shipment in the presence of the representative of the Commission, in accordance with the packaging procedures recommended by the Commission. A form shall be signed by both the horsemen's representative and the Commission representative to confirm the packaging of the split sample. The exterior of the package shall be secured and identified with initialed tape, evidence tape or other means to prevent tampering with the package.
- (8) The package containing the split sample shall be transported in a manner prescribed by the commission to the location where custody is transferred to the delivery carrier charged with delivery of the package to the Commission-approved laboratory selected by the owner or trainer.
- (9) The owner, trainer or designee and the Commission representative shall inspect the package containing the split sample immediately prior to transfer to the delivery carrier to verify that the package is intact and has not been tampered with.
- (10) The split sample chain of custody verification form shall be completed and signed by the representatives of the Commission and the owner or trainer. A Commission representative shall keep the original and provide a copy for the owner or trainer.

E. Frozen Samples

The commission has the authority to direct the official laboratory to retain and preserve by freezing samples for future analysis. Positive Tests arising from this analysis are subject to penalties in effect on the date of the race. The fact that purse money has been distributed prior to the issuance of a laboratory report from the future analysis of a frozen sample shall not be deemed a finding that no drug substance prohibited by these rules has been administered.

F. Laboratory Minimum Standards

Laboratories conducting either primary or split post-race sample analysis must meet at least the following minimum standards.

- (1) A testing laboratory must be accredited by an accrediting body designated by the Association of Racing Commissioners International to standards set forth and required by the Commission or the Association of Racing Commissioners International.
- (2) A testing laboratory must have, or have access to, LC/MS instrumentation for screening and/or confirmation purposes.
- (3) A testing laboratory must be able to meet minimum standards of detection, which is defined as the specific concentration at which a laboratory is expected to detect the presence of a particular drug and/or metabolite or by the adoption of a regulatory threshold.

ARCI-011-025 Trainer Responsibility

The purpose of this subsection is to identify responsibilities of the trainer that pertain specifically to the health and well being of horses in his/her care.

AAEP GUIDELINES FOR THE NECROPSY OF RACEHORSES

General Guidelines

The AAEP recommends that all horses that die or are euthanized at a licensed racetrack or training facility undergo a complete necropsy by a board-certified veterinary pathologist at an accredited veterinary diagnostic laboratory. Necropsy findings should be entered into The Jockey Club Equine Injury Database.

It is recommended that regular communication and interaction between the on-site regulatory veterinarian(s), practicing racetrack veterinarians, and the pathology staff at the diagnostic laboratory be established. This will enhance the necropsy process and the resultant information. It will also facilitate collaborative efforts when specific research interests are identified.

Transportation options for necropsy cases should be identified prior to need. Storage, pending transport, and transportation of the body should be managed in such a way that tissue degradation and the development of post-mortem artifacts are minimized. Care should also be taken to employ good infection control practices with respect to equine infectious and/or zoonotic disease.

If time or distance constraints preclude the transport of a deceased horse to the veterinary diagnostic laboratory, a field necropsy is recommended.

Field Necropsy

It is recommended for racetracks where field necropsy must be performed that a dedicated facility be available for performing necropsies. This facility should be located in a secluded area and be enclosed and covered for both privacy and protection from the elements. (A temperature-controlled environment is recommended in areas where extreme weather conditions may exist.) Facility design should allow an equine ambulance to drive through. The enclosure should contain a large, well-drained concrete or asphalt slab with a rough finish providing adequate traction. Ample hot and cold water supply and hose are required to clean the area. Disinfection and/or sanitization protocols should be employed following each necropsy.

Field necropsy requires advance communication with carcass removal companies to determine requirements to insure that necropsied remains can be removed. Carcass removal and disposal should be performed by a licensed animal disposal company and in compliance with local, state, and federal regulations.

Regulatory veterinarians are encouraged to seek guidance from veterinary pathologists to establish field necropsy protocols. Minimum standards for field necropsy are as follows:

For appendicular injuries, the affected limb at the site of the injury should undergo gross dissection (+/- diagnostic imaging, toxicology, histopathology) and appropriate documentation of findings (written

description and photography). The necropsy report should include identification of the affected anatomical structure(s) including a description of gross lesions found in bones, joints, ligaments, tendons, skin and blood vessels.

For non-appendicular conditions, reasonable effort should be made to determine and document the cause of death. For sudden death occurring during or immediately after a race, the cardiovascular and respiratory systems warrant as comprehensive an examination as is possible.

Race-related Fatalities

For race-related fatalities, a ‘best practice’ inquest protocol is recommended that incorporates ante-mortem information (examples include: interviews with personnel relevant to the horse and/or the incident, exercise history, race replay video, medical history) and post-mortem findings.

Ante- or immediately post-mortem blood samples (and urine, when available) should be collected, maintained under chain of custody protocols, and submitted to the official racing laboratory.

Approved by the AAEP Board of Directors, August 2009.

- (g) Presently has drugs (controlled substances) or alcohol in his or her body. With regard to alcohol, the results of a breathalyzer test showing a reading of more than .05 percent of alcohol in the blood shall be the criterion for a finding of alcohol present in the body. With regard to other controlled substances, presence of the drug in any quantity measured by the testing instrument establishes the presence of the drug for purposes of this paragraph.
- (3) At its discretion, the Commission may conduct random or episodic random drug testing, as well as testing based on reasonable suspicion, in order to ensure safety on the racetrack.
- (4) When conducted, random drug testing shall apply, equally, to all licensees who are, at the time of the random testing, exercising the privileges of their license in such ways as may affect the outcome of a race or diminish the conditions of safety or decorum required in restricted areas.
- (5) No notice need be given as to onset or cessation of random testing.

- (9) All costs for the transportation and testing for the sample portion made available for the licensee shall be the financial responsibility of the requesting person.
- (10) Payment shall be due from the requesting person within 30 days of receipt of notice of the costs.
- (11) A licensee penalized or restricted pursuant to this chapter shall retain rights of due process with respect to any determination of alleged violations which may adversely affect the right to hold a license.
- (12) If there has been a violation, under number 2 above, the following procedures will be followed:
- (13) The Commission may, at its discretion, order the licensee to obtain a professional assessment to determine whether there is a substantial probability that the licensee is dependent on, or abuses, alcohol or other drugs or the Commission may act on the information at hand.
- (14) Actions in the case of first violators may include revocation of the license, suspension of the license for up to six months, placing the violator on probation for up to 90 days or ordering formal assessment and treatment.

Required features of any program or practitioner acceptable to the Commission will be:

- (19) For third-time violators, the violator's license may be revoked and the violator may be deemed ineligible for licensure for up to five years.
- (20) Although relapse (failure to maintain abstinence) is not inevitable, it is common for relapse to occur in recovery from alcoholism or other substance dependence. Therefore, a licensee who is engaged in a formal program of recovery, and is compliant with all provisions other than abstinence, will not be regarded automatically as having committed a new violation.
- (21) When a licensee is determined to have failed in maintaining abstinence, the licensee shall furnish to the Commission an assessment by the treating agency, hospital or individual practitioner indicating whether the licensee was compliant with the agreed upon program of recovery, and an opinion as to whether a "new violation" occurred.
- (22) The Commission will determine whether a new violation has occurred in each instance. If a new violation has occurred, the Commission will proceed under numbers 13-15 above or numbers 16-18 above. Otherwise, the licensee shall continue in the agreed upon program of recovery.

- (25) A nominator is liable for the entrance money or stakes and the death of a greyhound or a mistake in its entry when eligible, does not release the nominator or transferee from liability for stakes.
- (26) Entries which have closed shall be immediately compiled and conspicuously posted by the racing secretary.
- (27) No entry or transfer shall be considered complete until it is approved by the judges.
- (28) There shall be at least seven greyhounds of different ownership entered in all purse races, unless otherwise authorized by the commission. No trainer or owner shall have more than two greyhounds in any race with the exception of stakes or feature races without the approval of the Commission. In all other purse races, the following conditions shall apply:
 - (a) no double entries shall be allowed until all single interests are used and double entries shall be uncoupled for wagering purposes; and
 - (b) the racing secretary may use a double entry without the permission of the trainer when no single entry is available.
- (29) Entries for stakes races with previously published conditions shall close at the time advertised in such publication, and no entry shall be received after that time. However, additional time may be granted by the racing secretary and approved by the Commission in any such race which fails to fill as scheduled.
- (30) The racing secretary shall determine the starters for a race if the number of entries to any stakes race is in excess of the number of greyhounds that may be permitted to start because of course limitations.
- (31) The association shall have the right to withdraw or change the conditions of any unclosed race.
- (32) Entrance and declarations for a stakes race which close during or on the eve of racing meets shall close at the office of the racing secretary who shall make provisions therefor unless other notice is given. Closing for stakes races at all other times shall be at the business office of the association.
- (33) Entries and declarations for a stakes race cannot be received after the hour designated for closing. However, if an hour is not designated, they may be mailed, transmitted by facsimile machine or telephoned up to midnight of the day of closing, provided they are received in time for compliance with every other condition of the race.
- (34) If an error pertaining to any entry or declaration in a stakes race is alleged, satisfactory proof of such must be presented prior to any qualifying races or the draw.
- (35) Every greyhound entered in an official race must be started unless the greyhound is withdrawn or scratched.
- (36) The entrance money, starting and subscription fees, in every race shall go to the winner unless otherwise provided in the conditions of the race. However, when a race is not run, all stakes or entrance money shall be refunded.

- (1) The withdrawal of a greyhound is irrevocable and shall only be made by its trainer.
- (2) A withdrawal shall be made to the racing secretary or his/her assistant at least one half hour before the time designated for the drawing of post positions, or at such time as the racing secretary may appoint.
- (3) To scratch a greyhound entered in a race, sufficient cause must be given to satisfy the judges. All scratches and the cause must be reported immediately to the board of judge(s).
- (4) Greyhounds that have been scratched from an official start may be required by the association or the judges to satisfactorily complete an official schooling race prior to being re-entered for an official race.
- (5) If three or more greyhounds are withdrawn or scratched in any one race, the judges may cancel the race.
- (6) The judges may scratch a greyhound entered in a race for not being present for weigh-in at the appointed time or for other sufficient cause(s).
- (7) The judges may impose a penalty on the person responsible for causing the scratch if it could have been prevented by exercising reasonable care.

ARCI-017-040 Post Positions

The starting post positions for each race shall be assigned by lot or drawing, including computerized drawing, supervised by the Commission judge or his/her designee and the racing secretary, at a time and place properly posted in the paddock, at least one day prior to the running of the race, so that owners, trainers or authorized agents may be present.

Adopted in Version 1.4 ARCI 8/27/02 NAPRA 10/2/02

ARCI-017-045 Weights and Weighing

- (1) All greyhounds must be weighed not less than one hour and not more than two hours before the time of the first race of the performance unless a later time has been designated or approved by the Commission.
- (2) The weigh-in time shall be limited to a 30-minute period unless an extension has been granted by the Commission judge or approved by the Commission.
- (3) Before a greyhound is allowed to school or race at any racetrack, the owner or trainer must establish its racing weight with the clerk of scales. Greyhounds starting without schooling must use previous established weight.
- (4) At weighing-in time, should there be a variation of more than one and one-half pounds either way from its established weight, the judges shall order said greyhound scratched.
- (5) At weighing-out time, if a greyhound loses weight in excess of three pounds from its weighing-in weight while in the lock-out kennels, the judges shall order the

greyhound scratched unless the official veterinarian certifies that such loss of weight does not impair the racing condition of the greyhound.

- (6) If at weighing-in time, there is more than two pounds variation between the weight for a greyhound's present race and the weight at weigh-in time of its last race, the judges shall order the greyhound scratched.
- (7) The established racing weight may be changed from time to time on written request of the trainer and by written consent of the judges, providing the change is made four calendar days before the greyhound is allowed to race at the new weight.
- (8) All greyhounds having an established weight change of more than one pound must be schooled at least once; or more at the discretion of the judges, at the new established weight before being eligible to start. Greyhounds that have not raced or schooled officially for a period of three weeks will be allowed to establish a new racing weight with the written consent of the judges and may be officially schooled immediately upon receipt of the written consent.
- (9) The judges may order a greyhound to be weighed at any time from the time it is entered in a race until post time for that race.
- (10) Immediately after being weighed-in, the greyhounds shall be placed in lock-out kennels.

ARCI-017-050 Running of the Race

- (1) All greyhounds must be exhibited in the paddock before post time of the race in which they are entered.
- (2) Muzzles and blankets must be examined in the paddock, during the post parade and before the greyhound is placed in the starting box.
- (3) All persons shall be excluded from the race course when the greyhounds leave the paddock with the exception of racing officials and necessary attendants.
- (4) All greyhounds must wear an approved muzzle and blanket while racing.
- (5) Blinker muzzles must be approved by the judges.
 - (a) Trainers may seek permission from the judges to equip a greyhound with a blinker muzzle.
 - (b) All blinkers must be furnished by the trainer and must be firmly attached to the racing muzzle without the use of glue, tape or wire. Each blinker muzzle employed is subject to the approval of the judges.
 - (c) All blinkers must be black or brown in color and made of leather material or hard plastic.
 - (d) Greyhounds approved and outfitted with blinker muzzles must wear that equipment for every race they participate in.
 - (e) Trainers may seek the approval of the judges to withdraw use of a blinker muzzle.

- (6) In case of mechanical failure with the starting box, the greyhounds shall be removed from the starting box. The judges shall determine whether the race will be declared a no race or will be run after the malfunction is repaired.
- (7) If a greyhound is left in or refuses to leave the box when the doors of the starting box open at the start, it shall be considered a starter.
- (8) The judges shall observe the operation of the lure to ensure consistency of its operation.
- (9) If it appears that a greyhound may interfere with the running of the race because of failure to leave the box, because of an accident or for any other reason, any attendant stationed around the course may remove the greyhound from the course. The greyhound shall be considered a starter.
- (10) If a greyhound leaves the course, it shall be disqualified. However, the greyhound shall be considered a starter.
- (11) If a greyhound leaves the course, or runs in the opposite direction during the running of the race, and in so doing, the greyhound, in the opinion of the judges, interfered with any other greyhound in the race, the judges shall declare it no race, except when, in the opinion of the judges, said interference clearly did not interfere with the outcome of the race.
- (12) No race shall be declared official unless the lure is in advance of the greyhounds at all times during the race. If at any time during the race, any greyhound catches or passes the lure, the judges shall declare it no race.
- (13) If a race is marred by jams, spills or racing circumstances other than accident to the machinery while a race is being run, and three or more greyhounds finish, the judges shall declare the race finished; but if less than three greyhounds finish, the judges shall declare it no race and all monies shall be refunded.

ARCI-017-055 Dead Heats

- (1) When greyhounds run a dead heat for first place, all monies and prizes for first and second place which such greyhounds would have been entitled shall be divided equally between them. Each greyhound shall be deemed a winner.
- (2) Likewise, when greyhounds run a dead heat for second place, they shall divide the second and third monies.
- (3) When greyhounds run a dead heat for third place, they shall divide the third and fourth monies.
- (4) When greyhounds run a dead heat for fourth place or lower, for which a purse is paid, they shall divide the total purses due those finishing positions in the same manner as above.
- (5) If the dividing owners cannot agree as to which of them is to receive the prize which cannot be divided, the question shall be determined by lot or drawing in the presence of one or more of the judges.

- (2) Permission of the judges is necessary before an objection can be withdrawn.
- (3) It is a violation to file a frivolous objection or an objection without foundation.
- (4) Objections shall be filed with the judges within 48 hours from the time the race is run in which the greyhound that occasioned the objection participated. From every decision an appeal in writing may be made to the Commission within 48 hours of the time the objector has been officially informed of said the decision.
- (5) Objections pertaining to a greyhound engaged in a race may be made by the kennel operator or trainer of some other greyhound engaged in the same race.
- (6) Objection to any decision of the clerk of scales shall be made before the greyhounds leave the paddock for the start of the race.
- (7) Pending a decision on the objection, any prize or money shall be withheld until the objection is determined.
- (8) In all cases of fraud or willful deception, the time limitation shall not apply; provided the judges are satisfied that the allegations are bona-fide.
- (9) If an objection is declared valid, the judges shall determine the new order of finish and the redistribution of all purse monies. The judges' decision shall not affect the pari-mutuel payout.

Adopted in Version 1.4 ARCI 8/27/02 NAPRA 10/2/02

ARCI-017-065 Purses

ARCI-018-020 Medications and Drugs

- (1) A person shall not administer or apply or cause to be administered or applied any unauthorized medication to any greyhound participating in a race.
- (2) Urine, blood and other specimens from greyhounds shall be taken and tested as the judges of the race meeting or the Commission's representatives may designate. Such tests shall be under the supervision of the Commission. The specimens shall be

collected by the veterinarian or such other person as the Commission may designate.

- (3) If the judges find that any foreign substance has been administered internally or externally, to a greyhound before a race, the judges shall impose a sanction they deem proper under any of the rules, including reference to the Commission, against every owner and/or lessee and/or trainer responsible for the proper care and protection of the greyhounds involved and against every person found by them to have administered or have attempted to administer or have caused an attempt to administer or to have conspired with another person to administer such foreign substance.
- (4) Foreign substances which are shown to come through the food chain may have a tolerance level set for the substance by the Commission.
- (5) The kennel operator, trainer, lead-out or any other person having charge, custody or care of the greyhound is obligated to protect the greyhound properly and guard it against such administration or attempted administration, and if the judges find that any person has failed to show proper protection and guarding of the greyhound, or if the judges find that any kennel operator and/or lessee and/or trainer is guilty of negligence with respect thereto, they shall impose a sanction they deem proper under any of the rules including reference to the Commission.
- (6) The owner and/or lessee of the greyhound so found to have received administration shall be denied or shall promptly return any portion of the purse or stakes together with any trophy in such race and the same shall be distributed as in the case of a disqualification. If a greyhound is disqualified in a race because of this rule the eligibility of other greyhounds which ran in the race and which have started in a subsequent race before announcement of the disqualification shall not be affected.
- (7) The kennel operator, trainer or authorized representative shall be present in the testing area when a post race urine or other specimen is taken from his/her greyhound and shall remain until the sample tag is signed by the kennel operator, trainer or authorized representative as witness to the taking of the specimen.
- (8) The Commission may determine that pre-race testing or sampling is required. If this type of testing or sampling is instituted, the requirements of section 7 of this rule shall not be in effect.
- (9) Refusal to allow the taking of any specimen or refusal to sign the specimen tag to the taking of a specimen, or any act or threat to impede, prevent or otherwise interfere with shall be reported to the judges.
- (10) The representative of the Commission may take for analysis samples of any medicine or other materials suspected of containing improper medications or drugs which could affect the racing conditions of a greyhound in a race.
- (11) Any portion of the purse shall be redistributed as ordered by the judges in accordance with the provisions of this section. This rule shall apply only to the amount payable to the owner or owners of the disqualified greyhound and shall not prevent payment due to other greyhounds in the race.

- (12) Every kennel operator, trainer or authorized agent shall immediately, whenever requested by the judges, submit any greyhound under his/her authority to any veterinarian designated by the judges for such examination or tests as the veterinarian may deem advisable.
- (13) Any test or examination made by the veterinarian designated by the judges may be witnessed by the judges or their representatives, the kennel operator, his/her authorized agent or the trainer of the greyhounds so examined or tested.
- (14) No person except a licensed veterinarian shall have in his/her possession within any racetrack enclosures any hypodermic syringe or needle or any instrument capable of administering a medication, foreign substance or injectable. Persons in possession of hypodermic syringes and/or needles for personal medical use shall file written notification of their medical condition with the board of judges.
- (15) The Commission may authorize a designee to enter into or upon the buildings, rooms or other places within the association grounds to examine the same and to inspect and examine the personal property and effects of any person. Licensees consent to the search and seizure of prohibited substances or articles.
- (16) Any usage of anabolic steroids involving racing greyhounds is prohibited, except that the administration of oral, or as otherwise prescribed by a licensed veterinarian, testosterone shall be permitted for the control of estrus in female racing greyhounds provided it is validly prescribed and properly labeled.
- (17) The Commission may conduct pre-race and post-race testing to determine whether a prohibited substance was present in a race animal.
- (18) The Commission's rules further provide that the licensed trainer of an animal is:
 - (a) Considered by law to be the absolute insurer that no prohibited substance has been administered to the animal; and
 - (b) Is responsible for ensuring that no prohibited substance is administered to the animal.
- (19) A prohibited drug, chemical, or other substance includes:
 - (a) Any stimulants, depressants, tranquilizers, local anesthetics, drugs, [or] other drug metabolites which could affect the health or performance of a race animal, however minimal, except as expressly permitted by this chapter;
 - (b) A drug permitted by this chapter in excess of the maximum or other restrictions in this chapter; and
 - (c) A drug or substance, regardless of how harmless or innocuous it might be, which interferes with the detection of stimulants, depressants, tranquilizers, local anesthetics, drugs, or drug metabolites which could affect the health or performance of a race animal, however minimal, or quantitation of drugs permitted by this chapter.
- (20) **CLASSIFICATION SYSTEM:** (The classification of substances is based largely on the Uniform Classification Guidelines for Foreign Substances issued by the Association of Racing Commissioners International. The classification of a given

substance is based on several factors, including the substance's pharmacology, its ability to influence the outcome of a race, whether or not it has a legitimate therapeutic use, or other evidence that it may be used improperly.

- a. **Pharmacology.** Substances that are known to be potent stimulants or depressants are placed in higher classes, while those that have or would be expected to have little effect on the outcome of a race are placed in lower classes.
- b. **Use Patterns.** Consideration is given to placement of substances based on practical experience with their use and the nature of positive tests. For example, procaine positives have in the past been associated primarily with the administration of procaine penicillin, and this has been taken into consideration in the placement of procaine into Class 6 instead of Class 3 with other injectable local anesthetics.
- c. **Appropriateness of Use.** Substances that clearly are intended for use in canine therapeutics are placed in lower classes. Substances that clearly are not intended for use in the greyhound are placed in higher classes, particularly if they might affect the outcome of a race. Substances that are recognized as legitimately useful in canine therapeutics but could affect the outcome of a race are placed in the middle or higher classes.)

(21) **Classification System Class 1:** *Class 1 substances have the highest pharmacologic potential to affect performance and have no generally accepted medical use in racing greyhounds.*

- a. Opiates and opium derivatives, synthetic opioids, psychoactive drugs in DEA Schedules I and II, including: Alfentanil, Apomorphine, Carfentanil, Cocaine, Codeine, Etorphine, Fentanil, Hydromorphone, Levorphanol, Methadone, Morphine, Oxycodone, Oxymorphone, PCP, Sufentanil, Methaqualone.
- b. Amphetamines or amphetamine-like drugs in DEA Schedules I and II, including: Amphetamine, Methamphetamine, Methylphenidate

(22) **Class 2 Substances:** *Class 2 substances are prominent central nervous system stimulants in the lesser DEA Schedules.*

- a. Opiates and opium derivatives with accepted medical use but not listed solely as Schedule I or II drugs, including: Buprenorphine, Meperidine, Nalorphine, Pentazocine, Racemorphan, Racemethorphan, Valium, Chloral hydrate, Droperidol, Meprobromate, Methohexital.
- b. Stimulants in lesser DEA schedules, including: Benzphetamine, Diethylpropion, Mazindol, Pemoline.

(23) **Class 3 Substances:** *Class 3 substances are non-scheduled drugs that have no generally accepted therapeutic use in racing greyhounds, drugs that could alter performance in a normal, healthy untreated racing greyhound, drugs that have a high potential for abuse as local anesthetics, and potent diuretics with potential for diluting a urine specimen.*

- a. Non-scheduled opiates including: Nalbuphine
- b. Narcotic analgesics in lesser DEA schedules, including: Butorphanol
- c. Local anesthetics with high potential for abuse as nerve-blocking agents, including: Mepivacaine, Tetracaine, Xylocaine.
- d. Sympathomimetics and other central nervous system stimulants unlikely to be picked up through the food chain, including: Aminophylline, Dopram, Ephedrine, Metaraminol, Phenylpropanolamine, Theophylline, Wyamine sulfate.
- e. Non-scheduled central nervous system depressants and tranquilizers including: Acepromazine, Azaparone, Chlorpromazine, Detomidine, Fluphenazine, Ketamine, Promazine, Propiopromazine, Reserpine.
- f. Diuretics likely to significantly dilute a urine specimen including: Bumetanid, Ethacrynic acid, Furosemide.

(24) **Class 4:** *Class 4 substances are non-scheduled drugs with cardiac or respiratory effects, mild sedatives, steroidal anti-inflammatory drugs with short withdrawal times indicating race day administration.*

- a. Autonomic nervous system drugs with primarily cardiac or respiratory systems, including: Albuterol, Atropine, Epinephrine, Metaproteranol, Norepinephrine, Phenoxybenzamine, Phenylphrine, Propranolol, Terbutaline.
- b. Local anesthetics with less potential for use as nerve blocking agents, including: Ethylaminobenzoate.
- c. Antihistamines with mild sedative properties, including: Diphenhydramine, Doxylamine, Promethazine.
- d. Corticosteroids with short withdrawal times indicating race day administration, including: Betamethasone, Dexamethasone, Prednisolone.
- e. Sympathomimetics and other central nervous system stimulants with some likelihood of appearing through the food chain, including: Caffeine, Theobromine.
- f. Depressants with some likelihood of appearing through the food chain, including: Barbiturates.

(25) **Class 5:** *Class 5 substances are therapeutic medications routinely used to restore the health of an ailing greyhound.*

- a. Anti-inflammatory drugs, including: Salicylate, Phenylbutazone, Flunixin, Ibuprofen, Naproxen, Tiaprofenic acid, Zomepriac, Feldene, Dipyrone.
- b. Mild diuretics not traditionally used as diluting agents which are likely to be found in combination with other medication in an anti-inflammatory product, including: Trichloromethiazide.
- c. Autonomic nervous system drugs without central nervous system, cardiac, or respiratory effects, including: Bethanecol, Ergonovine, Ergotamine, Glycopyrrolate, Propantheline

- d. Antihistamines without central nervous system depressant effects, including: Chlorpheniramine, Cimetidine, Pyrilamine, Tripelennamine.
- e. Skeletal muscle relaxants, including: Dantrolene, Guaifenesin, Methocarbamol, Nefopam, Orphenadine.
- f. Expectorants or stomachics, including: Camphor, Dextromethorphan, Metoclopramide.
- g. Peroxide scavengers or mild anti-inflammatory carry agents, including: DMSO, Cardiac glycosides or antiarrhythmics, including: Digoxin, Procainamide, Quinidine, Verapamil.

(26) **Class 6:** *Class 6 substances are local anesthetics likely to produce urinary levels due to factors other than use as a nerve blocking agent.*

- a. Procaine
- b. Substances are likely to interfere with testing procedures, including: Sulfa drugs, Polyethylene glycol, Mebendazole, Fenbendazole.

(27) **PENALTY DETERMINATIONS**

- a. When determining the amount of a penalty, the judges should consider what penalty would best punish the violator for the harm caused by the violation and deter future similar violations by the violator and other licensees.
- b. The judges should avoid blindly assessing "consistent" penalties without regard to the specifics of each case. Each violation must be reviewed according to the individual circumstances of the case. The Commission intends for the Board of Judges to use the qualifications, experience, and collective wisdom of its members to act as an adjudicatory body when considering violations of the Rules. To ensure due process for the affected licensees, every violation must be judged on the evidence presented to the judges, with the judges weighing the evidence and the credibility of the witnesses.

(28) **Mitigating/Aggravating Circumstances**

- a. Because the facts of each case will vary, an exhaustive list of mitigating or aggravating circumstances is not practical. Generally, mitigating or aggravating circumstances must be shown by persuasive, credible evidence that the circumstances were actually present in the instant case, not mere speculation that the circumstances could have been present. An example of mitigating circumstances is when the trainer presents credible evidence that another individual actually caused the greyhound to race with a prohibited substance in its system. An example of aggravating circumstances is when the staff or other party to the proceeding presents credible evidence that the trainer administered a prohibited substance or

permitted a prohibited substance to be administered despite warnings that the administration of the substance would likely result in a positive test.

- b. The amount of the substance in a sample should not be considered a mitigating or aggravating factor. The definition of a prohibited substance adopted by the Commission establishes a zero-tolerance standard. In other words, the presence in a post-race sample of any amount of a prohibited drug, chemical, or other substance is a per se violation of the Commission's rules.

(29) PENALTY RECOMMENDATIONS

- a. The following recommended penalties should be followed in all cases in the absence of persuasive, credible evidence of mitigating circumstances justifying a lesser penalty or aggravating circumstances justifying an enhanced penalty.
- b. The recommended penalties for medication violations offer a range of penalties, including fines, suspension, and loss of purse. By offering a range of penalty, it is the intent of the Commission that for a first violation involving a particular substance, the penalty would be at the lower end of the range, absent mitigating or aggravating circumstances.
- c. Conversely, for a subsequent violation for a particular substance, the penalty would be at the higher end of the range. The penalty should be enhanced for subsequent violations regardless of when the subsequent violations occur with respect to the first violation.
- d. Because a licensee's compliance history with respect to a particular substance is incorporated into the recommended penalties, the licensee's overall compliance history should not be considered a mitigating circumstance.

(30) In all cases, however, the judges have the discretion to impose the penalty that best accomplishes the Commission's enforcement goals:

- a. To protect the health and safety of the participants in racing, including licensees, patrons, and race animals.
- b. To ensure pari-mutuel racing is conducted honestly and fairly.

(31) VIOLATIONS INVOLVING POSITIVE TESTS

 - (g) Presently has drugs (controlled substances) or alcohol in his or her body. With regard to alcohol, the results of a breathalyzer test showing a reading of more than .05 percent of alcohol in the blood shall be the criterion for a finding of alcohol present in the body. With regard to other controlled substances, presence of the drug in any quantity measured by the testing instrument establishes the presence of the drug for purposes of this paragraph.

The Association of Racing Commissioners International
Model Rules of Racing

- (3) At its discretion, the Commission may conduct random or episodic random drug testing, as well as testing based on reasonable suspicion, in order to ensure safety on the racetrack.
- (4) When conducted, random drug testing shall apply, equally, to all licensees who are, at the time of the random testing, exercising the privileges of their license in such ways as may affect the outcome of a race or diminish the conditions of safety or decorum required in restricted areas.
- (5) No notice need be given as to onset or cessation of random testing.
- (6) For licensees who are tested under the provisions in this chapter, and whose testing shows the presence of drugs (controlled substances) or alcohol, any field screening test results shall be confirmed by a laboratory acceptable to the Commission which shall include Gas Chromatography/ Mass Spectrometry (GC/MS) procedures.
- (7) When the sample quantity permits, each test sample shall be divided into portions so that one portion may be used for the confirmation procedure and another portion may be utilized by the licensee to obtain an independent analysis of the urine sample.
- (8) The Commission shall provide for a secure chain of custody for the sample to be made available to the licensee.
- (9) All costs for the transportation and testing for the sample portion made available for the licensee shall be the financial responsibility of the requesting person.

- (12) If there has been a violation, under number 2 above, the following procedures will be followed:
- (13) The Commission may, at its discretion, order the licensee to obtain a professional assessment to determine whether there is a substantial probability that the licensee is dependent on, or abuses, alcohol or other drugs or the Commission may act on the information at hand.
- (14) Actions in the case of first violators may include revocation of the license, suspension of the license for up to six months, placing the violator on probation for up to 90 days or ordering formal assessment and treatment.
- (15) Treatment or assessment, if ordered, must meet the conditions given in numbers 1618 below.
- (16) The license of the person may be revoked or suspended for a period of up to one year or a professional assessment of the person may be ordered by the Commission.
- (17) If a professional assessment indicates presence of a problem of alcohol or other drug abuse that is not treatable within the reasonably foreseeable future (360 days) the license may be suspended for a period of up to one year.

- (18) If a professional assessment indicates presence of a treatable problem of alcohol or other drug abuse or dependence, the Commission may order the licensee to undergo treatment as a condition of continuing licensure. Such treatment will be through a program or by a practitioner, acceptable to the licensee and the Commission. Required features of any program or practitioner acceptable to the Commission will be:

- (19) For third-time violators, the violator's license may be revoked and the violator may be deemed ineligible for licensure for up to five years.
- (20) Although relapse (failure to maintain abstinence) is not inevitable, it is common for relapse to occur in recovery from alcoholism or other substance dependence. Therefore, a licensee who is engaged in a formal program of recovery, and is compliant with all provisions other than abstinence, will not be regarded automatically as having committed a new violation.
- (21) When a licensee is determined to have failed in maintaining abstinence, the licensee shall furnish to the Commission an assessment by the treating agency, hospital or individual practitioner indicating whether the licensee was compliant with the agreed upon program of recovery, and an opinion as to whether a "new violation" occurred.
- (22) The Commission will determine whether a new violation has occurred in each instance. If a new violation has occurred, the Commission will proceed under numbers 13-15 above or numbers 16-18 above. Otherwise, the licensee shall continue in the agreed upon program of recovery.

- (12) A post-race urinalysis test may be taken from any horse claimed out of a claiming race. The trainer of the horse at the time of entry for the race from which the horse was claimed shall be responsible for the claimed horse until the post-race urine sample is collected.

- (16) The claiming price shall be paid to the owner of the horse at the time entry for the race from which the horse was claimed only when the judges are satisfied that the

successful claim is proper and the documentation has been received by the presiding judge for transfer to the new owner.

- (17) The judges, at the option of the claimant, shall rule a claim invalid if the horse has been found ineligible for the event from which it was claimed.
- (18) Mares and fillies who are in foal are ineligible for claiming races. Upon receipt of the horse, if a claimant determines within 48 hours that a claimed filly or mare is in foal, he/she may, at their option, return the horse to the owner of the horse at the time of entry for the race from which the horse was claimed.
- (19) When the judges rule that a claim is invalid and the horse is returned to the owner of the horse at the time of entry for the race in which the invalid claim was made:

The race to which the transfer may be made must be the one nearest the date of the event originally nominated to. Two-year-olds, three-year-olds, or four-year-olds, nominated in classes for their age, may only transfer to classes for the same age group at the adopted gait to the race nearest the date of the event they were originally nominated to, and entry fees to be adjusted.

If the race is split and raced in divisions, the provisions of 22 below shall apply. Provided further that where overnight races are split and raced in eliminations rather than divisions, all starting fees payable under the provisions of this rule shall be added to the advertised purse.
- (21) Where a race other than a stake or futurity is divided, each division must race for at least ___ percent of the advertised purse.
- (22) In added money events conducted in eliminations, starters shall be divided by lot. Unless conditions provide otherwise, _____ percent of the total purse will be divided equally among the elimination heats. The final heat will be contested for ___ percent of the total purse. - (26) In a two-in-three race, a horse must win two heats to win a race and there shall be ___ percent set aside for the race winner. Unless conditions state otherwise, the purse shall be divided and awarded according to the finish in each of the first two or three heats, as the case may be. If the number of advertised premiums exceeds the number of finishers, the excess premiums shall go to the winner of the heat. The fourth heat, when required, shall be raced for ___ percent of the purse set aside for the race winner. In the event there are three separate heat or dash winners and they alone come back in order to determine the race winner, they will take post positions according to the order of their finish in the previous heat. In a two-year-old race, if there are two heat winners and they have made a dead heat in the third heat, the race shall be declared finished and the one standing best in the summary shall be awarded the ___ percent. If the two heat winners make a dead heat and stand the same in the summary, the ___ percent shall be divided equally among them.

- (3) At all extended pari-mutuel race meetings declarations for overnight events shall be governed by the following:
 - (a) Before racing at a chosen gait, a horse must go a qualifying race at that gait under the supervision of a licensed judge and acquire at least one clean charted line by a licensed charter. In order to provide complete and accurate chart information on time and beaten lengths, a standard photo finish shall be in use.
 - (b) Any horse that fails to race within ___ days of its last start must go a qualifying race as set forth in a) above. However, at any race meeting this period can be extended up to ___ days upon receiving approval of the Commission. The time period allowed shall be calculated from the date of the last race to and including the date of declaration.
 - (c) When a horse has raced at a charted race meeting and then gone on to race meetings where the races are not charted the information from the uncharted lines may be summarized including each start and consolidated in favor of charted lines to include a charted line within the last ___ days before the horse is permitted to race. The consolidated line shall carry date, place, time, driver, finish, track condition and distance.
 - (d) The judges may permit a horse to qualify by means of a timed workout consistent with the time of the races in which the horse will compete in the event adequate competition is not available for a qualifying race.
 - (e) When, for the purpose of qualifying the driver, a horse is declared in to race in a qualifying race, its performance shall be applicable to the horse's eligibility to race and the chart line shall be marked to indicate driver qualifying.
 - (f) If a horse takes a win race record in either a qualifying race or a matinee race, such record must be prefaced with the letter "Q" wherever it appears.
- (4) The use of hobbles from race to track shall be at the sole discretion of the trainer and not precipitate qualifying a horse. - (5) A horse making a break in each of two consecutive races must qualify unless the breaks were equipment breaks or caused by interference.
- (6) A horse must qualify if:
 - (a) it is distanced for reasons other than interference, broken equipment or breaking stride; or

- (7) A charted line containing only a break or breaks caused by interference or an equipment break shall be considered a satisfactory charted line.

D. Coupled Entries

No horse may be added to a race as an also eligible unless the horse was drawn as such at the time declarations closed. No horse may be barred from a race to which it is otherwise eligible by reason of its preference due to the fact that it has been drawn as an also eligible. The owner or trainer of such a horse shall be notified that the horse is to race and it shall be posted at the racing secretary's office. A horse moved into the race from the also eligible list cannot be withdrawn except by permission of the judges. - (8) If the judges believe that a horse has been driven in an unsatisfactory manner due to lack of effort or a horse has been driven in an unsatisfactory manner for any other reason, they shall consider it a violation.
- (9) If a horse is suspected to have choked or bled during a race, the driver and/or trainer of that horse is required to report this to the judges immediately after the race. This information shall be contained in the official past performance line of that horse.
- (10) If, in the opinion of the judges, a driver is for any reason unfit or incompetent to drive, or is reckless in his/her conduct and endangers the safety of horses or other drivers in a race, after the positions have been assigned in the race he/she shall be removed and another driver substituted at any time and the offending driver may be subject to disciplinary action. The substitute driver shall be properly compensated.
- (11) A driver must be mounted in the sulky at all times during the race or the horse shall be placed as a non-finisher.
- (12) Shouting or other improper conduct in a race is forbidden.

- (14)** The use of any goading device, chain, spur, mechanical or electrical device or any other device other than a whip as allowed in the rules, upon any horse, shall constitute a violation.
- (15)** The possession of any mechanical or electrical goading device on the grounds of an association shall constitute a violation.
- (16)** The judges/ judges shall have the authority to disallow the use of any equipment or harness that they feel is unsafe or not in the best interests of racing.
- (17)** Whipping a horse by using the whip below the level of the shafts or the seat of the sulky or between the legs of the horse shall be a violation.
- (18)** When a horse breaks from its gait, it shall be considered a violation on the part of the driver for:
 - (a)** Failure to take the horse to the outside of other horses when clearance exists.
 - (b)** Failure to properly attempt to pull the horse to its gait.
 - (c)** Failure to lose ground while on a break.
 - (d)** If no violation has been committed, the horse shall not be set back unless a contending horse on his/her gait is lapped on the hindquarter of the breaking horse at the finish. The judges may set any horse back one or more places if in their judgment, any of the above violations have been committed, and the driver may be penalized.
- (19)** If, in the opinion of the judges, a driver allows a horse to break for the purpose of losing a race, the driver shall be subject to disciplinary action.
- (20)** The horse whose nose reaches the finish line first is the winner. If there is a dead heat for first, both horses shall be considered winners. Where the dashes or heats are of the same distance and the horses are tied in the summary, the winner of the faster dash or heat shall be entitled to the trophy. Where the dashes or heats are of the same time, both horses shall be considered winners and the entitlement of the trophy will be decided by lot.
- (21)** If, during the preliminary scores or during a race a driver is unseated in such a manner that he or she falls to the ground, the judges may direct the driver to report to the infirmary or to the emergency department of the nearest hospital for examination and receive written clearance to continue with driving assignments on that day of racing.
- (22)** If a horse is to warm up it must go its last warm-up on the same racing strip as it will compete on unless excused by the judges.
- (23)** If for any cause other than being interfered with, or broken equipment, a horse fails to finish after starting a race, that horse shall be ruled out of any subsequent heat of the same event. If it is alleged that a horse failed to finish a race because of broken

equipment, this fact must be reported to the paddock judge who shall make an examination to verify the allegation and report the findings to the judges.

- (24) Multiple Disqualifications. Should the judges determine more than one incident of interference is warranted in a race, they shall proceed as follows: (a) Resolve any/all incidents involving “lapped on breaks” at the finish,
- (b) Initiate placings (where warranted) in the order in which they occur during the actual live race from the start to the finish of the race,
 - (c) Make a conscious effort to place and maintain as placed, every and all horse(s) placed behind others for interference. Adopted in version 9.1 ARCI 08/09/19 modified language

EQUINE VETERINARY PRACTICES, HEALTH AND MEDICATION - CHAPTER 25

ARCI-025-005 Purpose

Adopted in Version 1.4 ARCI 8/27/02 NAPRA 10/2/02

Version 2.1 to 3.0 ARCI 4/3/04 NAPRA 4/3/04: Deleted and modified rule language

ARCI-025-010 Veterinary Practices

A. Veterinarians under Authority of Official Veterinarian

Veterinarians licensed by the Commission and practicing at any location under the jurisdiction of the Commission are under the authority of the official veterinarian and the judges. The official veterinarian shall recommend to the judges or the Commission the discipline that may be imposed upon a veterinarian who violates the rules.

B. Appropriate Role of Veterinarians

The following limitations apply to drug treatments of horses that are engaged in activities, including training, related to competing in pari-mutuel racing in the jurisdiction.

- (1) No drug may be administered except in the context of a valid veterinarian/client/patient relationship between an attending veterinarian, the horse owner (who may be represented by the trainer or other agent) and the horse. The owner is not required by this subdivision to follow the veterinarian's instructions, but no drug may be administered without a veterinarian having examined the horse and provided the treatment recommendation. Such relationship requires the following:
 - a. The veterinarian, with the consent of the owner, has accepted responsibility for making medical judgments about the health of the horse;
 - b. The veterinarian has sufficient knowledge of the horse to make a preliminary diagnosis of the medical condition of the horse;
 - c. The veterinarian has performed an examination of the horse and is acquainted with the keeping and care of the horse;
 - d. The veterinarian is available to evaluate and oversee treatment outcomes, or has made appropriate arrangements for continuing care and treatment;
 - e. The relationship is maintained by veterinary visits as needed, and;
 - f. The veterinary judgments of the veterinarian are independent and are not dictated by the trainer or owner of the horse.
- (2) No prescription drug may be administered except as prescribed by an attending veterinarian.
- (3) The trainer and veterinarian are both responsible to ensure compliance with these limitations on drug treatments of horses, except the medical judgment to recommend a drug treatment or to prescribe a drug is the responsibility of the veterinarian and the decision to proceed with a drug treatment that has been so recommended is the responsibility of the horse owner (who may be represented by the trainer or other agent).

C. Treatment Restrictions

- (1) Only licensed trainers, licensed owners, or their designees shall be permitted to authorize veterinary medical treatment of horses under their care, custody, and control at locations under the jurisdiction of the commission.
- (2) Prescriptions for horses at locations under the jurisdiction of the commission should be written and/or dispensed only by duly licensed veterinarians in the context of a valid veterinarian-client-patient relationship and based upon a specific medical diagnosis.
- (3) Except as otherwise provided by this subsection, no person other than a veterinarian licensed to practice veterinary medicine in this jurisdiction and licensed by the Commission may administer a prescription or controlled medication, drug, chemical or other substance (including any medication, drug, chemical or other substance by injection) to a horse at any location under the jurisdiction of the Commission.
- (4) Subsection C (3) does not apply to the administration of the following substances:

- (a) A recognized non-injectable nutritional supplement or other substance approved by the official veterinarian;
 - (b) A non-injectable substance on the direction or by prescription of a licensed veterinarian; or
 - (c) A non-injectable non-prescription medication or substance.
- (5) Subsections 4(a) through 4(c) do not waive the requirement to meet quantitative levels as required by the Controlled Therapeutic Medication Schedule, Version 2.2.
- (6) Any drug or medication for horses which is used or kept on association grounds and which, by federal law, state or provincial law, or racing commission regulation requires a prescription must be prescribed in compliance with applicable state or provincial statutes and regulations by a veterinarian who is duly licensed by either:
- (a) the commission in which the association grounds are located;
 - (b) the veterinary board in the state or province in which the association grounds are located; or
 - (c) the state or province in which the horse was located at the time of the examination, diagnosis, and prescription.
- (7) No person shall possess a hypodermic needle, syringe capable of accepting a needle or injectable of any kind on association grounds, unless otherwise approved by the Commission. At any location under the jurisdiction of the Commission, veterinarians may use only one-time disposable syringe and needle, and shall dispose of both in a manner approved by the Commission. If a person has a medical condition which makes it necessary to have a syringe at any location under the jurisdiction of the Commission, that person may request permission of the judges and/or the Commission in writing, furnish a letter from a licensed physician explaining why it is necessary for the person to possess a syringe, and must comply with any conditions and restrictions set by the judges and/or the Commission.
- (8) Practicing veterinarians shall not have contact with an entered horse within 24 hours before the scheduled post time of the race in which the horse is scheduled to compete except for the administration of furosemide under the guidelines set forth in ARCI-025-020 F. unless approved by the official veterinarian. Any unauthorized contact may result in the horse being scratched from the race in which it was scheduled to compete and may result in further disciplinary action by the judges.
- (9) Any horse entered for racing must be present on the association grounds [4]* 5 horse prior to the post time of the race they are enter in.

*(The RMTC recommended 4 hours the Joint Model Rules Committee after discussion changed it to 5 hours in order to allow the legal administration of Salix)

D. Veterinarians' Reports

- (1) Every veterinarian who treats a racehorse at any location under the jurisdiction of the Commission shall, in writing on the Medication Report Form prescribed by the Commission, report to the official veterinarian or other commission designee at the racetrack where the horse is entered to run or as otherwise specified by the commission, the name of the horse treated, any medication, drug, substance, or

procedure administered or prescribed, the name of the trainer of the horse, the date and time of treatment and any other information requested by the official veterinarian.

- (2) The Medication Report Form shall be signed by the practicing veterinarian.
- (3) The Medication Report Form must be filed by the treating veterinarian not later than post time of the race for which the horse is entered. Any such report is confidential and its content shall not be disclosed except in the course of an investigation of a possible violation of these rules or in a proceeding before the judges or the Commission, or to the trainer or owner of record at the time of treatment.
- (4) A timely and accurate filing of a Medication Report Form that is consistent with the analytical results of a positive test may be used as a mitigating factor in determining the nature and extent, if any, of a rule.

ARCI-025-020 Medications and Prohibited Substances

Upon a finding of a violation of these medications and prohibited substances rules, the judges shall consider the classification level of the violation as listed in at the time of the violation in the Uniform Classification Guidelines of Foreign Substances as promulgated by the Association of Racing Commissioners International and impose penalties and disciplinary measures consistent with the recommendations contained therein. The judges shall also consult with the official veterinarian to determine if the violation was a result of the administration of a therapeutic medication as documented in a veterinarian's Medication Report Form received per ARCI-011-010 (C). The judges may also consult with the laboratory director or other individuals to determine the seriousness of the laboratory finding or the medication violation. Penalties for all medication and drug violations shall be investigated and reviewed on a case by case basis. Extenuating factors include, but not limited to:

- (1) The past record of the trainer, veterinarian and owner in drug cases;
- (2) The potential of the drug(s) to influence a horse's racing performance;
- (3) The legal availability of the drug;
- (4) Whether there is reason to believe the responsible party knew of the administration of the drug or intentionally administered the drug;
- (5) The steps taken by the trainer to safeguard the horse;
- (6) The probability of environmental contamination or inadvertent exposure due to human drug use;
- (7) The purse of the race;
- (8) Whether the drug found was one for which the horse was receiving a treatment as determined by the Medication Report Form;
- (9) Whether there was any suspicious betting pattern in the race, and;
- (10) Whether the licensed trainer was acting on the advice of a licensed veterinarian.

As a result of the investigation, there may be mitigating circumstances for which a lesser or no penalty is appropriate for the licensee and aggravating factors, which may increase the penalty beyond the minimum.

A. Uniform Classification Guidelines

The following outline describes the types of substances placed in each category. This list shall be publicly posted in the offices of the official veterinarian and the racing secretary.

- (1) Class 1

Opiates, opium derivatives, synthetic opioids, psychoactive drugs, amphetamines, United States Drug Enforcement Agency (DEA) Schedule I drugs and many Schedule II. Also found in this class are drugs that are potent stimulants of the Central Nervous System (CNS). Drugs in this class have no generally accepted medical use in the racing horse and their pharmacologic potential for altering the performance of a racing horse is very high.

(2) Class 2

Drugs placed in this category have a high potential for affecting the outcome of a race. Most are not generally accepted as therapeutic agents in the racing horse. Many are products intended to alter consciousness or the psychic state of humans, and have no approved or indicated use in the horse. Some, such as injectable local anesthetics, have legitimate use in equine medicine, but should not be found in a racing horse. The following groups of drugs are placed in this class:

- (a) Opiate partial agonists, or agonist-antagonists;
- (b) Non-opiate psychotropic drugs. These drugs may have stimulant, depressant, analgesic or neuroleptic effects;
- (c) Miscellaneous drugs which might have a stimulant effect on the (CNS); (d) Drugs with prominent CNS depressant action;
- (e) Antidepressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects;
- (f) Muscle blocking drugs that have a direct neuromuscular blocking action;
- (g) Local anesthetics that have a reasonable potential for use as nerve blocking agents (except procaine); and
- (h) Snake venoms and other biologic substances, which may be used as nerve blocking agents.

(3) Class 3

Drugs placed in this class may or may not have an accepted therapeutic use in the horse. Many are drugs that affect the cardiovascular, pulmonary and autonomic nervous systems. They all have the potential of affecting the performance of a racing horse. The following groups of drugs are placed in this class:

- (a) Drugs affecting the autonomic nervous system that do not have prominent CNS effects, but which do have prominent cardiovascular or respiratory system effects. Bronchodilators are included in this class;
- (b) A local anesthetic that has nerve blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anesthetic effect of the drug (procaine);
- (c) Miscellaneous drugs with mild sedative action, such as the sleep inducing antihistamines;
- (d) Primary vasodilating/hypotensive agents; and
- (e) Potent diuretics affecting renal function and body fluid composition; (f) Anabolic and/or androgenic steroids or other drugs.

(4) Class 4

Drugs placed in this class comprise primarily therapeutic medications routinely used in racing horses. These may influence performance, but generally have a more limited ability to do so. Groups of drugs assigned to this category include the following:

- (a) Non-opiate drugs that have a mild central analgesic effect;
- (b) Drugs affecting the autonomic nervous system that do not have prominent CNS, cardiovascular or respiratory effects
 - (A) Drugs used solely as topical vasoconstrictors or decongestants
 - (B) Drugs used as gastrointestinal antispasmodics
 - (C) Drugs used to void the urinary bladder
 - (D) Drugs with a major effect on CNS vasculature or smooth muscle of visceral organs.
 - (E) Antihistamines which do not have a significant CNS depressant effect
- (This does not include H1 blocking agents, which are listed in Class 5);
- (c) Antihistamines that do not have a significant CNS depressant effect. This does not include H2 blocking agents, which are in Class 5.
- (d) Mineralocorticoid drugs;
- (e) Skeletal muscle relaxants;
- (f) Anti-inflammatory drugs. These drugs may reduce pain as a consequence of their anti-inflammatory action.
 - (A) Non-Steroidal Anti-Inflammatory Drugs (NSAIDs);
 - (B) Corticosteroids (glucocorticoids); and
 - (C) Miscellaneous anti-inflammatory agents.
- (g) Less potent diuretics;
- (h) Cardiac glycosides and antiarrhythmic agents.
 - (A) Cardiac glycosides;
 - (B) Antiarrhythmic agents (exclusive of lidocaine, bretylium and propranolol); and
 - (C) Miscellaneous cardiotoxic drugs.
- (i) Topical Anesthetics--agents not available in injectable formulations;
- (j) Antidiarrheal drugs;
- (k) Miscellaneous drugs including:
 - (A) Expectorants with little or no other pharmacologic action;
 - (B) Stomachics; and
 - (C) Mucolytic agents.

(5) Class 5

Drugs in this category are therapeutic medications for which concentration limits have been established by the racing jurisdictions as well as certain miscellaneous agents.

Included specifically are agents that have very localized actions only, such as anti-ulcer drugs and certain antiallergenic drugs. The anticoagulant drugs are also included.

B. Penalties

- (1) In issuing penalties against individuals found guilty of medication and drug violations a regulatory distinction shall be made between the detection of therapeutic medications used routinely to treat racehorses and those drugs that have no reason to be found at any concentration in the test sample on race day.
- (2) The judges or the commission will use the penalty guidelines schedule contained in these rules as a starting place in the penalty stage of the deliberations for a rule violation for any drug listed in the *Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances*.
- (3) If a licensed veterinarian is administering or prescribing a drug not listed in the *ARCI Uniform Classification Guide lines for Foreign*, the identity of the drug shall be forwarded to the official veterinarian to be forwarded to the Drug Testing Standards and Practices Committee of the Association of Racing Commissioners International for classification.
- (4) Any drug or metabolite thereof found to be presenting a pre- or post-race sample which is not classified in the most current *RCI Uniform Classification Guidelines for Foreign Substances* shall be assumed to be a RCI Class 1 Drug and the trainer and owner shall be subject to those penalties as set forth in schedule “A” unless satisfactorily demonstrated otherwise by the Racing Medication and Testing Consortium, with a penalty category assigned.
- (5) The penalty categories and their related schedules, if applicable, shall be on the following criteria:
 - (a) Whether the drug is approved by the U.S. Food and Drug Administration for use in the horse;
 - (b) Whether the drug is approved by the U.S. Food and Drug Administration for use in any species;
 - (c) Whether the drug has any legitimate therapeutic application in the equine athlete;
 - (d) Whether the drug was identified as “necessary” by the RMTVC Veterinary Advisory Committee;
 - (e) Whether legitimate, recognized therapeutic alternatives exist, and; (f) The current RCI Classification of the drug.
- (6) The penalty categories “A”, “B” and “C” and their related schedules for Trainers and Owners are shown in the following tables.

If same horse, placed on veterinarian's list for 60 days, must pass commission approved examination before being eligible to run

*If the trainer has not had more than one violation within the previous two years, the Stewards/Judges are encouraged to issue a warning in lieu of a fine provided the reported level is below 3.0 mcg/ml, absent of aggravating factors.

After a two-year period, if the licensee has had no further violations, any penalty due to an overage in the 2.0 – 5.0 category will be expunged from the licensee's record for penalty purposes.

- (7) The recommended penalty for a violation involving a drug that carries a Category “D” penalty is a written warning to the trainer and owner. Multiple violations may result in fines and/or suspensions
- (8) Any licensee of the commission, including veterinarians, found to be responsible for the improper or intentional administration of any drug resulting in a positive test may, after proper notice and hearing, be subject to the same penalties set forth for the licensed trainer.
- (9) The licensed owner, veterinarian or any other licensed party involved in a positive laboratory finding shall be notified in writing of the hearing and any resulting action. In addition, their presence may be required at any and all hearings relative to the case.
- (10) Any veterinarian found to be involved in the administration of any drug carrying the penalty category of “A” shall be referred to the State Licensing Board of Veterinary Medicine for consideration of further disciplinary action and/or license revocation. This is in addition to any penalties issued by the judges or the commission.
- (11) Any person who the judges or the commission believe may have committed acts in violation of criminal statutes may be referred to the appropriate law enforcement agency. Administrative action taken by the judges or the commission in no way prohibits a prosecution for criminal acts committed, nor does a potential criminal prosecution stall administrative action by the judges or the commission.
- (12) Procedures shall be established to ensure that a licensed trainer is not able to benefit financially during the period for which the individual has been suspended. This includes, but is not limited to, ensuring that horses are not transferred to licensed family members.
- (13) Multiple Medication Violations (MMV)
 - (a) A trainer who receives a penalty for a medication violation based upon a horse testing positive for a Class 1-5 medication with Penalty Class A-D, as provided in the most recent version of the ARCI Uniform Classification Guidelines for Foreign Substances, shall be assigned points as follows:

Penalty Class	Points If Controlled Therapeutic Substance	Points If Non-Controlled Substance
Class A	N/A	6
Class B	2	4
Class C	½ for first violation with an additional ½ point for each additional violation within 365 days ⁵	1 for first violation with an additional ½ point for each additional violation within 365 days
Class D	0	0

⁵ Points for NSAID violations apply only when the primary threshold of the NSAID is exceeded. Points are not to be separately assigned for a stacking violation.

If the Judges or Commission determine that the violation is due to environmental contamination, they may assign lesser or no points against the trainer based upon the specific facts of the case.

- (b) The points assigned to a medication violation by the Judges or Commission ruling shall be included in the ARCI official database and the ARCI shall assign points consistent with Section 13(b) for advisory purposes for medication violations where points have not been assigned by regulatory action. Points assigned by such regulatory action or by the ARCI shall reflect, in the case of multiple positive tests as described in paragraph (d), whether they shall thereafter constitute a single violation. The Judges' or Commission Ruling shall be posted on the official website of the Commission and within the official database of the Association of Racing Commissioners International. If an appeal is pending, that fact shall be noted in such Ruling. No points shall be applied until a final adjudication of the enforcement of any such violation.
- (c) A trainer's cumulative points for violations in all racing jurisdictions shall be maintained by the Association of Racing Commissioners International. Once all appeals are waived or exhausted, the points shall immediately become part of the trainer's official ARCI record and shall be considered by the Commission in its determination to subject the trainer to the mandatory enhanced penalties by the Judges or Commission as provided in this regulation.
- (d) Multiple positive tests for the same medication incurred by a trainer prior to delivery of official notice by the commission may be treated as a single violation. In the case of a positive test indicating multiple substances found in a single post-race sample, the Judges may treat each substance found as an individual violation for which points will be assigned.
- (e) The official ARCI record shall be used to advise the Judges or Commission of a trainer's past record of violations and cumulative points. Nothing in this administrative regulation shall be construed to confer upon a licensed trainer the right to appeal a violation for which all remedies have been exhausted or for which the appeal time has expired as provided by applicable law.
- (f) The Judges or Commission shall consider all points for violations in all racing jurisdictions as contained in the trainer's official ARCI record when determining whether the mandatory enhancements provided in this regulation shall be imposed.
- (g) In addition to the penalty for the underlying offense, the following enhancements shall be imposed upon a licensed trainer based upon the cumulative points contained in his/her official ARCI record:

Points	Suspension in days
5-5.5	15 to 30
6-8.5	30 to 60
9-10.5	90 to 180
11 or more	180 to 360

MMV penalties are not a substitute for the current penalty system and are intended to be an additional uniform penalty when the licensee:

- (i) Has more than one violation for the relevant time period, and (ii) Exceeds the permissible number of points.

The Judges and Commission shall consider aggravating and mitigating circumstances, including the trainer’s prior record for medication violations, when determining the appropriate penalty for the underlying offense. The MMP is intended to be a separate and additional penalty for a pattern of violations.

- (h) The suspension periods as provided in Section 13(g), shall run consecutive to any suspension imposed for the underlying offense.
- (i) The Judges’ or Commission Ruling shall distinguish between the penalty for the underlying offense and any enhancement based upon a Judges or Commission review of a trainer’s cumulative points and regulatory record, which may be considered an aggravating factor in a case.
- (j) Points shall expire as follows:

Penalty Classification	Time to Expire
A	3 years
B	2 years
C	1 year

In the case of a medication violation that results in a suspension, any points assessed expire on the anniversary date of the date the suspension is completed.

C. Medication Restrictions

- (1) A finding by the commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was

administered to the horse and, in the case of a post-race test, was present in the horse's body while it was participating in a race. Prohibited substances include:

- (a) Drugs or medications for which no acceptable threshold concentration has been established;
 - (b) Controlled therapeutic medications in excess of established threshold concentrations or administration within the restricted time period as set forth in the ARCI Controlled Therapeutic Medication Schedule;
 - (c) Substances present in the horse in excess of concentrations at which such substances could occur naturally; and
 - (d) Substances foreign to a horse at concentrations that cause interference with testing procedures.

F. Furosemide

- (1) Furosemide may be administered intravenously to a horse, which is entered to compete in a race. Except under the instructions of the official veterinarian or the racing veterinarian for the purpose of removing a horse from the Veterinarian's List or to facilitate the collection of a post-race urine sample, furosemide shall be permitted only after the official veterinarian has placed the horse on the Furosemide List. In order for a horse to be placed on the Furosemide List the following process must be followed.
 - (a) After the horse's licensed trainer and licensed veterinarian determine that it would be in the horse's best interests to race with furosemide the official veterinarian or his/her designee shall be notified using the prescribed form, that the horse is to be put on the Furosemide List.
 - (b) The form must be received by the official veterinarian or his/her designee by the proper time deadlines so as to ensure public notification.
 - (c) A horse placed on the official Furosemide List must remain on that list unless the licensed trainer and licensed veterinarian submit a written request to remove the horse from the list. The request must be made to the official veterinarian or his/her designee, on the proper form, no later than the time of entry.
 - (d) After a horse has been removed from the Furosemide List, the horse may not be placed back on the list for a period of 60 calendar days unless it is determined to be detrimental to the welfare of the horse, in consultation with the official veterinarian. If a horse is removed from the official Furosemide List a second time in a 365-day period, the horse may not be placed back on the list for a period of 90 calendar days.
 - (e) Furosemide shall only be administered on association grounds.
 - (f) Furosemide shall be the only authorized bleeder medication
- (2) The use of furosemide shall be permitted under the following circumstances on association grounds where a detention barn is utilized:
 - (c) Furosemide shall be administered by the official veterinarian, the racing veterinarian or his/her designee no less than four hours prior to post time for the race for which the horse is entered.
 - (d) Any veterinarian or vet techs participating in the administration process must be prohibited from working as private veterinarians or technicians on the race track or with participating licensees;
 - (c) A horse qualified for furosemide administration must be brought to the detention barn within time to comply with the four-hour administration requirement specified above.
 - (d) The dose administered shall not exceed 500 mg. nor be less than 150 mg.
 - (e) Furosemide shall be administered by a single, intravenous injection.
 - (f) After treatment, the horse shall be required by the Commission to remain in the detention barn in the care, custody and control of its trainer or the trainer's designated representative under association and/or Commission security supervision until called to the saddling paddock.

- (3) The use of furosemide shall be permitted under the following circumstances on association grounds where a detention barn is not utilized:
 - (a) Furosemide shall be administered by the official veterinarian, the racing veterinarian or his/her designee no less than four hours prior to post time for the race for which the horse is entered.
 - (b) Any veterinarian or vet techs participating in the administration process must be prohibited from working as private veterinarians or technicians on the race track on or with participating licensees;
 - (c) The furosemide dosage administered shall not exceed 500 mg. nor be less than 150 mg.
 - (d) Furosemide shall be administered by a single, intravenous injection.

- (4) Test results must show a detectable concentration of the drug in the post-race serum, plasma or urine sample.
 - (a) The specific gravity of post-race urine samples may be measured to ensure that samples are sufficiently concentrated for proper chemical analysis. The specific gravity shall not be below 1.010. If the specific gravity of the urine is found to be below 1.010 or if a urine sample is unavailable for testing, quantitation of furosemide in serum or plasma shall be performed;
 - (b) Quantitation of furosemide in serum or plasma shall be performed when the specific gravity of the corresponding urine sample is not measured or if measured below 1.010. Concentrations may not exceed 100 nanograms of furosemide per milliliter of serum or plasma.
- (5) The administering authority or association may assess a fee approved by the commission on licensed owners of treated horses to recoup the reasonable costs associated with the administration of furosemide in the manner prescribed in these rules.

G. Bleeder List

- (1) The official veterinarian shall maintain a Bleeder List of all horses, which have demonstrated external evidence of exercise induced pulmonary hemorrhage from one or both nostrils during or after a race or workout as observed by the official veterinarian.
- (2) Every confirmed bleeder, regardless of age, shall be placed on the Bleeder List and be ineligible to race for the following time periods:
 - (a) First incident – 14 days;
 - (b) Second incident within 365 day period – 30 days;
 - (c) Third incident within 365 day period – 180 days;

- (3) For the purposes of counting the number of days a horse is ineligible to run, the day the horse bled externally is the first day of the recovery period.
- (4) The voluntary administration of furosemide without an external bleeding incident shall not subject the horse to the initial period of ineligibility as defined by this policy.
- (5) A horse may be removed from the Bleeder List only upon the direction of the official veterinarian, who shall certify in writing to the judges the recommendation for removal.
- (6) A horse which has been placed on a Bleeder List in another jurisdiction pursuant to these rules shall be placed on a Bleeder List in this jurisdiction.

H. Environmental Contaminants and Substances of Human Use

COMMITTEE NOTE: Consortium says that potential substances identified in this section will be put through the same scientific review process in order to determine whether a threshold concentration can be established.

- (1) Environmental contaminants in that they are endogenous to the horse or that they can arise from plants traditionally grazed or harvested as equine feed or are present in equine feed because of contamination during the cultivation, processing, treatment, storage or transportation phases:
- (2) The following drugs are recognized as substances of human use and addiction and which could be found in the horse due to its close association with humans: (a)
- (3) If the preponderance of evidence presented in the hearing shows that a positive test is the result of environmental contamination, including inadvertent exposure due to human drug use, or dietary intake, or is endogenous to the horse, those factors should be considered in mitigation of any disciplinary action taken against the affected trainer. Disciplinary action shall only be taken if test sample results exceed the regulatory thresholds in the most recent version of the ARCI Endogenous, Dietary, or Environmental Substances Schedule.
- (4) The identification and adoption of these uniform thresholds for certain substances shall not preclude an individual jurisdiction from maintaining thresholds for substances not on this list which predate the adoption of this regulation in such jurisdiction.

I. Androgenic-Anabolic Steroids

- (1) No AAS shall be permitted in test samples collected from racing horses except for endogenous concentrations of the naturally occurring substances **boldenone**, **nandrolone**, and testosterone at concentrations less than the indicated thresholds.
- (2) Concentrations of these AAS shall not exceed the following free (*i.e.*, not conjugated) steroid concentrations in plasma or serum:
 - (a) Boldenone – A confirmatory threshold not greater than 25 picograms/milliliter for all horses, regardless of sex;
 - (b) Nandrolone – A confirmatory threshold not greater than 25 picograms/milliliter for fillies, mares, and geldings; male horses other than geldings shall be tested for Nandrolone in urine (see (2)(b)(B) below);
 - (c) Testosterone – A confirmatory threshold not greater than 100 picograms/milliliter for fillies, mares, and gelding.
- (3) Total concentrations of these AAS shall not exceed the following total concentrations in urine after hydrolysis of conjugates:
 - (a) Boldenone - A confirmatory threshold not greater than 1 nanogram/milliliter for fillies, mares, and geldings; a confirmatory threshold not greater than 15 nanograms/milliliter in male horses other than geldings;
 - (b) Nandrolone - A confirmatory threshold not greater than 1 nanogram/milliliter for fillies, mares, and geldings; a confirmatory threshold not greater than 45 nanograms/milliliter (as 5 α -estrane-3 β ,17 α -diol) of urine in male horses other than geldings;
 - (c) Testosterone – A confirmatory threshold of not greater than 55 nanograms/milliliter of urine in fillies and mares (unless in foal); a confirmatory threshold of not less than 20 nanograms/milliliter in geldings

- (4) Any other AAS are prohibited in racing horses.
- (5) The sex of the horse must be identified to the laboratory on all pre-race and post-race samples designated for AAS testing.
- (6) If an anabolic steroid has been administered to a horse in order to assist in its recovery from illness or injury, that horse may be placed on the Veterinarian's List in order to monitor the concentration of the drug or metabolite in urine or blood. After the concentration has fallen below the designated threshold for the administrated AAS, the horse is eligible to be removed from the list.

J. Alkalinizing Substances

The use of agents that elevate the horse's TCO₂ or Base excess level above those existing naturally in the untreated horse at normal physiological concentrations is prohibited. The following levels also apply to blood gas analysis:

- (3) The regulatory threshold for TCO₂ is 37.0 millimoles per liter of plasma/serum or a base excess level of 10.0 millimoles, and;
- (4) The decision level to be used for the regulation of TCO₂ is 37.0 millimoles per liter of plasma/serum plus the measurement uncertainty of the laboratory analyzing the sample, or a base excess level of 10.4 millimoles per liter of plasma/serum.

K. Compounded Medications on Association Grounds

- (8) The possession or use of a drug, substance, or medication on Association Grounds that has not been approved by the appropriate federal agency (e.g., the United States Food and Drug Administration in the United States) for any use in (human or animal) is forbidden without prior permission of the Commission or its designee.
- (9) It is a violation of this regulation to possess, use, or distribute a compounded medication on Association Grounds if there is an FDA approved equivalent of that substance available for purchase. A difference in available formulations or concentrations does not alleviate the need to use FDA approved products.
- (10) It is a violation of this regulation to possess, use, or distribute a compounded medication on Association Grounds made from bulk substances if an FDA approved equivalent is available for purchase.
- (11) Combining two or more substances with pharmacologic effect constitutes the development of a new drug. This may only be done in accordance with state and local laws and must contain FDA approved medications, if available.
- (12) Compounded veterinary drugs. Veterinary drugs shall be compounded in accordance with all applicable state and federal laws. Compounded medication shall be dispensed only by prescription issued by a licensed veterinarian to meet the medical needs of a specific horse and for use only in that specific horse
- (13) Labels on compounded veterinary drugs. All compounded medications must be labeled in accordance with section ARCI-011-020(D) : Medical Labeling
- (14) Possession of an improperly labeled product by any person on Association Grounds is considered a violation of this section.

ARCI-025-022 Out of Competition Testing

- (1) Out-of-competition testing authorized. The commission may at a reasonable time on any date take blood, urine or other biologic samples as authorized by commission rules from a horse to enhance the ability of the member commission to enforce its medication and anti-doping rules, e.g., the Prohibited List pursuant to ARCI-011-015. The commission shall own such samples. This rule authorizes only the collection and testing of samples and does not independently make impermissible the administration to or presence in any horse of any drug or other substance. A race day prohibition or restriction of a substance by a commission rule is not applicable to an out-of-competition test unless there is an attempt to race the horse in a manner that violates such rule.
- (2) Horses eligible to be tested. Any horse that has been engaging in activities related to competing in horse racing in the jurisdiction may be tested. This includes without limitation any horses that are training outside the jurisdiction to participate in racing in the jurisdiction and all horses that are training in the jurisdiction, but excludes weanlings, yearlings and horses no longer engaged in horse racing (e.g., retired broodmares).

- (a) A horse is presumed eligible for out-of-competition testing if:
 - (i) It is on the grounds at a racetrack or training center under the jurisdiction of the commission;
 - (ii) It is under the care or control of a trainer licensed by the commission;
 - (iii) It is owned by an owner licensed by the commission;
 - (iv) It is entered or nominated to race at a premises licensed by the commission;
 - (v) It has raced within the previous 12 months at a premises licensed by the commission; or
 - (vi) It is nominated to a program based on racing in the jurisdiction, including without limitation a state thoroughbred development, breeder's award fund, or standardbred state sires stakes.
 - (b) Such presumptions are conclusive in the absence of evidence that a horse is not engaged in activities related to competing in horse racing in the jurisdiction.
- (3) Selection of horses to be tested.
- (a) Horses shall be selected for sampling by a commission Veterinarian, Executive Director, Equine Medical Director, Steward or Presiding Judge or a designee of any of the foregoing.
 - (b) Horses may be selected to be tested at random, for cause, or as otherwise determined in the discretion of the commission.
 - (c) Collectors shall for suspicion-less collections of samples abide by a plan that has been approved by a supervisor not in the field and identifies specific horses or provides neutral and objective criteria to follow in the field to determine which horses to sample. Such a supervisor may consider input from persons in the field during the operation of the plan and select additional horses to be sampled.
- (4) Cooperation with the commission
- (a) Licensees of the commission are required to cooperate and comply fully with the provisions of this rule.
 - (b) Persons who apply for and are granted a trainer or owner license shall be deemed to have given their consent for access at such premises as their horse may be found for the purpose of commission representatives collecting out-of- competition samples. Licensees shall take any steps necessary to authorize access by commission representatives at such premises.

- (c) No other person shall knowingly interfere with or obstruct a sampling.
- (5) General procedure for collecting samples
- (a) Samples shall be taken under the supervision and direction of a person who is employed or designated by the commission. All blood samples shall be collected by a veterinarian licensed in the state where the sample is collected, or by a veterinary technician who is acting under appropriate supervision of the veterinarian.
 - (b) Upon request of a representative of the commission, the trainer, owner, or their specified designee shall provide the location of their horses eligible for out-of- competition testing.
 - (c) The commission need not provide advance notice before arriving at any location, whether or not licensed by the commission, to collect samples.
 - (d) The trainer, owner, or their specified designee shall cooperate with the person who takes samples for the commission, which cooperation shall include without limitation:
 - (i) Assist in the immediate location and identification of the horse;
 - (ii) Make the horse available as soon as practical upon arrival of the person who is responsible for collecting the samples;
 - (iii) Provide a stall or other safe location to collect the samples;
 - (iv) Assist the person who is collecting samples in properly procuring the samples; and
 - (v) Witness the taking of samples including sealing of sample collection containers.
 - (e) The management and employees of a licensed racetrack or training facility at which a horse may be located shall cooperate fully with a person who is authorized to take samples. The person who collects samples for the commission may require that the collection be done at a specified location on such premises.
 - (f) The commission, if requested and in its sole discretion, may permit the trainer, owner, or their specified designee to present a horse that is located in the jurisdiction, but not at a racetrack or training center licensed by the commission, to be sampled at a time and location designated by the commission.
- (6) Procedure for collecting samples from horses located outside the jurisdiction

- (a) The commission may arrange for the sampling of an out-of-state horse by the racing commission or other designated person in the jurisdiction where the horse is located. Such racing commission or other designated person shall follow the relevant provisions of this rule, including paragraph (a) of subdivision five of this rule.
 - (b) The test results shall be made available, for its regulatory use, to each jurisdiction that has participated in the process of collecting any out-of-competition sample, subject to any restrictions on public disclosure of test results that apply to the commission that selected the horse for sampling.
 - (c) The commission, if requested and in its sole discretion, may permit the trainer or owner instead to transport the horse into its jurisdiction for sampling at a time and place designated by the commission.
- (7) Additional procedures
- (a) The person who takes samples for the commission shall provide identification and disclose the purpose of the sampling to the trainer or designated attendant of the horse.
 - (b) A written protocol for the collection of samples shall be made generally available.
 - (c) An owner or trainer does not consent to a search of the premises by making a horse that is not located at a racetrack or training center available for sampling.
 - (d) If the trainer or other custodian of a selected horse refuses or declines to make the horse available for sampling and the managing owner has previously provided the commission with a means for the commission to give immediate notification to the managing owner in such situation, then the commission shall attempt to notify the managing owner and the eligibility of the horse shall be preserved if the managing owner is able to make the horse available for immediate sampling. The commission is not required to make repeated attempts to notify the managing owner.
 - (e) The chain of custody record for the sample (including a split sample where appropriate) shall be maintained and made available to the trainer, owner, or their designee when a complaint results from an out-of-competition test.
- (8) Analysis of collected samples
- (a) The commission may have out-of-competition samples tested to produce information that may enhance the ability of the commission to enforce its medication and anti-doping rules.

- (b) Split sample rules and procedures for post-race testing shall apply to out-of- competition testing.
 - (c) The commission may use any remaining sample for research and investigation.
- (9) Penalties for non-cooperation
- (a) Willful failure to make a horse available for sampling or other willfully deceptive acts or interference in the sampling process shall carry a minimum penalty of a one year license suspension and referral to the commission in addition to any other authorized penalties.
 - (b) A selected horse that is not made available for out-of-competition sampling shall be placed on the Steward's List. The horse shall remain on the Steward's List for a minimum of 180 days unless the owner can establish extraordinary mitigating circumstances.
 - (c) A selected horse that is presumed eligible for out-of-competition testing shall be placed on the Steward's list and be ineligible to race in the jurisdiction for 180 days if the horse is not sampled because the trainer, owner or their designee asserts that the horse is not engaged in activities related to competing in horse racing in the jurisdiction. This restriction shall not apply if the trainer, owner or their designee instead permits voluntarily an immediate collection of such samples from the horse.

Adopted Version 4.1 ARCI 4/26/07

- (2) Random or extra testing may be required by the judges or the Commission at any time on any horse on association grounds.
- (3) Unless otherwise directed by the judges or the official veterinarian, a horse that is selected for testing must be taken directly to the test barn.
- (4) A track security guard shall monitor access to the test barn area during and immediately following each racing performance. All persons who wish to enter the test barn area must be a minimum of 18-years-old, be currently licensed by the Commission, display their Commission identification badge and have a legitimate reason for being in the test barn area.

B. Sample Collection

- (1) Sample collection shall be done in accordance with the guidelines and instructions provided by the official veterinarian.

- (1) Split samples obtained in accordance with Subsection B, Numbers 2b and 2c above shall be secured and made available for further testing in accordance with the following procedures:

A split sample shall be secured in the test barn under the same manner as the portion of the specimen acquired for shipment to a primary laboratory until such time as specimens are packed and secured for shipment to the primary laboratory. Split samples shall then be transferred to a freezer at a secure location approved by the Commission.

A freezer for storage of split samples shall be equipped with two hasps or other devices to provide for use of two independent locks. One lock shall be the property of the Commission and one lock shall be the property of a representative of the group representing a majority of the horsemen at a race meeting. The locks shall be closed and locked so as to prevent access to the freezer at all times except as specifically provided by these rules.

A freezer for storage of split samples shall be opened only for depositing or removing split samples, for inventory, or for checking the condition of samples.

When a freezer used for storage of split samples is opened, it shall be attended by both a representative of the Commission and the owner, trainer or designee. A log shall be maintained that shall be used each time a split sample freezer is opened to specify each person in attendance, the purpose for opening the freezer, identification of split samples deposited or removed, the date and time the freezer was opened, and the time the freezer was closed and to verify that both locks were secured prior to and after opening of the freezer.

Any evidence of a malfunction of a split sample freezer or samples that are not in a frozen condition during storage shall be documented in the log and immediately reported to the official veterinarian or a designated Commission representative.

- (2) A trainer or owner of a horse having been notified that a written report from a primary laboratory states that a prohibited substance has been found in a specimen obtained pursuant to these rules may request that a split sample corresponding to the portion of the specimen tested by the primary laboratory be sent to another laboratory approved by the Commission. The request must be made in writing and delivered to the judges not later than three (3) business days after the trainer of the horse receives written notice of the findings of the primary laboratory. Any split sample so requested must be shipped within an additional 48 hours.
- (3) The owner or trainer requesting testing of a split sample shall be responsible for the cost of shipping and testing. Failure of the owner, trainer or designee to appear at the time and place designated by the official veterinarian shall constitute a waiver of all rights to split sample testing. Prior to shipment, the

Commission shall confirm the split sample laboratory's willingness to simultaneously provide the testing requested, the laboratory's willingness to send results to both the person requesting the testing and the Commission, and arrangements for payment satisfactory to the split sample laboratory. If a reference laboratory will accept split samples, that laboratory must be included among the laboratories approved for split sample testing.

- (4) Prior to opening the split sample freezer, the Commission shall provide a split sample chain of custody verification form that shall provide a place for recording the following information and such other information as the official veterinarian may require. The form shall be fully completed during the retrieval, packaging, and shipment of the split sample. The split sample chain of custody form requirements are:
 - (a) The date and time the sample is removed from the split sample freezer;
 - (b) The sample number;
 - (c) The address where the split sample is to be sent;
 - (d) The name of the carrier and the address where the sample is to be taken for shipment;
 - (e) Verification of retrieval of the split sample from the freezer;
 - (f) Verification of each specific step of the split sample packaging in accordance with the recommended procedure;
 - (g) Verification of the address of the split sample laboratory on the split sample package;
 - (h) Verification of the condition of the split sample package immediately prior to transfer of custody to the carrier; and
 - (i) The date and time custody of the sample is transferred to the carrier.
- (5) A split sample shall be removed from the split sample freezer by a Commission representative in the presence of a representative of the horsemen's association.
- (6) The owner, trainer or designee shall pack the split sample for shipment in the presence of the representative of the Commission, in accordance with the packaging procedures recommended by the Commission. A form shall be signed by both the horsemen's representative and the Commission representative to confirm the packaging of the split sample. The exterior of the package shall be secured and identified with initialed tape, evidence tape or other means to prevent tampering with the package.
- (7) The package containing the split sample shall be transported in a manner prescribed by the commission to the location where custody is transferred to the delivery carrier charged with delivery of the package to the Commission-approved laboratory selected by the owner or trainer.
- (8) The owner, trainer or designee and the Commission representative shall inspect the package containing the split sample immediately prior to transfer to the delivery carrier to verify that the package is intact and has not been tampered with.
- (9) The split sample chain of custody verification form shall be completed and signed by the representatives of the Commission and the owner or trainer. A Commission representative shall keep the original and provide a copy for the owner or trainer.

D. Frozen Samples

The commission has the authority to direct the official laboratory to retain and preserve by freezing samples for future analysis. The fact that purse money has been distributed prior to the issuance of a laboratory report from

the future analysis of a frozen sample shall not be deemed a finding that no drug substance prohibited by these rules has been administered.

E. Laboratory Minimum Standards

Laboratories conducting either primary or split post-race sample analysis must meet at least the following minimum standards.

- (1) A testing laboratory must be accredited by an accrediting body designated by the Association of Racing Commissioners International to standards set forth and required by the Commission or the Association of Racing Commissioners International.
- (2) A testing laboratory must have, or have access to, LC/MS instrumentation for screening and/or confirmation purposes.
- (3) A testing laboratory must be able to meet minimum standards of detection, which is defined as the specific concentration at which a laboratory is expected to detect the presence of a particular drug and/or metabolite or by the adoption of a regulatory threshold.

The purpose of this subsection is to identify responsibilities of the trainer that pertain specifically to the health and well-being of horses in his/her care.

- (1) The trainer is responsible for the condition of horses entered in an official workout or race and is responsible for the presence of any prohibited drug, medication or other substance, including permitted medication in excess of the maximum allowable level, in such horses. A positive test for a prohibited drug, medication or substance, including permitted medication in excess of the maximum allowable concentration, as reported by a Commission-approved laboratory, is prima facie evidence of a violation of this rule. In the absence of substantial evidence to the contrary, the trainer shall be responsible.
- (2) A trainer shall prevent the administration of any drug or medication or other prohibited substance that may cause a violation of these rules.
- (3) For a horse not on association grounds at the time the drug or medication is prescribed and such medication is not prescribed by a veterinarian licensed by the commission, the trainer shall have 14 days from the time the horse enters association grounds to:
 - (a) exhaust any supply of medication validly prescribed pursuant to ARCI-011-010(B)(6);
or
 - (b) consult with a veterinarian licensed by the Commission to review the medication(s) in his or her possession to determine:
 - i. if all medications comply with the medical labeling requirements described in ARCI-011-020(D); and
 - ii. if the medications are permitted for use in a racehorse under applicable law.

- (4) The trainer of the horse that has a medication reviewed in Subsection 3 shall sign a form approved by the Commission certifying that the required review described in Subsection 3 has been undertaken. The form shall be filed with the Commission prior to the expiration of the 14 days described in Subsection 3.
- (5) Any medication that does not comply with Subsection 3, Subsection 4, and the medical labeling requirements in ARCI-011-020(D) is considered to be in violation of these rules.
- (6) A trainer whose horse has been claimed remains responsible for any violation of rules regarding that horse's participation in the race in which the horse is claimed.
- (7) The trainer is responsible for:
 - (a) Maintaining the assigned stable area in a clean, neat and sanitary condition at all times;
 - (b) Using the services of those veterinarians licensed by the Commission to attend horses that are on association grounds;
- (8) Additionally, with respect to horses in his/her care or custody, the trainer is responsible for:
 - (a) The proper identity, custody, care, health, condition and safety of horses;
 - (b) Ensuring that at the time of arrival at locations under the jurisdiction of the Commission a valid health certificate and a valid negative Equine Infectious Anemia (EIA) test certificate accompany each horse and which, where applicable, shall be filed with the racing secretary;
 - (c) Having each horse in his/her care that is racing, or is stabled on association grounds, tested for Equine Infectious Anemia (EIA) in accordance with the jurisdiction's law and for filing evidence of such negative test results with the racing secretary;
 - (d) Using the services of those veterinarians licensed by the Commission to attend horses that are on association grounds;
 - (e) Immediately reporting the alteration of the sex of a horse to the horse identifier and the racing secretary;
 - (f) Promptly reporting to the racing secretary and the official veterinarian when a posterior digital neurectomy (heel nerving) is performed and ensuring that such fact is designated on its certificate of registration;
 - (g) Promptly notifying the official veterinarian of any reportable disease and any unusual incidence of a communicable illness in any horse in his/her charge;
 - (h) Promptly reporting the serious injury and/or death of any horse at locations under the jurisdiction of the Commission to the judges and the official veterinarian and compliance with the rules in this chapter governing post-mortem examinations;
 - (i) Maintaining a knowledge of the medication record and status;
 - (j) Immediately reporting to the judges and the official veterinarian knowledge or reason to believe, that there has been any administration of a prohibited medication, drug or substance;
 - (k) Ensuring the fitness to perform creditably at the distance entered;
 - (l) Ensuring that every horse he/she has entered to race is present at its assigned stall for a pre-race soundness inspection as prescribed in this chapter;
 - (m) Ensuring proper bandages, equipment and shoes;

- (n) Presence in the paddock at least 20 minutes before post time or at a time otherwise appointed before the race in which the horse is entered;

A. Assessment of Racing Condition

- (1) Every horse entered to participate in an official race shall be subjected to a veterinary inspection prior to starting in the race for which it is entered.
- (2) The inspection shall be conducted by the official veterinarian or the racing veterinarian, or if necessary the association veterinarian.
- (3) The assessment of a horse's racing condition shall include:
 - (a) Proper identification of each horse inspected;
 - (b) Clinical observation of each horse in motion during a warm-up mile, during the post parade, during the running of the race, and following the race until the horse has exited the race track;
 - (c) Visual inspection of the entire horse and assessment of overall condition; and, (d)
 - (e) Any other inspection deemed necessary by the official veterinarian and/or the racing veterinarian including but not limited to manual palpation and/or manipulation of the limbs.
- (4) The official veterinarian and/or the racing veterinarian shall maintain a permanent, continuing health and racing soundness record of each horse inspected.
- (5) The official veterinarian and/or the racing veterinarian are authorized access to any and all horses housed on the association grounds regardless of entry status.
- (6) If, prior to starting, a horse is determined to be unfit for competition, the veterinarian will recommend to the judges the horse be scratched.
- (7) Horses scratched upon the recommendation of the official veterinarian and/or the racing veterinarian are to be placed on the Veterinarians' List

B. Veterinarian's List

- (1) The official veterinarian shall maintain the Veterinarians' List of all horses which are determined to be unfit to compete in a race due to illness, physical distress, unsoundness, infirmity or any other medical condition. Horses so listed are ineligible to enter to race in any jurisdiction until released by an official veterinarian or racing veterinarian.
- (2) A horse may be removed from the Veterinarian's List when, in the opinion of the official veterinarian, the condition which resulted in the horse's placement on the Veterinarians' List is resolved and the horse's status is returned to racing soundness.

- (3) Horses participating in a qualifying race or working to be released from the Veterinarians' List are to be in compliance with ARCI-025-020 and are to be subjected to post-exercise biologic sample collection for laboratory confirmation of compliance.
- (4) Horses may be released from the Veterinarians' List only by authorization of an official veterinarian or the racing regulatory veterinarian.
- (5) Horses having generated a "positive" post-race test for a RCI Class I, II, III or IV substance shall be required to generate a negative test at the expense of the current owner prior to being entered for the first start following the positive test.

C. Postmortem Examination

- (1) The Commission may conduct a postmortem examination of any horse that is injured in this jurisdiction while in training or in competition and that subsequently expires or is destroyed. In proceeding with a postmortem examination the Commission or its designee shall coordinate with the trainer and/or owner to determine and address any insurance requirements.
- (2) The Commission may conduct a postmortem examination of any horse that expires while housed on association grounds or at recognized training facilities within this jurisdiction. Trainers and owners shall be required to comply with such action as a condition of licensure.
- (3) The Commission may take possession of the horse upon death for postmortem examination. The Commission may submit blood, urine, other bodily fluid specimens or other tissue specimens collected during a postmortem examination for analysis. Upon completion of the postmortem examination, the carcass may be returned to the owner or disposed of at the owner's option.
- (4) The presence of a prohibited substance in a specimen collected during the postmortem examination may constitute a violation.
- (5) The cost of Commission-ordered postmortem examinations, testing and disposal shall be borne by the Commission.

APPENDIX A

AAEP Healthy Horse Protocol: Biosecurity Guidelines for Racetrack Entry and Stabling (2020)

The following guidelines were developed by the AAEP Infectious Disease Committee in order to establish uniform health protocols regarding the entrance of horses to a racing venue as well as the ongoing monitoring of health status while at the facility.

Prior to Departure to Racing Venue:

- Temperatures should be taken and recorded twice daily at least three days prior to movement to the racing venue.
- Horses should be observed by a licensed veterinarian in consultation with the horse's caretaker for clinical signs including, but not limited to, discharge from the eyes or nose; cough; diarrhea or abnormal manure; erratic or unusual behavior; abnormal stance; abnormal movement such as wobbly gait or incoordination; inability to move the tail; or straining to urinate.
- Any horse with a temperature over 101.5°F or any signs of illness must not be shipped to a racetrack or training center. A veterinarian should examine the horse and then implement the appropriate biosecurity measures in accordance with AAEP biosecurity guidelines.
- Horses stabled where there are sick horses—cases of infectious, contagious or communicable disease such as described above in bullet 2—should not be moved unless veterinary examination and clinical history determine that it is safe to do so.
- Horses moving interstate must meet the entry requirements of the destination state, racing commission, and individual racetrack or training center. Requirements for interstate movement can be found by contacting the office of the state veterinarian in the state of destination or by visiting <https://www.interstatelivestock.com>. Entry requirements can change and should be checked prior to scheduling shipment to another state.
- Horses should be observed for any signs of disease prior to loading on the trailer. Only healthy horses shall be loaded onto the trailer.
- Racetrack operators and veterinarians should routinely consult the Equine Disease Communication Center (EDCC) website or EDCC app to see the current status and location of disease outbreaks. This tool assists with making informed decisions on whether to ship, accept or exclude horses from other locations.

Entry to Racing Venue: Recommended Facility Requirements:

- Only horses deemed to be healthy will be permitted to enter a racing venue. At the time of offloading, a designated individual shall inspect the animal. Animals that can't be inspected at the time of arrival and offloading should be placed in isolation stabling until such inspection can be performed.
- Any horse displaying an obvious sign of illness, including but not limited to, discharge from the eyes or nose; cough; diarrhea or abnormal manure; change in behavior; abnormal stance; abnormal movement such as wobbly gait or incoordination; loss of tail tone; or straining to urinate should not enter the general stabling area until examined by a veterinarian. A clinically abnormal horse should be diverted to a veterinary hospital, approved isolation facility or back to its origin, depending on the circumstances and severity of signs.
- Following arrival at a racetrack or training center, horses should be promptly examined by an attending veterinarian for signs of illness. Horses with a temperature over 101.5°F must be reported immediately to the official veterinarian.
- In the event that ambient temperature or stress of transport may have contributed to an elevated temperature, the attending veterinarian should request re-evaluation of any horse with a temperature over 101.5F (e.g. retaking the horse's temperature) within two hours of arrival.
- Within 24 hours of entry at a racing or training facility, the attending veterinarian is responsible for observing the horse for clinical signs of disease and reviewing temperature recordings.
- Horses must show proof of vaccination by a licensed veterinarian within the prior 12 months for EEE/WEE/WNV and tetanus. In addition, Rabies vaccination is strongly recommended pursuant to the AAEP's vaccination guidelines.
- Horses must show proof of vaccination by a licensed veterinarian within the prior 6 months for equine influenza and equine herpesvirus (EHV1 and EHV4).
- All horses entering must present a valid negative Equine Infectious Anemia Test (AKA Coggins test) dated within the last 12 months unless otherwise mandated by the local racing jurisdiction or state laws. A more recent Equine Infectious Anemia test (AKA Coggins test) may be required if the horse originates from an area of high risk.
- All horses must present, at arrival, a valid Certificate of Veterinary Inspection (health certificate) issued by a licensed accredited veterinarian within 14 days of arrival. (When necessary due to health risk concerns, the time frame for issuance may be shortened to require an examination within 72 hours of shipment).
 - Racetrack management should issue notifications when arrival health requirements are changed.
 - Equine Infectious Anemia test (AKA Coggins test) should be available to state animal health officials upon request.
- A horse failing to meet entry health requirements or not accompanied by the necessary documents as outlined above will be refused entry to the racing venue.

While Stabled at the Racing Venue:

- All horses should be observed daily, and temperatures taken and recorded twice daily by the trainer or a member of the trainer's staff.
- Temperatures shall be taken prior to any medications or exercise in the morning and in the afternoon.
- Any temperature above 101.5°F will be reported immediately to the attending veterinarian who should perform an appropriate exam.
- Horses displaying clinical signs should be evaluated by a veterinarian. Any horse deemed to pose an infectious disease risk as determined by veterinary examination shall be moved to isolation stabling.
- Horses potentially exposed to a horse that has signs of infectious disease should have increased monitoring for possible infection and their movement limited if applicable.
- Owner/trainers shall maintain proper vaccine protocol in horses residing on the racing venue. Vaccination protocols may vary based on geographic area. At a minimum, horses shall be vaccinated annually for EEE/WEE/WNV, rabies and tetanus and every six months for influenza and equine herpesvirus (EHV1 and EHV4) (equine rhinopneumonitis).
- Be aware that humans and objects can transmit infectious diseases, therefore care should be taken to minimize horse-to-horse contact, horse-to-human-to-horse contacts, and sharing of equipment. Any shared equipment should be cleaned and disinfected between use on different horses.
- During an infectious disease outbreak, all responsible parties will adhere to disease control measures implemented by racing jurisdiction and/or state veterinarian authority.
- When an infectious disease is suspected or diagnosed, owners, trainers and veterinarians should consult the Equine Disease Communication Center website or the EDCC app to be aware of current outbreaks and to utilize EDCC fact sheets and biosecurity recommendations.

Approved by AAEP board of directors in 2020.

GENERAL BIOSECURITY GUIDELINES

EP BIOSECURITY

The AAEP Biosecurity Guidelines were developed as an instructional resource for equine veterinarians working collaboratively with clients and industry stakeholders to develop and implement biosecurity plans on equine facilities.

Biosecurity plans for equine facilities enhance equine health, public health, and business continuity. Biosecurity for equine facilities includes all practices intended to prevent the introduction and minimize the spread of infectious disease agents in equine populations. Veterinarians often provide services for equids in environments at high-risk of infectious disease introduction and transmission, including veterinary clinics, equine event facilities, and stables where there is frequent movement of equids on and off the premises. This document will concentrate on biosecurity recommendations for equine events and stables. Several private and university veterinary hospitals have written biosecurity standard operating procedures for their equine veterinary field practice and clinics. In addition to assisting their clients in developing a biosecurity plan, it is important that the equine veterinarian have a plan to minimize the risk they themselves might pose while providing their professional services. At all times, the veterinarian should serve as a model citizen of biosecurity by demonstrating practices that protect their patients from infectious disease and educating clients as they develop biosecurity programs for their facilities.

While there are overarching infection control principles which have broad applicability across most diseases and facility types, every equine event and every premises is unique. Therefore, it is important for veterinarians to work with other event and/or facility stakeholders in advance of an urgent issue (i.e., BEFORE an outbreak) to develop plans that are practical and effective for the particular facility in question. Many people focus on the “outbreak management” aspect of biosecurity, but arguably more important are the day-to-day biosecurity practices that minimize the likelihood of a disease outbreak in the first place or make it easier to quickly contain an outbreak with minimal disruption and expense.

Therefore, a comprehensive biosecurity plan developed collaboratively with an equine veterinarian includes implementing routine preventative protocols that take into consideration all means by which infectious disease could be introduced and spread, as well as developing protocols for responding to confirmed or suspected cases of infectious disease.

The following document provides step-by-step instruction for practitioners striving to develop effective biosecurity and outbreak response protocols for their clients and practices. It is important that protocols be updated regularly on the basis of information gained in the wake of managing a prior incident or new findings pertaining to specific infectious diseases.

II Routine Biosecurity Protocols

1. Equine entry onto the premises
 - a. Routine requirements
 - i. For events or stables, restrict entry to healthy equids only and set policy for refusing entry of equids displaying clinical signs of infectious disease ([see Section III.b.iii](#)). Ideally, staff should observe equids upon arrival to confirm animal identification, check health documents and observe equids for general signs of good health. Consideration can be given to the requirement for a recent certificate of veterinary inspection (CVI) and certification by the exhibitor or owner regarding the horse's recent disease exposure history.
 - ii. New entries to stables where there are long-term resident equids should be isolated from the resident equids for 2-3 weeks and monitored for signs of contagious disease. During this time, equipment should not be shared among new and resident equids, and caretakers should ideally follow protocols described in

[Section III.](#)

- iii. Resident equids returning to their home stable from an event should be fully isolated or at least have their temperatures checked twice daily for at least 1 week to allow early detection of disease.
 - iv. It is good practice to segregate equids on a facility by use and age. For example, show equids should be segregated from resident broodmares and their foals.
 - v. Premises may require that equids have documentation of specific vaccinations (See [AAEP Vaccination Guidelines](#) for recommendations).
 1. For premises with increased public exposure risks, a rabies vaccination requirement is prudent to protect both animal and public health.
 - vi. Apply animal health standards for other species of animals (e.g., cattle) entering the premises.
 1. Recommend housing different species of animals separate from equine populations.
 - vii. Equids belonging to the same owner or trainer should be housed together with empty stalls between groups of equids if possible.
- b. Requirements for entry during local disease outbreak
- i. When an infectious disease outbreak occurs locally, additional restrictions should be applied for animal entry to events or stables.
 - ii. Restrict entry to equids for which the owner/agent provides a CVI issued within 7 days of arrival at the event venue. A CVI issued 72 hours before arrival is optimal. If a CVI is not required, then an owner/agent [declaration statement](#) attesting that the listed equid(s) arriving at the premises has/have been healthy with no clinical signs of a contagious disease or body temperature(s) above 101.5°F (38.61°C) for the preceding 7 days may be warranted.
 - iii. Additional health requirements may be required such as a written statement on the CVI which attests to the equid's health and exposure status. For example, an additional requirement may include a statement that "The listed equid(s) has/have not been on a premises with a confirmed case of neurologic form of EHV-1 in the preceding twenty-one (21) days" if there is a local outbreak of neurologic EHV-1.
- c. Facility records should be maintained on equid movements (entering, remaining on, and exiting the premises), location of individual animals, and equid health status procedures (monitoring and treatment records).
2. Equine Health Monitoring
- a. **Continuous health monitoring of all equids on the premises should be required.** This is the key to early identification and containment of infectious disease with minimal disruption.
 - i. Options include having designated staff performing periodic walk-throughs of stables to directly observe equids for any clinical signs of disease or relying on self-reporting of disease by exhibitors or owners (the requirement for which should be stipulated in entry forms or boarding agreements).

- ii. Any sign of disease should be reported to the designated individual with the authority to initiate immediate disease control measures, such as isolation.
 - iii. Requirements at events should include taking equid temperatures twice daily and documenting temperature readings in a log. Consider requiring the posting of a temperature monitoring log on the stall door which allows designated staff to easily perform checks on temperature recordings. To ensure compliance with the equid temperature monitoring requirement, staff should perform random audits of logs.
 - iv. Owners of equids at boarding stables should be instructed to report clinical signs of disease in their equid to the facility owner or manager.
3. General Protocols
- a. Water sources
 - i. Communal water sources should not be offered at events and exhibitors should be instructed to use their own buckets and to not share any type of equipment with other exhibitors.
 - ii. To avoid cross-contamination, hoses should not be allowed to touch or submerge in water buckets while filling.
 - b. Housing
 - i. Stalls should be cleaned regularly, and waste stored in an area remote from equids. Equipment used for cleaning stalls should not be used for feed and vice versa, e.g., the same wheelbarrow used to transport soiled bedding should not be used to move feed.
 - ii. Stall designs and construction impact infectious disease transmission within facilities. Housing that prevents equid to equid contact over or through walls, and/or prevents equids from reaching into the barn aisle can limit disease transmission.
 - iii. Stalls should be cleared of bedding and disinfected between each horse.
 - 1. Stall cleaning and disinfection starts with removal of all buckets, hay nets, feed tubs, stall webbings, metal grates, etc. followed by scrubbing with detergent solution, rinse, then disinfection. Disinfectant solutions require appropriate surface contact time and should be applied according to product label directions. Finally, surfaces are rinsed thoroughly with potable water and allowed to dry.
 - 2. For stalls with non-porous walls and floors (ideal situation):
 - a. The most important step in sanitizing livestock facilities is the cleaning (detergent) step.
 - b. Wet down all surfaces -- walls, ceilings, ledges (top of walls) -- with detergent and water. Powdered laundry detergent can be used; some veterinary disinfectants also have a detergent incorporated in the mix.
 - c. Allow 5-10 minutes for the detergent liquid to soften dried organic material, then scrub surfaces

- with a stiff-bristled broom used only for stall cleaning.
- d. Rinse, beginning at the top of walls and working toward the drain. Repeat until surfaces are clean, including corners, ledges, and drains. NOTE: Do not use power washers set at >120 psi, as they can aerosolize pathogens. A garden hose with a regular nozzle is acceptable.
 - e. Squeegee excess water off surfaces or allow them to dry.
 - f. Carefully read all disinfectant labels and implement necessary protective clothing as well as eye and respiratory protective equipment prior to starting the disinfection step of cleaning and disinfection procedure.
 - g. Apply disinfectant according to label directions to all vertical and horizontal surfaces, starting at the top of stall walls and working from the far end of the stall to the exit. Allow to dry.
 - h. Repeat disinfection may be necessary for difficult to inactivate pathogens, such as *Salmonella* and rotavirus. Herpes and influenza viruses are more susceptible to detergents and disinfectants and one cycle is generally sufficient.
3. If stalls are constructed of porous materials (untreated wood construction, dirt, or clay flooring, etc.), it must be recognized that these are extremely difficult to adequately clean and disinfect.
 - a. Remove all bedding and organic matter and thoroughly dry scrub all surfaces to remove as much organic matter as possible.
 - b. Follow up by scrubbing stall walls with a detergent solution. Cleaning with large quantities of water can turn dirt or sand floors into a slurry and should be avoided.
 - c. Disinfectants sprayed on porous surfaces may yield inadequate results, and the effectiveness of application will depend upon the targeted organism and the amount of organic material still present.
 - d. Sunlight exposure may be helpful for inactivation of potential pathogens (Weese *et al*, Survival of *Streptococcus equi* on surfaces in an outdoor environment. *Can Vet J.* 2009;50(9):968-70).
 - e. Stalls should be allowed to dry with open ventilation and sunlight for as long as feasible.
 4. Improving air circulation and ventilation in barns reduces ammonia levels and may help reduce transmission of respiratory and airborne pathogens.

5. It is important to remember that exposure as a result of shared air spaces may differ by pathogen. For example, for airborne pathogens such as influenza, all equids stabled under one roof would all be considered exposed, however, in an outbreak of *Streptococcus equi*, more direct contact would be required for a horse to be considered exposed.
- c. General recommendations for disinfectant use
 - i. Follow all product label instructions, especially precautionary warnings and personal protection equipment requirements for proper use and disposal.
 - ii. **DO NOT** mix disinfectants with other chemicals.
 - iii. Select a disinfectant that has documented effectiveness in the presence of organic matter, works in the water hardness of the locale, and is safe to use around equids and humans.
 - iv. Diluted bleach is readily inactivated by organic matter; use only after thorough cleaning. **Note:** Diluted bleach is the only practical, commercially available disinfectant that kills clostridial spores.
 - v. Viruses with envelopes (e.g., influenza, herpesviruses 1 & 4, equine arteritis virus, etc.) are readily inactivated by detergents and disinfectants.
 - vi. Phenolic and peroxygen based products are effective for viruses lacking an envelope (e.g., rotavirus).
 - vii. Determine where drains discharge prior to using detergents and disinfectants. Certain detergents and disinfectants cannot be discharged directly into bodies of water.
 - d. Disinfectant Resources for Practitioners
 - i. [AAEP disinfectant table](#) provides practical information of common equine pathogens and the efficacy of disinfectants on various surfaces and materials.
 - ii. Disinfection 101 from The Center for Food Security and Public Health at Iowa State University
 - iii. [Table of Characteristics of Selected Disinfectants](#) from The Center for Food Security and Public Health at Iowa State University
 - e. Hand Hygiene
 - i. If equids are being handled for inspection by facility staff for any reason, hands should be washed between equids or at least between groups of equids owned by different exhibitor groups. Alternatively, disposable gloves could be worn and changed between patients.
 - ii. Whenever possible, touching the equid should be avoided. For example, in bit inspections, the handler can remove the bit from the equid's mouth without the inspector contacting the bit or equid.
 - iii. If contact between the public and equids cannot be avoided or is encouraged (e.g., petting zoo situation), handwashing or sanitizing facilities should be strategically placed to encourage use.
 - iv. Instructions for handwashing

1. Hands should be washed under running water with pump-dispensed liquid soap (not bar soap) for a minimum of 20 seconds.
 2. If facilities are not available for handwashing, hand sanitizer containing at least 61% alcohol should be used and allowed to dry for 10-15 seconds. Hand wipes should be available to remove all organic debris prior to using hand sanitizer. Caution: avoid exposure to open flame due to flammability.
 3. Extensive information about hand hygiene is available through the [Centers for Disease Control and Prevention](#).
 4. Also, please [see this article](#) from the AAEP proceedings on hand hygiene protocols in the equine veterinary setting
- f. Equipment and Supplies
- i. Equid-specific equipment (feed tubs, water buckets, halters, pitchfork, wheelbarrow, etc.) should be clearly identified as belonging to an individual equid and should be used only for that equid or the group of equids. Ideally, color-coded (a strip of colored tape works well) buckets and cleaning equipment should be used for groups of equids.
 - ii. Shared equipment (lead shanks, lip chains, bits/bridles, twitches, dose syringes, thermometers, grooming supplies) should be cleaned of organic debris and disinfected between equids.
 1. All equipment should be thoroughly scrubbed and cleaned with a detergent and water, rinsed, disinfected, and followed by a final rinse. This should be done in an area with minimal foot and vehicular traffic flow that can be cleaned and disinfected after this procedure (e.g., on a solid surface with a drain rather than a grazing area)
 2. Cloth items (saddle cloths, towels, bandages, halter fleeces, rub or wipe rags) should be laundered and thoroughly dried between each use. Disinfectant may be added to rinse water, but an additional rinse cycle must be included to remove disinfectant residue.
 3. Tack and other equipment which cannot be completely disinfected should be cleaned as well as possible and then placed in the sun until dry or as long as feasible, as sunlight inactivates many potentially infectious agents.
 - iii. Equipment that cannot be effectively disinfected (sponges, brushes not designed to be disinfected) should not be shared between equids. Multiple dose medications (oral pastes/ophthalmic ointments, etc.) should be labeled for use by a specific equid and not shared.
 - iv. Ointments/topical medications should be removed from larger tubs and aliquoted into smaller containers for use on individual equids.
 - v. Horse trailers and vans should be cleaned and disinfected between uses even if there is no known risk of disease. In general, protocols for cleaning stalls can be adapted to the cleaning of trailers and vans. Mats should be removed to allow wood plank floors to dry.

Surfaces around the feeders and cross ties should be given special consideration due to contact with potentially infectious nasal secretions.

- g. Traffic
 - i. The movement of trucks, trailers, tractors, golf carts, wheelbarrows and bicycles around an equine premises have the potential to spread infectious disease agents. Restrict vehicles to designated parking areas and designated routes without animal access to limit risk of disease introduction and spread.
 - ii. Outside supply trucks and non-essential vehicles should not be permitted in the equid stabling area.
- h. Non-equine species
 - i. Dogs and other pets should be prohibited from event grounds. If dogs are to be permitted, leashes should be required.

Certified service animals should be allowed with appropriate restraint and efforts taken to avoid their direct contact with livestock.

- i. Vermin and vector control
 - i. Vermin control is critical, especially for disease agents transmitted through fomites. Simple control measures, such as securing feed storage areas from unwanted wildlife, removing brush and wildlife habitats, instituting rodent control measures, and eliminating areas of standing water, will contribute significantly to the reduction of disease transmission risks on the event premises
 - 1. The [USDA IPM Road Map's](#) Appendix 1A PRINCIPLES OF INTEGRATED PEST MANAGEMENT (IPM) outlines considerations for pest management and implementation. Additional resources are available within the USDA's [Information Resources for Animal Control and Wildlife Damage Management](#).
 - ii. Rodent, bird, and insect control should be evaluated, and further measures implemented, as necessary.
 - 1. The [AAEP External Parasite and Vector Control Guidelines](#) outline recommendations for control of external vectors important in disease transmission.
 - iii. For large premises with significant equid traffic and accumulation of manure and soiled bedding, consult an insect control specialist for the most appropriate recommendations.
 - iv. Individual animals can be protected from insect vectors via topical insect repellents and physical barriers such as face masks with ear protection, leg boots and fly sheets.

III Outbreak Response

- 1. Prompt isolation of sick equids is critical to the successful control of an infectious disease outbreak.
 - a. Preparation of Isolation Area
 - i. Location and Attributes

1. As far away as possible from general human, equine, and vehicle traffic areas. A pre-designated offsite facility may be preferable.
 2. External perimeter secure and clearly marked with adequate [signage in both English and Spanish](#) designating it as a restricted area.
 3. Set up a temporary pen structure if no suitable permanent stabling is available
 4. Optimal isolation stabling has non-porous flooring, running water, and electricity, and is in an area where run-off will not occur
 5. Openings in stall walls (windows, gaps between boards) should be covered with solid barrier material to prevent equid to equid contact.
 6. Should be accessible to large equipment if necessary to handle a down or deceased equid
 7. A local veterinary hospital should be pre-designated that can treat equids requiring isolation with medical needs that cannot be addressed at the show facility's isolation area
- ii. Supplies
1. An adequate inventory of disposable personal protective equipment in a variety of sizes and other necessary equipment and supplies (including disinfectants as described in section II) should be acquired in advance and stored in a location accessible to the isolation area. In the case of an outbreak, there should be enough supplies to operate immediately until additional supplies can be delivered.
 2. Ensure that adequate trash receptacles with lids and receptacles for sharps and biohazardous materials are conveniently located around isolation area.
 3. List of suggested items
- b. Sick Equid Trigger Point:
- i. The definition of a sick equid and specific trigger points warranting the response of isolation of an equid should be outlined for the premises.
 - ii. Consult local, state, or federal animal health officials to determine specific trigger points and response action for reportable diseases. **Note**, the response to a reportable disease may vary by state; therefore, it is necessary to contact the official in the state where the event is held to determine which are reportable diseases.
 - iii. General recommendations to consider for designation as a response trigger for isolation include detection of:
 1. Body temperature greater than 101.5°F (38.61°C)
 2. Ataxia or recumbency or other neurologic signs
 3. Aggressive behavior or stupor
 4. Passage of frequent loose feces
 5. Oral or coronary band vesicular or ulcerative lesions
 6. Nasal discharge, coughing, and/or lymphadenopathy
 7. Limb or ventral body wall edema especially if it occurs in multiple horses

- c. Entry and Exit Protocols
 - i. All movement in and out of the isolation area should be regulated and recorded, e.g., with check in sheets.
 - ii. Additionally, maintain a log, recording events as they occur, including case identification (which horses got sick), control measures implemented, diagnostic testing results, and communications.
 - iii. Disinfectant footbaths or mats should be placed at all entry and exit points to and from the isolation area and each stall.
 - 1. Disinfectants suitable for footbaths and mats include 10% bleach or peroxygen compounds such as Virkon® S. Read label indication, instructions for use and safety information prior to using any disinfectant. Please see the disinfectant table linked in Section II.C.3 for more information.
 - 2. Disinfectants should be chosen based on environmental temperature considerations. Partially frozen foot baths/mats are likely to have minimal efficacy.
 - 3. The footbaths and mats should be kept as free of organic matter as possible and routinely filled with new disinfectant solution (at least every 2-3 days and preferably daily).
 - 4. Rubber boots or other footwear suitable for disinfection should be worn. If other types of footwear are used, plastic over-boots should be employed and disposed of after each use. The tread of rubber boots should be kept free of organic debris with a brush.
 - iv. Handwashing or hand sanitizer stations should be placed at all entry and exit points to and from the isolation area and each stall (See section II.C.4 for information on hand hygiene). Hand hygiene should be performed before entering and when leaving each stall, and before entering and leaving the isolation area.
 - v. Personnel should don a protective gown and latex or nitrile gloves before entering a stall to examine or care for an equid. Gowns and gloves should be disposed of after each use and between equids in a covered refuse container. If a cloth gown is used, it should only be used once and then laundered.
 - vi. Caretakers should be provided with a changing area. Clothes should be changed and laundered, and footwear changed or disinfected after leaving the isolation area and before handling other equids.
 - vii. All necessary supplies should be in the isolation area before moving the sick equid into the area. If necessary, additional supplies may be brought to an area adjacent to the isolation area for easy transfer. Designated equipment should remain in the isolation area.
- d. Care, monitoring, and testing of sick equid(s) in isolation
 - i. ANYTHING that touches an infected equid, and its secretions or excretions has the potential to transmit pathogens to other equids. Pathogens can be indirectly transmitted to other equids on equipment, tack, hands, footwear, or clothes.
 - ii. Ideally, designated trained staff provided by the facility should work exclusively in the isolation area to care for equids and designated

equipment should remain in the isolation area. If multiple individuals are moving in and out of isolation to care for equids, extreme care must be exercised in following biosecurity protocols, especially if these individuals are also caring for well equids not in isolation. This situation is not ideal.

- iii. If it is unavoidable that an individual has to provide care to both affected and unaffected animals, then the following precautions should be observed:
 1. Care of healthy, unexposed animals (feed/groom/exercise/muck stall) should be completed first
 2. Exposed but healthy animals next
 3. Affected/sick animals last
- iv. The health of all equids in isolation should be closely monitored and necessary supportive care and medical treatments provided. If required medical care exceeds the capabilities of the isolation unit, the equid should be transferred to an isolation facility at a referral veterinary hospital.
- v. Depending on clinical presentation, determine the samples for diagnostic testing and send to pre-determined diagnostic laboratory in order to confirm or rule-out specific infectious diseases of interest.
- vi. Manure and soiled bedding from stalls of sick equids should not be put in open air piles or pits or spread on pastures. It should be placed in heavy plastic bags or covered secure dumpsters for disposal in a landfill. If the disease is zoonotic, any potentially infectious waste should be disposed of by the method recommended by public health officials.
 1. Composting can be a successful method, but care must be taken to follow specific guidelines. Reach out to local organics or composting professionals for guidance.
- vii. If a professional laundering service is used, they should be informed if any of the materials are potentially infectious. If barn laundering facilities are used, the washing machine should be cleaned by running empty with a suitable disinfectant following use on potentially infectious materials.
- viii. All equids demonstrating neurologic clinical signs with no confirmed diagnosis should be clearly marked with a “rabies suspect” sign on the stall and reported to public health authorities. Restrict personnel access to the equid and ensure that anyone contacting the equid wears double gloves, protective clothing, and splash protective equipment (face shield or goggles) as necessary. Record the names of all who make contact with the equid in a log so that they can be contacted in the event of a positive rabies diagnosis. See AAEP Rabies Guidelines for further information.
- ix. If euthanasia is required, the ideal location is on a remote area of the grounds accessible to large equipment or trucks, with no public access.
 1. If euthanizing an animal that has been quarantined by the State, contact the State or Federal Animal Health Official for permits and guidance for disposal and movement.

2. Consider collecting appropriate biologic samples prior to euthanasia, if not already performed, for banking and subsequent testing. The method of euthanasia should be considered in light of suspected disease.
 3. Someone capable of removing or burying carcasses should be identified in advance of necessity.
 4. The route of a rendering truck or dead stock hauler on and off the premises should not cross any live equid routes or exercise areas.
 5. Necropsy of any equid that dies or is euthanized should be strongly recommended and optimally performed off-site at a veterinary diagnostic laboratory. The State Animal Health Official should be consulted in case they would like to request specific and expedited tests. In the case of a potential zoonosis, necropsy is essential to protect public health.
- e. Release of equids from isolation
- i. The state or federal animal health official will be in charge of determining release protocols in the event of a reportable disease.
 - ii. The event veterinarian and management should work together to determine isolation release protocols in cases of non-reportable potentially contagious diseases.
 - iii. In general, potentially exposed equids should be maintained separate from the general population at the event until one of the following occurs:
 1. The index equid no longer has clinical signs and tests negative for all suspected infectious disease agents
 2. A non-contagious disease is confirmed
 3. A time period of appropriate surveillance has passed, or diagnostics have been performed, confirming disease transmission has not occurred.
 4. Permission is given by the appropriate authorities to move the equid to another location.
2. Management of premises not in primary isolation perimeter
- a. Exposure assessment and risk assignment of equids without clinical disease
 - i. High Risk: An equid that had direct contact (nose to nose, shared fence-line) with a sick equid
 - ii. Moderate Risk: An equid that may have had indirect contact (communal water trough, shared wash rack, shared equipment, common personnel) with a sick equid
 - iii. Exposure assessments may vary depending upon disease agent. In the case of a disease such as equine influenza that is transmitted over longer distances than a bacterium such as *Streptococcus equi* subsp. *equi*, high risk equids may include all equids sharing air space (i.e., in the same barn or transported in the same trailer/van) as affected equid(s).
 - b. Restrictions on equid movement during an outbreak
 - i. Restrictions on equids will vary dependent upon risk assignment and the disease agent

- ii. The state or federal animal health official will be in charge of determining restrictions on at-risk equids in the event of a reportable disease.
 - iii. The event veterinarian and management should work together to determine restrictions in cases of non-reportable potentially contagious diseases.
 - iv. In general, equids that are at high risk would have more stringent restrictions and monitoring than low risk equids. Following biosecurity procedures similar to those used in isolation for higher risk equids is recommended to prevent further disease spread. Higher risk equids should be exercised separately, preferably in a different arena, from equids in lower risk groups.
 1. It is recommended participants/boarders sign an agreement with the event/facility stating they will abide by all disease outbreak restrictions and protocols.
 - v. Temporary movement restrictions may be necessary until assessment of the situation is complete, especially in higher risk or higher consequence disease situations, after which permission for allowing certain movements on the premises may occur. Policies should be communicated, preferably face to face, to those impacted, and enforcement of policies should be consistent and fair.
 - vi. A plan for promptly closing the premises should be developed in the event it is needed, with procedures outlined to redirect personnel resources to close and lock gates, block roadways to and from the premises with barriers, and monitor entry and exit of vehicles.
 - vii. It is essential that facility management be aware of what equids are on the premises and where they are stabled. This ideally is a routine practice but is especially important in an outbreak. This may require barn to barn inspection and documentation.
 - viii. A check-out protocol is necessary for equids whose owners are given permission to move them from the premises. A basic check-out process includes follow-up owner/agent contact information (cell phone number and email address), documentation of equid identification, and the intended destination for the equid. This simplifies follow-up if necessary.
- c. Monitoring of equids during an outbreak
- i. Continuous health monitoring of all equids on the premises is a priority during an infectious disease outbreak.
 - ii. Recommend event or facility managers predetermine the consequences of noncompliance with biosecurity protocols and notify individuals prior to horse entry.
 - iii. Designated, knowledgeable, experienced individuals should perform periodic walk-throughs of stables directly observing equids for any sign of clinical disease while abiding by appropriate biosecurity when moving around the facility. Movement should be determined by risk factors and be from low to high-risk areas.
 - iv. Owners/trainers/grooms of equids should be required to monitor their equids for signs of disease and report any clinical signs to show management or attending veterinarian.

- v. Temperatures should be taken on equids twice daily and documented in a log displayed on the stall door for easy assessment. Temperatures should not be taken immediately after exercise, i.e., they should be obtained after equids are cooled out to avoid spurious elevations.
 - vi. An equid body temperature over 101.5°F (38.61°C) should be immediately reported to management. Equids with temperatures between 100°F (38.61°C) and 101.5°F (38.61°C) should be monitored for other signs of disease and have the temperature retaken in 1 hour.
 - vii. Equids demonstrating “sick equid triggers” outlined in III.A.2 should be moved to the isolation area and managed there.
 - viii. Consideration should be given to updating or initiating vaccination in at risk equids when appropriate. Please [see AAEP Vaccination Guidelines](#) for further information.
- d. Additional restrictions and recommendations for disinfection
- i. Since dogs or other pets may carry infectious disease agents from one location to another on the premises, no dogs should be on the grounds during an infectious disease outbreak. Require owners with dogs onsite to immediately remove dogs from the grounds. Dogs should not be placed in trailers or vehicles due to the possibility of escape, barking and temperature stress.
 - ii. Immediately clean equipment of organic matter, thoroughly scrub with detergent and water, rinse, dry and disinfect all previously shared equipment (lead ropes, chains, bits, twitches, thermometers, grooming supplies, etc.). Items, such as tack, to which disinfectants cannot be applied, should be cleaned, and allowed to dry in the sun, since sunlight inactivates/kills many pathogens. Sharing of equipment should be discouraged, but any equipment which must be shared should be cleaned and disinfected between uses.
 - iii. During a disease outbreak, it is essential to communicate disease biosecurity measures to visitors. Keep visitors out of the equid areas and inform them of proper biosecurity measures if they are returning to equid premises.
 - iv. Steps to limit direct and indirect equid contact are necessary. All areas which are touched by human hands or by equids, such as fences, wash racks, bathroom sinks, faucets, light switches, and door handles, should be cleaned and disinfected at least daily. Common use items, such as wash stall cross ties and washing equipment, should be removed and personnel should be required to use their own equipment. Monitor exercise and exhibition areas to ensure that minimal direct or indirect equid-to-equid contact occurs. Restrict individuals from tying equids to fencing outside the arenas or stabling areas, since fencing can be contaminated by secretions of an infected equid. Indoor arenas and indoor stabling can potentially increase the risk of aerosol spread. Indoor arenas may be taken out of use, and individuals required to utilize outdoor arenas if aerosol pathogen spread is suspected.
 - v. During an infectious disease outbreak, only the owner or designated personnel should handle equids on the premises. Limit the sharing of personnel between barns or trainers. Supply additional hand washing

stations and signage during the outbreak to enable equid handlers to perform proper hand sanitation after handling each equid.

- vi. Thorough cleaning and disinfection of the premises at the beginning of an infectious disease outbreak can significantly reduce the potential for disease agent spread. Start with the removal of all manure, soiled bedding, and uneaten feed, then remove residual organic matter by washing all surfaces with soap and water before the application of a disinfectant. To limit vehicle traffic on and off the premises, consider ordering bulk disinfectant supplies for delivery to a designated biosecure area on the grounds.
 - vii. Sunlight inactivates/kills many pathogens. After cleaning and disinfecting buckets, tack, and equipment allow them to dry in the sunlight if possible. After cleaning and disinfection for some pathogens, like *Salmonella*, it may be necessary to obtain test samples of the environment to determine elimination of the organism.
 - viii. Request that individuals clean and disinfect their equipment, trailer, and vehicle before leaving the grounds.
 - ix. The plan should include feed store contact information to re-arrange for feed and bedding delivery. Delivery protocols that require the cleaning and disinfection of trucks upon entry and exit may be warranted. Vendor personnel may also be required to use disposable coveralls and disposable footwear covers when delivering supplies (i.e., grain, hay, supplements, bedding). Management should assess the potential feed and bedding needs on the premises and consider necessary arrangements for a single delivery to a designated area. To minimize disease spread on the grounds, designate personnel to be responsible for the delivery of the feed to the barns. Deliveries should be first to low risk/healthy equids, then exposed equids and lastly to clinical equids.
 - x. All shared facilities/equipment (e.g., detention barn stalls, receiving barn stalls, starting gate, equine ambulance) should be cleaned and disinfected after each use.
 - xi. Horse trailers and vans should be routinely cleaned and disinfected after each use, but especially after being used to transport ill or potentially ill animals.
 1. Management should predetermine a location for cleaning and disinfection in accordance with Environmental Protection Agency (EPA) guidelines and any applicable local jurisdiction.
- e. Communication
- i. Clear and concise signage and messaging to all on the grounds is essential. During an infectious disease outbreak, there is limited time to develop adequate signage, so developing critical messaging before an outbreak and having clear attention-getting signs available for use in an outbreak will aid in prompt effective communication and successful implementation of enhanced biosecurity and infectious disease control plan measures. Decide in advance where signage will be posted. See link to suggested signs in English and Spanish in section III.A.1.
 - ii. Notification of all affected parties is a critical component for an effective infectious disease control plan. Development of clear, concise, and

accurate messages about a situation, the measures being taken and the procedures for owner/trainers/grooms to follow is critical to prevent the spread of disease and panic among the group. This may be best accomplished by issuing a press release in high profile situations.

- iii. Before a disease outbreak, outline a communication plan to notify staff, trainers, owners, public and vendors of an incident. Consider incorporating several communication modalities to ensure rapid, unified messaging to a large audience. Contact information for other individuals who may be able to assist during an infectious disease outbreak should be organized and readily available. Create a complete emergency contact list and provide it to all staff at the beginning of the disease event. Consider having a public relations specialist develop a communication plan and have their contact information readily available for provision of messaging at the appropriate level and preparation of timely updates.
